

"Threats to Democracy"

Does anyone else find it ironic that Joe Biden and other "*Democrats*" have accused Republicans of being "**a threat to democracy?**" Their PR flacks at the networks and on cable news have blindly repeated this accusation with regularity, and people who should know better have started to parrot the lie as well.

Yet, "*Democrats*" are the political party that **weaponized** the FBI and DOJ; Foolishly threw trillions of dollars at **green** enterprises; Actively conspired with social media to **cancel** critics; Forgave the **student loans** of supporters without Congressional approval; Allowed BLM and Antifa to **burn cities** with impunity in 2020; Generated 9% **inflation** by spending \$10 Trillion in two years; And, inspired skyrocketing **violent crime** rates in **BLUE** cities by de-funding their police forces and adopting delusional criminal justice "*reforms*."

Anyone with an IQ exceeding that of a cabbage should realize that the **TRUE** threat to American democracy is the misnamed "*Democrat*" Party, more accurately designated the ***New Communist Party of the USA*** (NCPUSA.) In the two years Joe Biden has wrongly occupied the Oval Office -- and staffed his cabinet with communists, globalists and lunatics and traitors -- every policy they've implemented has profoundly damaged America. The resulting disasters **CANNOT** be explained away by incompetence or mere coincidence.

If America survives the Biden Administration, the legacy of Joe Biden and his NCPUSA will be skyrocketing crime, rampant inflation, an economy severely damaged by COVID mandates, energy dependence, voter fraud, a *tsunami* of illegal immigrants, federally-funded "*gender dysphoria*," a *woke* and impotent military, and a timid foreign policy that's invited every bad actor in the world to flex their muscles.

Jimmy Carter can now go to his grave and *Rest in Peace* knowing he will not be remembered as the worst president in American history. Simply put, Joe Biden makes even Jimmy Carter look like Teddy Roosevelt, Ronald Reagan, or George Washington.
