

Midterm Benefits

by Earl P. Holt III

I won't sugar-coat the disappointment of the 2022 midterm elections: instead of a *red tsunami* that many of us anticipated, the results were often discouraging. Maybe the dolts who've empowered an organized criminal enterprise need to experience two more years of double-digit inflation, energy shortages, skyrocketing crime rates, and the invasion of five million more illegal aliens before they "*get it.*"

Of course, one specific reason the midterms were disappointing was that vote fraud reoccurred in some of the same cities and counties as in 2020, such as Milwaukee, Detroit, Philadelphia, Las Vegas and Maricopa County, Arizona. A few truly exceptional candidates like Kari Lake, Blake Masters, Adam Laxalt and Lee Zeldin were fraudulently denied the offices they earned, while far less capable opponents supposedly carried the day.

However, despite their many disappointments, the midterms were not without some bright spots that should not be overlooked. Kari Lake, Ron DeSantis and J.D. Vance are rising stars in the Republican Party, and each is a fearless conservative and principled *FIGHTER*. It is impossible to imagine any of the three becoming a RINO whore for the GOP donor class.

Another bright spot is that we'll no longer have to listen to the mindless babbling and endless lies of the incredibly dizzy former-Speaker, Nancy Pelosi, a *capo* in the organized crime wing of the misnamed "*Democrat*" Party. She'll now be free to devote more time to her husband "*Pauli*," and perhaps ride herd on the many girlfriends (and *boyfriends*) he seems to have cultivated while she was busy playing Speaker.

A Republican majority will soon control all House committees, which means that the ***Biden Family Crime Syndicate*** will no longer be able to hide its misdeeds from the public record. The *House Oversight Committee* under Jim Comer (R-KY-1st) has a wealth of evidence to examine when they get around to investigating the myriad crimes of the Bidens. The committee's most difficult task will be getting their findings to the American People, after end-running censorship by the same Jews' Media that hid the scandal from voters for two full years.

The *House Judiciary Committee* under Chairman Jim Jordan (R-OH-4th) will be as relentless in pursuing crooked cops in the DOJ and FBI as Jordan was in winning two NCAA Wrestling Championships. Those in the FBI or DOJ who participated in "*general*" searches of the homes and offices of innocent political opponents -- every search an unconstitutional *fishing* expedition -- should probably get their *resumés* up-to-date.

Moreover, all the criticism Kevin McCarthy endured from conservatives in the last few years may have helped to stiffen his spine. As Speaker, he claims he will deny committee assignments to Adam Schiff (Pathological Liar-CA-28th,) Eric Swalwell (China Stooqe-CA-15th,) and Ilhan Omar (Mau Mau-MN-5th.)

Schiff lied to the American People approximately 300 times that he had seen proof in *House Intelligence Committee closed* hearings that President Trump colluded with Russia to steal the 2016 election. Swalwell was sleeping with a Chinese communist spy named *Fang Fang*,

and then tipped her off to FBI scrutiny of her activities before she fled America. Omar may have engaged in a fraudulent "*marriage*" to her previously-nationalized brother in order to become a U.S. citizen, illegally.

Three Treasonous Scum Balls

The accomplishments of Governor Ron DeSantis turned Florida bright red, and he'll be president someday if we survive the treachery of the ***New Communist Party of the USA***, better known as "*Democrats*." In Nevada, they apparently couldn't steal enough votes to prevent the election of a Republican Governor, although they did steal Adam Laxalt's Senate seat in the middle of the night after video surveillance went dead for eight hours. Likewise, most Trump-endorsed candidates won their elections, with the few exceptions being those who were victims of voter fraud.

In addition, four **BLUE** House seats became **RED** House seats in New York state -- including two on Long Island -- where all four Congressional Districts are now held by Republicans. Around the nation, many socially-conservative school board members were also elected, many of them in Florida after receiving the endorsement of Governor Ron DeSantis.

Returning to the new GOP majority in the House: if it shows enough courage, principle and party discipline, it can block further treasonous spending and environmental legislation by the NCPUSA. Obvious targets would be the billions that Biden mindlessly pledged to the *United Nations* as "*environmental reparations*" to Africa, the insane funding of "**green**" energy, and the proposed hiring of 87,000 additional IRS Agents to harass the NCPUSA's political opposition.

House committees might also take a peek at the way humanitarian aid was laundered by the Ukraine and returned as investments in Sam Bankman-Fried's **FTX**, money that soon morphed into campaign contributions to "*Democrat*" candidates for office. They might also take a gander at the perjury, misappropriation and self-dealing of Dr. Anthony ("*I AM the science*") Fauci, former head of the NIAID and enthusiastic funder of the **Wuhan Institute of Virology** where COVID was engineered.

So, our task at this point is greater than we anticipated. We don't have the votes to Impeach and remove Biden from office, nor anyone in his cabinet. However, for those "*sunshine soldiers*" who are inclined to quit fighting, heed the immortal words of Shakespeare's **Henry V** before the *Battle of Agincourt* that ended England's *100 Years War* with France:

"...he which hath no stomach for this fight, let him depart; his passport shall be made, and crowns for convoy put into his purse; we would not die in that man's company that fears his fellowship to die with us."

Only a few hours later, Henry's army defeated a French Army that outnumbered the English by two or three to one, and did so in one of the most lopsided victories in the history of warfare.
