

# A Tale of Two Parties

by Earl P. Holt III

Congressman-Elect George Santos (R-NY-3rd) has been exposed for lying prolifically on his resume` when he ran for Congress in last November's mid-terms. He flagrantly lied about his education, his job history, and even falsely claimed he was Jewish. Almost instantly, Santos became the subject of federal and Nassau County criminal investigations.

In fact, it took law enforcement less time to initiate investigations of Santos than it took for Hillary Clinton to demolish her illegal server and **Blackberry** back in 2016. The Jewish crook running the DOJ and the Democrat National Committee are both salivating at the prospect of Santos resigning, which would give New York Governor Kathy Hochul an opportunity to replace him with a black+Jewish+lesbian immigrant with a handicap.

Santos is clearly a liar, but so are most of the ass-h\*les he'd be serving with in the House if he survives the media feeding frenzy that he, himself created. In his own defense, Santos told Tulsi Gabbard -- currently substituting for Tucker Carlson at **Fox News** -- that **Joe Biden** has "**been lying to the American people for 40 years,**" but the Jews' Media has ignored his lies. (In fact, Biden has been lying for **50** years.) Anyone who isn't aware by now of a dual system of justice in this country is living in Bora-Bora, or Outer Mongolia.

My former Congressman in South St. Louis -- **Richard Gephardt** (D-MO-3rd) -- was a pathological liar, whose campaign pledge every election cycle was a vow to fight Republican plans to end *Social Security* and *Medicare*, as he implied the GOP secretly intended to do. Also, he was first elected as a Pro-Life Democrat, but abandoned that pledge when it became convenient after about 20 years.

Returning to the organized crime figure in the White House, "**The Big Guy**" -- head of the **Biden Family Crime Syndicate** -- repeatedly claimed that his \$1.7 Trillion **Inflation Reduction Act** will help reduce inflation. Only pathological liars could allege that spending additional trillions of dollars we don't have will reduce inflation. The idiots who voted for it are all liars, as well.

DEMOCRAT  
LIES  
MATTER

**Biden** also blamed Trump for the 5.5 million illegal aliens entering the U.S. in the first two years of his administration. The *Imposter-in-Chief* has repeatedly claimed that his administration inherited "**one God-awful mess at the border**" when he assumed office. In fact, the border had never been as secure as it was under Trump, whose 450-mile sections of strategically-placed border wall and his "*Remain in Mexico*" policy for illegals had slowed illegal immigration to a trickle.

**Adam Schiff** (Scum-CA-28th) lied nearly 300 times to the Jews' Media that he personally observed evidence in *House Intelligence Committee* secret hearings that prove Donald Trump had "*colluded*" with Russia to win the 2016 Presidential Election. **(Apparently, there are no restrictions against LYING about evidence brought before the Intelligence Committee, but there ARE ethics violations for divulging**

the **TRUTH** about such evidence.) If what Schiff said were true, then the Mueller Investigation would have wrapped up its investigation in an hour-and-a-half, instead of three years.

Since we're naming names, New York Governor **Kathy Hochul** repeatedly denied during her campaign last November that crime is a problem in New York, even as violent crime rates skyrocketed, and criminals became increasingly emboldened. **EVERY NIGHT** on TV, a new and grisly video showed some n\*gger murdering an innocent citizen by shooting, knifing or pushing them under the subway. The NYPD even declined to participate in the FBI's annual reporting of crime statistics because it would have embarrassed both the city and Governor Hochul.

Michigan Governor **Gretchen Whitmer** closed down the State of Michigan so tightly during the COVID *scamdemic*, its schools remained shuttered for two years. Yet, in a debate with her outstanding GOP opponent, Tudor Dixon, she claimed that she had only shut-down the schools for three months. Every parent of a school-age child in Michigan knew that was a bald-faced lie, but she got away with it, and there was no criminal investigation of Whitmer's lies.

Pennsylvania is an energy-rich state that relies heavily upon oil and gas production for its energy needs, in addition to the revenues it receives from their royalties. Thus, the "*Democrat's*" bumbling U.S. Senate candidate in Pennsylvania, **John Fetterman**, declared three times during his one debate with his Republican opponent that he "**was for fracking.**" In fact, Fetterman has a four-year record of **OPPOSING FRACKING**, a state-of-the-art technique used by the oil and gas industries to extract additional supplies from wells once assumed to be depleted.

**Beto O'Rourke** is an unprincipled lad who's made a lucrative career losing races for public office. In earlier campaigns for the U.S. Senate and the presidency, he eagerly endorsed confiscation of "*assault weapons*"

and proposed abolition of the *Second Amendment*. Yet, in 2022 he ran for Governor of Texas, and somehow experienced an "*epiphany*," after which he claimed to be a **Second Amendment "defender!"** Campaigning in very conservative Tyler, Texas in November, he announced that he "*wants to defend the Second Amendment*" and has "*no interest in taking away*" anyone's assault weapons.

Congressman **Tim Ryan** (D-OH-13) ran against a very articulate Trump-endorsed GOP candidate for the U.S. Senate in Ohio's mid-terms, so naturally he also resorted to lying. He endorsed bipartisanship, but voted with "*Democrats*" 100% of the time in the current Congress. He also claimed that he opposed defunding police, but voted against a March 3rd, 2021 Motion in the House to condemn the practice of defunding cops in **BLUE** cities. He also praised Trump's imposition of retaliatory tariffs on Chinese imports in his recent campaign, but called them "*abominable*" and "*nonsensical*" during his re-election in 2020.

In his mid-term debate against Blake Masters, Senator **Mark Kelly** (Clueless-AZ) claimed that he stood for a secure border. In fact, Kelly repeatedly voted against border security like every other "*Democrat*" in

Congress. In 2021, Kelly voted ***against*** a Senate Motion to continue existing contracts to companies erecting Trump's border wall **THREE TIMES**. (117th Congress, Johnson Amendment # 542, February 5, 2021.) Kelly also voted against the same measure in May and August of 2021.

**I don't care if the Nassau County DA and the crooked cops at the FBI go after Santos for his lies: he probably deserves it. However, if lying on the campaign trail -- or lying as a sitting member of Congress -- can get you removed from the House, then there wouldn't be anyone left except Jim Jordan and other members of the Freedom Caucus.**

I just wish law enforcement would go after the REAL crooks in this country, like the ***Biden Family Crime Syndicate***, the ***Pelosi Family Crime Syndicate***, or those n\*gger flash-mobs that descend on retail stores like locusts on a field of ripe wheat. That would keep the FBI busy for years, so maybe they'd leave Donald Trump alone for awhile.
