

Black Obeastity

Even when I was an empty-headed youth of 13, I recognized the hypocrisy of **TIME Magazine** and its inherent bias against anything white, Christian, conservative or patriotic. This was driven home in 1990 when **TIME** awarded its "**Man of the Decade**" distinction to its favorite politician -- Mikhail Gorbachev of the USSR -- rather than the guy who actually won the *Cold War* without firing a shot.

The Gipper didn't care what **TIME** wrote because he was far more interested in what appeared in **NATIONAL REVIEW** or **HUMAN EVENTS**. He discovered long before, when dealing with communists in the *Screen Actor's Guild*, that the left was a deep and very dark cesspool of lies, treachery, subversion and treason, whose Marxist ideology dismisses "*truth*" in any form as nothing more than a bourgeois *indulgence*.

I bring this up because **TIME** recently ran an interview with some insipid Jewish woman who is alleged to be a "**historian of exercise.**" (*Don't tell ME the great issues are dead!*) Even more alarming, she's a HISTORY Professor at the **New School** in New York City, where the academic standards must resemble kindergarten. In any event, she has clearly imbibed the leftist *Kool-Ade*, and claims that America's enthusiasm for fitness and exercise is evidence of "**WHITE SUPREMACY**"!!!

She's written some book on the subject that I wouldn't read if I were paid \$1,000 per hour to do so, and I'm a slow reader. (**I won't mention the title of the book or its author, lest I give it undeserved publicity.**) Like every issue of **TIME** I ever opened, I can easily anticipate and infer her motives for saying such a fatuous and mindless thing. **She is merely one of those leftist and Jewish apologists for *Africanus obesus*, the vast majority of whom are morbidly obese, or more precisely, they are "OBEAST."**

Africanus obesus, the Author's Subjects

Nearly every black female over the age of 15 is enormously fat, and about half of the men above 40 are, as well. The apologists for black behavior reflexively excuse their lack of self-discipline in order to improve the self-image of the latter. They do the same thing with violent crime, property crimes, illegitimacy, welfare participation levels, IQs, and the lyrics found in what blacks laughingly call "*music*."

Apologists and enablers of blacks must fear that acknowledging the epidemic of black obesity (or *obeastity*) begs the question ***what do obese black people do all day besides watch TV and eat?***

In case you were wondering, this Jewish narcissist is an exercise enthusiast, herself, who has posted hundreds of pictures of her trim and athletic self all over social media. Obviously, she must be a "*white supremacist*" like the rest of us.

I wonder if it concerns the ***New School*** that it has hired a white supremacist as a History teacher?
