

RUN from the St. Louis City & County Merger !

The usual suspects have resurrected the proposal to merge St. Louis City and St. Louis County that was abandoned in 2019 for lack of popular support. This proposal would form a single Missouri county that would be far and away, the largest in the state. It would do for the rest of Missouri what "*desegregation*" has done for public education.

If you are a white person with a brain and live in St. Louis County, you should fight the merger of St. Louis City and County with every resource you can muster. Your livelihood and your savings depend on it, because St. Louis City is a *Black Hole* where tax revenues and Rule of Law go to die at the hands of corrupt, black officials.

Blacks and traitorous "*Democrats*" aspire to do for St. Louis County what they've already done for East St. Louis, North St. Louis, North County, and South St. Louis: that is, destroy it. They want your homes, your tax revenues and your schools, but **NO** public official has the guts to tell you this.

They need St. Louis County's housing stock because they've destroyed their own housing stock through arson, vandalism, incompetence and neglect. Like *The Mad Hatter's Tea Party*, they must constantly move on to destroy new neighborhoods. A wise man once called urban blacks "*brick-eaters*."

City residents are champing at the bit to trade their voluminous black criminal element for St. Louis County's tax revenues. Black crime and its costs have driven smarter whites and many businesses from the city because they bear a disproportionate share of the inevitable tax burden. However, if you don't mind subsidizing black criminals and

incompetent and corrupt black public officials, you may want to support the proposal.

Much of St. Louis City is populated by shiftless black criminals, who sit around all day waiting for their baby-momma's checks, and in the process, have become an unsupportable burden to white taxpayers. All that free time has given them an enormous opportunity to become synonymous with violent crime, property crimes and drug-sales in St. Louis City. Just think: if the merger is successful, they might become your new neighbors!

Blacks also want your schools: They've destroyed the ***St. Louis Public Schools*** through desegregation, graft, corruption, voter fraud and incompetence, thus utterly destroying what may once have been the best large, public school system in the U.S. They've nearly succeeded in driving the last white kid from the system, as I predicted they would do 30 years ago.

It's no coincidence that many of the people supporting the city and county merger are the same liars, crooks, Jews from the county, and morons who urged the \$7 Billion Desegregation Program that was the *coup d'état* for the *St. Louis Public Schools*, and which heralded the end of St. Louis City as a viable urban center. On occasion, St. Louis City has the distinction of being the "*murder capital*" of America, because it is governed by tenth-rate black morons who enable black crime.

The city of St. Louis is now as hopelessly lost as Detroit, Newark, Cleveland, East St. Louis, New Orleans, Baltimore, DC, Atlanta, Chicago, or anywhere else corrupt black officials have succeeded in destroying what were once considered "*the gems of our civilization.*" They can't help it because Third World, tribal instincts dominate everything they do and are all they will ever understand because of their under-evolved *Frontal Lobes* and very low IQs.

The best that Missouri voters can do is make certain that they successfully “*quarantine*” the evils that have destroyed St. Louis City, and prevent them from metastasizing to St. Louis County or surrounding counties. That's exactly what the proposed merger would initiate. If it were enacted, there would be immediate calls for large-scale public housing initiatives in what was once West St. Louis County.

To give you an idea of how dishonest the proposal's supporters truly are, they argue that one “*benefit*” of the merger would be to *make St. Louis one of the ten largest cities in the U.S.* How's that distinction working out for Detroit, L.A., New York, Cleveland, Washington, Philadelphia, San Francisco, Chicago, Baltimore, Atlanta or Memphis??? Each is barely governable and defined by violent black crime, welfare, slums, illegitimacy, corruption and incompetence. Each is also a malignancy to its state.

In particular, County voters must face the issue honestly because their futures depend on it. They must not allow themselves to be intimidated into doing the bidding of their mortal enemies, merely to dodge phony epithets such as the word “*racist.*”
