

China's Bitch

by Earl P. Holt III

In February, a **Chinese spy balloon** traversed the entire Continental U.S., unmolested by our air defense systems. A stable of White House liars repeatedly claimed that Joe Biden first ordered the spy balloon shot down, but was talked out of it by his hapless *Joint Chiefs of Staff*. That was a bald-faced lie, and the balloon was permitted to hover over and photograph our military installations in Montana, Nebraska and Missouri before being shot down off the coast of South Carolina after its spy mission was successfully completed.

It **SHOULD** be obvious -- even to the morons who elected him -- that Joe Biden is not only "*compromised*" in his dealings with **Red China**, he is **OWNED** by China. When U.S. officials engage in illegal or treasonous acts with foreign governments -- as the *Biden Family Crime Syndicate* has done for years -- they may enrich themselves, but they also become vulnerable to extortion by those very same governments. China's leverage over Joe Biden has been patently obvious for several years, but now that Biden is president, it has profound consequences for national security. China has been extorting endless concessions out of him **BECAUSE BIDEN IS CHINA'S "BITCH"!**

For example, over the past several years, the illicit drug **Fentanyl** has killed over 60,000 U.S. citizens per year, with no end in sight. It is often added to other drugs by the Mexican drug cartels without the knowledge of drug purchasers. The chemicals used to manufacture Fentanyl are created in **China** and then sold to the Mexican drug cartels, which then transport their finished product across our porous southern border. So long as the Biden Administration -- particularly Biden himself -- refuses to end his open borders policy welcoming illegal immigration and drug-trafficking, Fentanyl deaths will continue nearly unabated, and China won't be held accountable.

Another tip-off was Biden's secretive sales of millions of barrels of **crude oil to China** from our *Strategic Petroleum Reserve* (SPR,) not long after Americans had endured the doubling and tripling of gasoline prices following Biden's insane war on U.S. oil and gas industries. In response to the outrage over rising fuel costs, Biden began to drain the SPR to lower the price of oil, but also used the occasion to help out his friends in China. That's the same bunch that annually steals \$500 Billion in proprietary technologies from U.S. firms, and annually runs a \$500 Billion trade surplus against the U.S. by manipulating its currency to discourage U.S. imports.

China is also the nation that loosed the COVID-19 virus on the world, killing approximately eight million people worldwide, including a million Americans. Because of Biden's compromised relationship with China, our federal government must pretend that we don't know the origins of COVID, even though it clearly originated in China's Level 4 **Wuhan Institute of Virology**. That also means we **cannot hold China accountable** for COVID deaths, and exact penalties such as seizing their assets as restitution. The Wuhan Lab is where the Chinese Military's *Virologic Warfare Program* engaged in "*gain-of-function*" research to create the virus that was ultimately responsible for the COVID scamdemic.

Furthermore, America naively engages in numerous scientific, trade, diplomatic, educational and cultural exchanges with **China**, but most merely serve as "cover" for its relentless espionage activities against us. After decades of China spying with impunity on America, in 2019 President Donald Trump created the "**China Initiative**" to engage in counter-espionage against China's legions of spies operating here. Its targets are state-of-the-art weapons systems, cutting-edge research at our more prestigious universities, journalists, and corrupt and witless politicians like Eric Swalwell.

Their spy networks are staffed by seasoned professionals, assisted by 400,000 Chinese students studying in America, as well as by the staff of its 100 *Confucius Institutes* located here. All are expected to cooperate with China's intelligence services if called upon. However, the Biden Administration **CANCELLED THE CHINA INITIATIVE** in February of 2022, with the laughable explanation that the program contributed to "*racial profiling*."

In addition, **China** has brazenly established a "**police service station**" in New York City. Its alleged purpose is to "*combat fraud*" among Chinese nationals, but its true mission is to monitor students and other Chinese citizens living abroad, and extort loyalty or cooperation by threatening the well-being of relatives remaining in China. In the last year, approximately 230,000 Chinese nationals were persuaded to return "*voluntarily*" to China, each of whom faces criminal prosecution according to the European human rights organization **Safeguard Defenders**. Although China's "*police station*" in New York is a violation of U.S. sovereignty, federal officials appear willing to tolerate it, probably because of Joe Biden's cozy relationship with China.

Likewise, **China's** military frequently engages in **highly aggressive** actions against U.S. planes and ships in the Pacific because it knows that Joe Biden doesn't dare allow the U.S. military to respond with force. In June of 2022, a Chinese Su-30 fighter jet over the South China Sea came well within an "*unsafe*" distance and "*buzzed*" an American C-130 cargo plane used for Special Operations. China's naval vessels also have a long history of aggressive harassment of U.S. Navy vessels in international waters. One Chinese Air Force officer named Dai Xu has proposed that China ram US ships deployed in the South China Sea, and then "***be ready to take over Taiwan.***"

Biden is also relentlessly attempting to make the U.S. subordinate to international governing bodies, and is currently negotiating with the *World Health Organization* (WHO) to adopt the ***International Treaty on Pandemic Prevention and Preparedness***. This would expand the WHO's authority over public health emergencies, giving it the **POWER TO CROSS NATIONAL BORDERS**. It would empower the WHO's Director General -- an Ethiopian communist -- with the authority to define what constitutes an international public health emergency, and give him the power to dictate the responses of individual nations to such an event.

The WHO's Director General is a stooge for **China** -- just like Biden -- and he's the guy who repeatedly lied for China when COVID broke out because he owes his job to China. The proposed treaty would subordinate U.S. laws and the Constitution to WHO authority -- infringing on our national sovereignty -- and is a clear step in the direction of world government run by Third World Marxist bureaucrats. The WHO website considers "**climate change**" and **unequal development** among Third World nations to be "**international public health emergencies.**" One thing is certain: the WHO would quickly become a powerful tool for China.

Moreover, **Chinese** nationals purchased over \$6 Billion worth of **U.S. real estate** in 2022, much of it located near U.S. military installations. The Chinese firms **Huawei** and **ZTE** had previously sold cell tower and router equipment at a loss to small, rural telecom providers near their recent land purchases. The combination of *state-of-the-art* telecom equipment

and land adjacent to military installations could enable China to electronically intercept and "jam" the U.S. military's strategic communications. Much of that Chinese-made equipment was installed near our *Minuteman III* ICBM silos in Colorado, Montana, Nebraska, North Dakota, and Wyoming. This is an egregious national security risk.

The FBI's investigation into this threat prompted the FCC to issue a ruling in 2019 that banned small telecom companies from using certain kinds of equipment made by **Huawei** or **ZTE**. Then, in 2020, Congress appropriated nearly \$2 Billion to remove and replace approximately 24,000 pieces of Chinese-made equipment already installed in rural areas. Yet, as of this date, **NO EQUIPMENT HAS BEEN REMOVED** because the rural telecom providers have **NOT** received funds from the Biden Administration to carry out the program. Joe Biden appears unconcerned about Chinese companies purchasing land near U.S. military installations.

Biden's so-called "**green-energy**" policy -- or, more accurately, his war on the U.S. oil and gas industries -- has turned out to be a **Chinese Trojan horse**. It badly disserves U.S. consumers and U.S. manufacturers, while dramatically empowering China. China manufactures about 80 percent of the world's solar panels and their components, and controls another 80 percent of the world's Lithium market needed for all those Lithium-ion batteries found in electric vehicles. It also manufactures more than 40 percent of the world's wind turbines. Biden's insane energy policy profoundly disadvantages U.S. manufacturing, and greatly enriches China as the primary supplier of **green energy technology**.

For decades, a parade of so-called "*U.S. China Experts*" have labored under the delusion that **Red China** is guided by the *Confucian* principles of fairness, benevolence and peaceful coexistence, rather than Maoist totalitarianism. This was a gross misjudgment, attributable primarily to the fact that **NONE OF THEM** spoke *Mandarin Chinese*, rendering each

oblivious to China's true intentions. (Michael Pillsbury. *The 100-Year Marathon*. Henry Holt & Co., New York.) In reality, China is now more aggressive and expansionist than it has ever been. It is also far more subtle than previous mortal enemies in approaching its objective of becoming the world's leading superpower.

Rather than peaceful coexistence, **China's** military, intelligence and trade policies are actually guided by the 2,000 year-old principle of "**Shi**," a strategy from its "*Warring States Period*" that's designed to defeat a more powerful enemy. *Shi* encompasses numerous principles, such as inducing **complacency** in the enemy, **stealing** his technology, and **deceiving** the enemy into doing your bidding.

It also includes the principle of MANIPULATING YOUR ENEMY'S ADVISORS, SO AS TO INFLUENCE HIM INDIRECTLY. In the case of Joe Biden, China has successfully bypassed the need to manipulate his advisors by directly blackmailing and extorting Joe Biden, himself.
