

Straight Shooting

Beginning in the mid-1990s, for 9.5 years my predecessor at the CofCC (Gordon Baum) and I hosted a talk radio show in St. Louis on Friday nights, called "*The Right at Night*." Much like now, those were very violent times in St. Louis City, which occasionally earned it the distinction of being designated the "*Murder Capital of the World*."

It was impossible not to notice that the drive-by shootings between rival n*gger gangs usually ended up killing everyone in the vicinity *except* the intended target. That prompted me to facetiously suggest *on-the-air* that the *St. Louis Police Department (SLPD)* should invite the city's gang-bangers down to their pistol range, and let qualified instructors teach them how to shoot properly. That way, they might gun each other down more efficiently, rather than the innocent kids and old ladies who were often their victims.

Rabid Apes & Street Monkeys

I was reminded of my facetious suggestion when I read about a recent exchange of gunfire between rival n*gger gangs in Louisville Kentucky. In the early morning hours of New Year's Day of 2023, gangs of *Africanus criminalis* celebrated the new year by firing over 600 rounds at each other -- from 40 different guns -- without a single bullet finding its mark. They did manage to hit numerous vehicles and the windows and walls of several apartment buildings, terrorizing their occupants.

Mo Niggas Wiff Guns

The Jews' Media were astonished at this seeming coincidence, and some police officers viewed it as a "*miracle*." However, I'm appalled: a stray bullet might have killed some decent and law-abiding citizen rather than the soulless black savages involved in that firefight. **The ideal outcome would have been for the two rival gangs to decimate each other until there was only one gangbanger left alive. The sole survivor should then have been tried and executed.**

Although the incident occurred after midnight on New Year's Eve, it was ignored by the Jews' Media and went unacknowledged by the city's Jewish Mayor -- Craig Greenberg -- until 11 days later. It only came to the attention of the public because an alternative news media organ, **WAVE NEWS Troubleshooters**, broke the story after receiving a tip from a concerned citizen. There is a videotape of the gun battle from surveillance cameras, but city officials refuse to release it.

Two weeks after the gun battle, police arrested six black psychopaths on Friday, January 13th, two of whom were arrested for an earlier murder in December of 2022. The other arrests were for stolen guns, stolen cars and drug possession.

This whole, sordid episode prompted one of my favorite authors -- Paul Kersey at *THE UNZ REVIEW* -- to wistfully reminisce about the *American Colonization Society's* program to deport blacks back to Africa, a plan favored by Presidents Jefferson, Monroe, Madison, Lincoln, Grant and many other visionaries.

Clearly, no decent and law-abiding person should **EVER** be compelled to live amongst this violent, savage, witless and predatory species of under-evolved and dangerous primate.
