

Dis Country Sho Go'ed Crazy !

Anyone needing further evidence that **BLUE** cities are far beyond any hope of reform or salvaging, consider this: The negros and communist thugs who rioted in New York City in 2020 will each receive \$21,500 in damages from the city because the NYPD attempted to contain their rioting. In their class action lawsuit, the rioters, vandals and arsonists also complain that cops didn't wear masks when confronting and arresting rioters.

Quislings in the City of New York have settled out of court after 2.5 years, agreeing to pay \$6 Million to 320 rioters, or \$21,500 apiece. NYC also agreed to pay \$2,500 to those who were given a legal summons after being arrested. If that doesn't convince you that BLUE cities are hopelessly lost -- and if you choose to remain -- then you deserve whatever fate the nigs, commies and idiots have in store for you.

The spooks and communists who participated in New York City's riots injured hundreds of cops and also looted, vandalized or destroyed at least 450 businesses. They savaged just about everything in their path.

In contrast to its generous settlement with rioters and arsonists, NYC offered a measly \$10,000 to each victim of a damaged business to help rebuild. Yet, that amount would barely have covered the clean-up costs for most, never mind the rebuilding and resupplying. Despite the extensive damage and after the smoke cleared, business owners in NYC sent *Thank You Notes* to the NYPD for protecting their neighborhoods. They clearly recognized that damage from the riots of 2020 could have been much worse.

It's clear the priorities of the communist Jews, queers and n*ggers who run NYC are in sympathy with violent and felonious rioters. Business owners of any color who choose to remain in NYC after this outrage won't garner sympathy, they'll garner derision.

The lesson here is that cops should **NEVER** consider arresting the bastards, they should simply shoot as many violent criminals and arsonists as possible. Let God sort them out.

BLM and Antifa won't be rioting here in southeast Missouri, because deer hunters **DOWN HERE** will ***"give those taxidermists a heart-attack when they see what we brung 'em."***
