

Say It Ain't So, Greg!

by Earl P. Holt III

I like Greg Kelly of *NewsMax*, and would watch his show regularly if it weren't opposite "*The Ingraham Angle*" on *Fox News*. However, for some reason Kelly recently jumped on the Jews' Media bandwagon to attack "*Dilbert*" cartoonist Scott Adams for warning white people to get as far away from blacks as possible.

That's exactly what I finally did in 2008 after being shot at 21 times in 30 years in St. Louis City: I moved to my farm, located five counties away. Often I've recommended to readers of the *CITIZENS INFORMER* and our website (cofcc.us) that they move as far as possible from our large, urban areas dominated by the species *Africanus criminalis*. It will change their lives for the better, and even more than they can anticipate.

Greg Kelly of *NewsMax*

To pander to political correctness as Kelly did is to deny the most obvious fact of life evident in America today, and that's the violence, savagery, witlessness and predatory nature of *nigras*. It's not a coincidence that immediately before Greg Kelly decided to *channel* Abraham Lincoln, there were a multitude of mass shootings by *Africanus criminalis* all across the nation. Mass shootings by blacks are now routine.

In the early morning hours of *New Year's Day*, rival gangs of street apes celebrated the new year in **Louisville, Kentucky** by firing over 600 rounds at each other -- from 40 different guns -- without a single bullet finding its mark. They did hit numerous vehicles and the windows and walls of several apartment buildings, terrorizing their occupants.

In early January, two mass shootings occurred in **Miami Gardens, Florida** within days of each other. In the first, 10 people were injured when a black savage fired into a crowd during a "shoot" for a *rap music* video. In the second incident, nine were injured outside a *soul food* restaurant.

In mid-January, eight people were shot and one died from a mass shooting that occurred during an *MLK Day* celebration in **Fort Pierce, Florida**.

In late January, two black teenage bastards shot up a nightclub in **Baton Rouge, Louisiana** and wounded 12 people, with three sustaining "*life-threatening injuries*." The two mud-apes had targeted some other n*gger at the nightclub for extinction, and they managed to shoot eleven others in the process.

In mid-February, a 35 year-old rabid ape and his 15 year-old gang-member accomplice shot nine children (girls and boys) between the ages of 5 and 17 at a convenience store in **Columbus, Georgia**. Fortunately for both *wanna-be* murderers, every victim survived.

Rabid Apes with Guns

Also in mid-February, a savage baboon murdered three and critically wounded five total strangers on the **Michigan State University** campus in East Lansing. The rabid ape had an earlier gun charge, and should never have been permitted to either purchase or possess the firearm he used to murder or seriously injure eight innocent students. (Query: *What's the point of more gun laws if we don't enforce the ones we have?*)

I have frequently argued that America's experiment -- to determine if a morally and mentally deficient race can successfully assimilate into a modern society -- has been a well-intentioned, but misguided failure. Yet, the fault lies with blacks themselves who, if left to their own devices, immediately cultivate a **violent and squalid sub-culture, displaying the lowest standards of conduct ever found in 6,000 years of recorded history.**

I have also previously argued that once blacks seize control of a political entity, its fate is permanently sealed and it immediately begins to follow a predictable and **irreversible pattern of decline**. That's true of dozens of our large urban areas -- at one time considered the "*gems*" of our civilization -- that are now dangerous and squalid zones of corruption, violence, hopelessness, drugs, welfare, illiteracy and illegitimacy. The public schools in each are equally catastrophic.

Moreover, despite so-called *affirmative-action* and \$30 Trillion spent on "*Urban Welfare Spending since the mid-1960s*", blacks today are **significantly angrier, more violent**, more dependent on welfare, more likely to be fatherless, more likely to be involved with drugs, and far more likely to have been incarcerated in one of our state prison systems than 60 years ago. **They are also 50 times more likely to commit a violent crime against a white person than the reverse.**

Greg Kelly has been in the news business long enough to know that when the Jews' Media engage in a feeding frenzy -- like it did over the remarks of Scott Adams -- their narrative will inevitably prove to be fraudulent. The usual liars are compelled to speak with a single voice in order to mislead, never to inform, and are merely attempting to overwhelm the truth by dominating reportage with their *fake news* narrative. Kelly **MUST HAVE** known better...
