**There was a mayor in Chicago who's insipid as can be;
No other mayor's like her, no mayor, only she.
She's a lesbian and moron and a racist baboon too;
She killed that once-great city and hasn't got a clue.**

**Reigning over endless murders and all sorts of violence too,
She's loved by fellow nigras, and witches on "*The View.*"
Residents are quickly fleeing, lots of businesses as well;
It couldn't be much clearer, Chicago's gone to hell.**

**All the nigras who elected her are brain-dead "*Democrats,*"
Too dumb to see their folly, now their city's run by rats.
Chicago's now a hopeless case, that can never be reversed;
Through Lightfoot's incompetence, Chicago is now cursed.**

**While her city was unraveling, what did this niggess do?
She filmed her black ass dancing, and put it on *YouTube*;
Like its Emperor named Nero, playing fiddle while Rome burned,
As occurs so often, history's lessons went unlearned.**
