

## Black "*Bereavement Counseling*"

by Earl P. Holt III

Some doltish black woman has proposed that black faculty members at our so-called "*institutions of higher learning*" receive **paid leave for "*bereavement*"** and counseling services whenever some nig kills another one. Using "*nigro logic*," she attributes the phenomenon of *black-on-black* murder to "***systemic racism***." Since nigs kill each other an average exceeding 20 times per day, that would mean *no-show* jobs for every black *poseur* in American academia, their *dream job*.

This mentally deficient pseudo-intellectual *du jour* is a woman of color named Angel Jones, who is a visiting professor at ***Southern Illinois University at Carbondale***. Her area of *expertise* is, of course, *Critical Race Theory* (CRT,) in addition to *Critical Race Feminism*, whatever that is. Clearly, she's angling for one of those "*no-show*" jobs like Michael LaVaughn Robinson was handed at the ***University of Chicago Medical Center***.

Michael LaVaughn Robinson & Husband

CRT is a variety of Marxism that claims a society's institutions create "*oppressed*" classes -- in this case **blacks** -- who are the victims of a class of "*oppressors*," which are of course **whites**! In the USSR, the *oppressed* class was allegedly its *workers* and the oppressors were alleged to be the owners of capital, or the hated "*Bourgeoisie*." In the U.S. however, their phony ideology had to be revised because blacks who are actually willing to work now have a higher standard of living than most of the Soviet *Nomenklatura* enjoyed!

**Automobiles, air-conditioning, our federal welfare "*safety-net*," the convenience of well-stocked neighborhood grocery stores, free public schools, an excellent system of roads and highways, Social Security, excellent telecommunications systems, commercial aviation, the increased mobility of labor, the availability of employment for those willing to work, and our criminal and civil justice systems have actually given most blacks a higher standard of living than the **Romanov Czars**. Unfortunately, most blacks are too stupid and too morally deficient to recognize this fact.**

Sadly, wherever these systems are demonstrably failing, their decline is invariably a result of the intellectual and moral deficiencies of blacks, themselves. So-called "***food deserts***" exist because nigra theft, vandalism, robbery and violent crime drive away retail food outlets. Likewise, a **defective criminal justice system** is largely attributable to the tribal mentality of black idiots, who often refuse to prosecute or convict their fellow nigras and foolishly return them to the streets. The **public schools** have been ravaged by nigras, who seized control in **BLUE** cities and then plundered them with **NO** thought given to their educational mission.

**Proponents of CRT like Angel Jones have promoted this false dichotomy of black victims and white oppressors to advance their scurrilous and warped *Afro-Marxist* agenda. By designating themselves as oppressed,**

they yammer for policies and programs to correct "*historic injustices*" through restitution, which always translate into **free stuff** and **unmerited privileges** for blacks. Most nigras find any program promising free stuff to be as intoxicating as cheap vodka.

As always, poseurs like Angel Jones use the failings of blacks as the rationale for granting them ever more privileges and indulgences at the expense of the rest of society. For example, blacks are synonymous with violent crime in America, so they inevitably dominate the populations of our state prison systems. Yet, it's precisely these racial disparities found in state prisons that are cited by black race-hustlers and their apologists as somehow justifying greater leniency in the sentencing and parole of violent black criminals!

### **Candidates for Lenient Sentencing & Early Parole?**

Likewise, most blacks sleep through 12 years of very expensive public schooling, yet resulting disparities in academic achievement favoring whites are somehow cited as evidence of "*systemic racism*." These disparities are then used to justify throwing **TRILLIONS** more at public

schooling and remedial measures to narrow that racial disparity in academic achievement favoring whites.

Blacks are synonymous with illegitimacy and bastardy in America, with an illegitimacy rate over 90 percent in our large, urban areas. Single-parent families with unwed mothers are an obvious cause of catastrophic life choices by black teenagers. Yet, there's an entire movement afoot -- made up of an army of race-hustlers and apologists for black failure -- who routinely denounce whites and Asians for their intact two-parent families, which they label "*systems of oppression.*"

**I've argued many times that all *affirmative-action* in academia has done is create a large "*Fifth Column*" of dubiously "*credentialed*" n\*ggers possessing the erudition of "*Amos & Andy.*" Although few are capable of seriously mastering an academic subject, they are extremely aggressive in using their positions and sinecures to promote their Afro-Marxist agenda that demands ever-increasing subsidies of nigs with free, white-man money.**
