

An Unnervingly Accurate Comparison

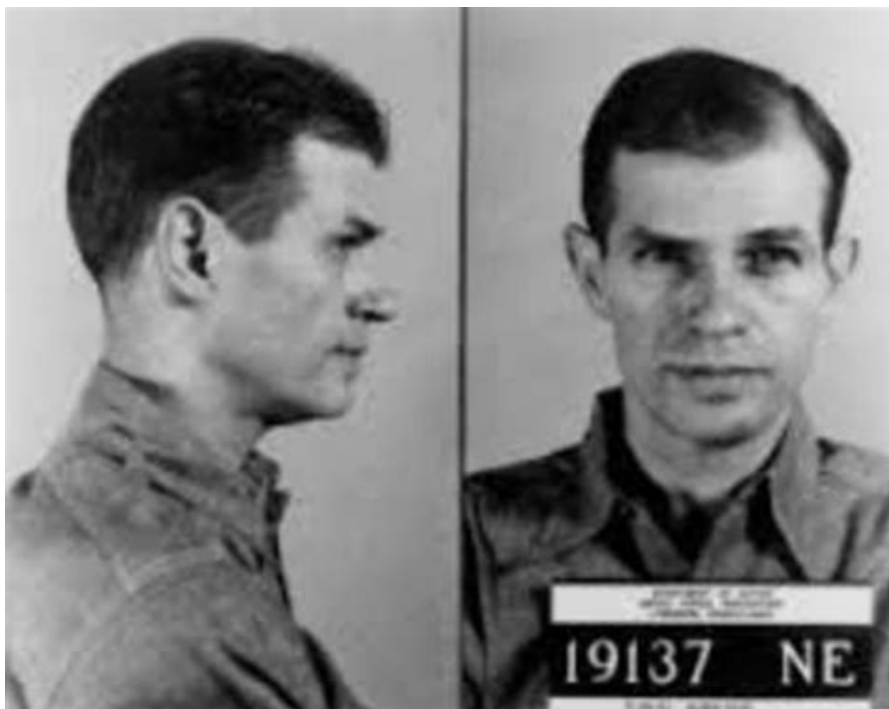

by Earl P. Holt III

The Jews Media has begun a patently obvious PR campaign that compares Joe Biden to Franklin D. Roosevelt, with the **NEW YORK TIMES**, **CNN**, and **TIME Magazine** enlisting their services. Its purpose is to convince gullible dolts among "Democrats" and Independents that Biden's age should **NOT** become an issue in 2024, because FDR was supposedly able to serve as president although he was elderly and infirm like Biden clearly is.

The Marxist Jews who dominate the Jews' Media are too ignorant and traitorous to recognize just how accurate the parallel really is between FDR and Biden, BUT NOT FOR THE REASONS THEY ASSUME. Much like Biden's foreign and defense policy, FDR and his administration began America's precipitous decline, just as Biden's Administration appears intent on destroying America and delivering us into the international socialist orbit and an Orwellian "One-World Government." In both administrations, an incapacitated president gave our enemies an opportunity to seize control of the Executive Branch of our government BY DEFAULT.

FDR was the world's second largest employer of spies for the Soviet Union's secret police, the **NKVD** (civilian intelligence) and **GRU** (military intelligence.) His entire administration was honeycombed with communist spies who served Josef Stalin and the USSR, including FDR's own Chief of Staff, Lauchlin Currie (Soviet code-name "**Page**.") This applies also to FDR's Treasury Department, whose upper echelons provided the officer corps for the "**Silvermaster**" and "**Ware**" Soviet spy rings. It also happens to include Duncan Lee (Soviet code-name "**Kokh**,") Bill Donovan's top assistant at the CIA's predecessor, the *Office of Strategic Services*.

Harry Hopkins -- the man who ran the *Lend-Lease* program that shipped American armaments to the USSR before America entered World War II -- was also a Soviet spy ("**Agent 19.**") Hopkins treasonously included enriched Uranium 235 and the blueprints for America's atom bomb in his shipments to the Soviets, which is how the Soviets originally obtained our nuclear weapon. (M.S. Evans and H. Romerstein. ***Stalin's Secret Agents. Threshold Editions:*** New York, 2012. Chapter 9.) There were an additional 100 communist party members employed in FDR's State Department -- exposed in the "*Lee List*" -- many of whom were also Soviet spies, including one named Alger Hiss.

Mugshot of Hiss Serving Time for Perjury

Alger Hiss was a State Department official who was also a Soviet spy for both the NKVD (Soviet code-name "**Lawyer,**") and the GRU (Soviet code-name "**Mars.**") Apparently, he was such a *true-believer* that he was

recruited by both agencies independently and served each without the other's knowledge, thus demonstrating the "*compartmentalization*" that is universally found among successful intelligence agencies. **He was also the official responsible for nearly every detail of the February, 1945 Yalta Conference that intentionally and treasonously delivered Eastern Europe into the hands of the Soviet Union after World War II.** (See *Stalin's Secret Agents* -- above -- Chapter 3.)

At the time of the Yalta Conference in early February of 1945, FDR's brand-new Secretary of State, Edward Stettinius, had been on the job for only two months, so he deferred nearly every aspect of its proceedings to Hiss, a low-level State Department subordinate. Hiss established the protocols for the Yalta Conference and did most of the negotiating for the U.S. Meanwhile, FDR had experienced a series of strokes that left him drooling on the conference table when he wasn't staring off into space. MUCH LIKE JOE BIDEN'S PRESENT CONDITION, FDR was obviously incapacitated and died a mere two months after the Yalta Conference on April 12, 1945.

This is where the similarities between Joe Biden and FDR are most clearly pronounced, and why the U.S. is, once again, in serious decline because of subversion by an ideological enemy. The Soviet spies who basically ran the Roosevelt Administration worked to subvert nearly every aspect of our foreign and defense policies, just as traitorous n*ggers and equally traitorous Jewish communists are now feverishly subverting our defense and foreign policies. It's a practical application of Rahm Emmanuel's advice to Obama (paraphrase) "*never let a tragedy go unexploited.*"

Much like FDR at the end of his final months, Biden is a mere figurehead in his own administration, with real policy being made by traitorous

and sinister forces in his administration's shadowy background, forces universally hostile to the interests of American sovereignty and democratic capitalism. For FDR, those forces were Alger Hiss, Lauchlin Currie, Harry Hopkins among many others. For Biden, they are equally traitorous communists and n*ggers such as Susan Rice, George Soros, and Barack Hussein Obama.
