

Segregationists Were Visionaries

In late April of 2023, several young kids were playing basketball on their residential street in Gastonia, North Carolina, when their basketball accidentally rolled into the yard of a neighbor. As members of the species *Africanus criminalis* are inclined to do, the n*gger -- into whose yard the ball rolled -- began shooting at white neighbors and their kids with a handgun. He shot one white man and injured the man's six year-old daughter.

America doesn't have a "gun problem" as the left dishonestly claims, it has a "**N*GGERS WITH GUNS PROBLEM.**" Their low IQs and erratic temperament -- frequently combined with years of drug and alcohol abuse -- have rendered many blacks incapable of rational and civilized behavior. They have become too dangerous and savage to live amongst us, a fact that's illustrated all too clearly by this incident.

"Why did you shoot my daddy and me?"

This situation didn't transpire overnight: it's been cultivated for decades by black race hustlers, the ***New Communist Party of the USA*** -- wrongly called "*Democrats*" -- and many pseudo-intellectual black "*scholars*," who would be more appropriately employed in their school's janitorial departments. They have propagandized fellow blacks with *Critical Race Theory* and other varieties of Marxism, producing a violent, witless and predatory subculture of savagery.

This very weak-minded demographic group has become convinced that all their problems stem from "*institutionalized racism*," or "*white privilege*," or "*microaggressions*," or "*structural inequality*," blah, blah, blah. Their mindless rants and endless excuses for their own failings betray the fact that most have the emotional maturity of children, a condition that seems to prevail their entire lives. It also precludes ANY hope of self-awareness.

Demonstrating the usual cowardice of violent, n*gger criminals, the black bastard fled and went on the lam for two days after shooting his two innocent victims and firing unsuccessfully at several others. He finally turned himself into Tampa, Florida police some 560 miles away. (They run from justice like they run from the truth.)

Of course, this soulless ape has a violent history: in the past seven years, he's been arrested twice for attacking another person with a dangerous weapon. This past December, he was charged with assaulting his girlfriend in the head with a hand-held, mini-sledgehammer. He was also arrested in late October of 2016 for another assault with a deadly weapon, and actually served some time for that offense! Clearly, he is a rabid ape.

The black savage has been charged with four counts of attempted first-degree murder, two counts of assault with a deadly weapon having intent to kill or inflict serious injury, and a single count of possession of an illegal firearm by a convicted felon. Although he yelled "*I don't even*

like white people" during his rampage, he is **NOT** being charged with a hate crime, which exposes just how fraudulent the application of so-called "*hate crime*" laws truly are.

Somehow, he was out of jail at the time of this violent crime, despite a \$250,000 secured bond on his earlier, aggravated assault charge last December. (I suspect some of his fellow tribal members were somehow responsible for springing him from incarceration.) Maybe this time our hapless criminal justice system will make him do some **REAL** time...
