

Summer Primate Murder Roundup

Dr. Michael J. Mammone: In late January of 2023 in Orange County, CA, this white, 58 year-old Emergency Room Physician was run over by a baboon while bicycling, and was then stabbed to death by the same black bastard. Fortunately, witnesses held the cowardly bastard to prevent him from fleeing before the law arrived. Despite numerous eye-witness reports, the rabid baboon pled not guilty at his arraignment.

Dr. Mammone's assailant was a stranger to the deceased physician, but the spook took it upon himself to lecture Dr. Mammone about "*white privilege*" as he stabbed the doctor to death. The n*gger was driving a late-model **Lexus** sedan that retails at around \$95,000. **(I think its safe to conclude that the murdered physician probably did more good in an average day than the rabid ape has done in his entire, frigging life.)**

Paul Alexander Yaw: This 35 year-old white man was shot to death in Stockton, CA in October of 2022. His murderer is an alleged nigroid serial killer named Wesley Brownlee, who was a stranger to the victim.

Carley Capek: This 38 year-old white woman was stabbed, beaten to death and her throat was slit by a n*gger in her own home in Cleveland in October of 2022. Police allege she was thrown around the room like a ragdoll by the black bastard who killed her. The victim was the mother of four children.

Frances Walker: In October of 2022, this 69 year-old white woman was hacked to death in Chicago by her tenant, an African niggress. The black savage murdered Frances Walker because she was evicting the rabid ape for non-payment of rent. (We all know how n*ggers are about paying rent!) The savage niggress dismembered the victim and froze her body

parts in her freezer. The baboon apparently ignored its natural instincts, and refrained from eating its victim.

Innocent Victim & *Savage Ape*

Thomas Anderson (37,) Adam Morley (32,) Mark Hewitt (59,) James D. Baldwin (49,) and Roman Rocha (19): These five white males were massacred in Spartanburg County, SC by a rabid ape in October of 2022. The culprit has been arrested and confessed to police. This was the largest mass-murder in Spartanburg County's history.

Cari Allen: This 43 year-old white woman was murdered by her former n*gger boyfriend in December of 2022 in Omaha. Her badly beaten body was found in Topeka, KS. The rabid ape has been charged with kidnapping and first degree murder, and was denied bond. Her friends indicate the couple broke up two weeks before her disappearance, but the murderous ape stalked her until he finally got a chance to kill her.

Elijah DeWitt: This 17 year-old white male was shot to death by two n*ggers in a parking lot near Atlanta in October of 2022. The two black bastards who murdered this football and track star are 18 and 19 years old.

Jack Snyder: This 17 year-old white male and high school student was murdered in February of 2023 by two sub-human teenage savages in Battle Creek, MI. In freezing weather, the victim made the mistake of offering a ride to two baboons -- one 14 and the other 13 -- who soon shot him to death in order to "jack" his car. **(Readers may recall my warning NEVER to be a "good Samaritan" to n*ggers, because they interpret altruistic gestures of kindness as proof that you are a "mark," and therefore a deserving target for a violent crime.)**

Paul Billion: This 36 year-old white man was savagely murdered in August of 2022 by four n*gger illegal aliens in Sioux Falls, SD. Police believe the murder may have been drug-related, and was committed with a shotgun previously reported as stolen. **(Joe Biden and Alejandro Mayorkas have not yet been arrested as accomplices or accessories.)**

Primates That Murdered Paul Billion

Stephanie Stone: This 64 year-old white woman and grandmother was shot to death by a rabid teenage baboon in her home in Montgomery, AL in January of 2023. The police dismissed her murder with the *cliché* that she was killed in a "*robbery gone wrong*." This good and beloved woman was a receptionist at ***Alabama Cancer Care of Montgomery***.

Montgomery police Chief Darryl J. Albert stated in an unusual Sunday morning press conference that in finding Stephanie Stone's killer, he deployed every police unit including the SWAT Team, and that "***they delivered.***" (Since this black bastard is still alive to stand trial, then the SWAT Team wasn't given the proper mission...)

Alexandra C. Borys: This 26 year-old white woman, wife and mother of two was gunned down by a rabid niggess in Irmo, South Carolina on *Valentine's Day*. She was loading groceries into her car when a female ape began arguing with her, and then shot her to death when she turned her back. Her 2 year-old and infant were in her car at the time.

Like most n*ggers, the murderous n*ggress initially fled the scene, probably to rid herself of her gun and dope. The niggess has been charged with murder, unlawful possession and carrying of a pistol, and possession of a weapon during a violent crime.

Keris Riebel: This lovely 22 year-old white woman and newlywed was murdered by a subhuman rat-n*gger on *New Year's Day* of 2023 in Upper Sandusky, OH at the ***Dollar Tree*** where she worked. Apparently, the n*gger had nothing better to do that day, so he crept up on this innocent white girl as she was working, and butchered her with a machete. The Jews' Media has ignored this story, of course. (The architects of Jim Crow knew what they were doing, although the low-grade morons who currently rule us clearly do NOT!)

Lovely Victim & Sub-Human Rat-N*gger

Eskalene DeBorde: This 66 year-old white woman and grandmother was savagely murdered in August of 2001 in her own home by a rabid ape in Knoxville, TN. The black bastard was a door-to-door magazine salesman from New York, who illegally entered her home where she worked, and then murdered and robbed her. Her 21 year-old murderer had a long arrest record and should have been rotting in prison, rather than in the vicinity of decent white people. (***Forensic Files***, Season 8, Episode 23: "*Death by a Salesman.*")

Kristine Larson: This foolish, 19 year-old white female from St. Paul, MN was strangled to death by her **FORMER** n*gger boyfriend in December of 2007. Her killer was obsessively jealous of her **NEW** n*gger boyfriend, and murdered her for dumping his black ass months before. Her dead body was discovered in a burning vehicle in Minneapolis, which was set ablaze by the murderous ape, proving that "*If you dump a n*gger, you'll need a grave-digger.*" (***First 48***, Season 7, Episode 1: "*Ashes and Snow.*")

The parents appeared to be accepting of their daughter's attraction to black savages and fond of the two year-old mixed-race bastard sired by her killer, which they eventually adopted. **I wonder if either parent had ever tried to warn her about the dangers of dating blacks? Black males**

are 13 times more likely to murder white girlfriends or wives than are white men who date or marry white women. (*AMERICAN JOURNAL OF PUBLIC HEALTH*, May of 1989, Page 596, Table 3.)
