

Tucker Was *RIGHT*

by Earl P. Holt III

Tucker Carlson was the first prominent opponent of American aid to the Ukraine on his "*Tucker Carlson Tonight*" show, formerly on **Fox News**. His argument was predicated on Ukraine being one of the most corrupt nations on Earth, and that the U.S. was crazy to fund it, even against invading Russians. I rarely disagree with Tucker, but it turns out that he was absolutely correct and many of us were quite wrong.

My epiphany was the recent reportage by Seymour Hersh that Ukrainian unit commanders have been selling U.S. weapons on the black market to international arms smugglers in Poland and Romania. These are *state-of-the-art* weapon systems -- such as **Stinger missiles** -- that were earmarked for the defense of Ukraine. Ukraine's traitors are like the slime who sold rifles and liquor to Indians during America's Westward expansion. Prior to the allegations by Hersh, reports of disappearing arms shipments had periodically been published in some corrupt leftist media organs, but received little "*traction*."

This scandal may explain why Ukrainian President Volodymyr Zelenskyy is constantly demanding additional U.S. aid, even though we've already contributed \$120 Billion to Ukraine's defense. In August of 2022, **CBS** interviewed the Ukrainian militia leader that founded **Blue-Yellow**, who stated that only about **30% of U.S. military aid had actually reached the front lines of battle**. Unfortunately, that **CBS** documentary -- "**Arming Ukraine**" -- was spiked under pressure from the very people who got us into this mess.

By then, we already knew from investigations by the **Securities and Exchange Commission** that Ukrainian oligarchs had intercepted billions in U.S. financial aid sent to Ukraine. They then laundered those funds through the crooked *crypto* currency exchange **FTX**, after which \$40 Million ended up funding "**Democrat**" candidates for public office in the 2022 midterms. **It's now patently obvious that U.S. Foreign Aid to Ukraine often returns as laundered contributions to either the DNC or the Biden Family Crime Syndicate.**

Although spiked by the Jews' Media, we also know that corrupt Ukrainian officials and businesses transferred millions of dollars to the ***Biden Family Crime Syndicate*** in order to buy influence with Vice President Joe Biden -- "*The Big Guy*" -- and ensure continued U.S. financial aid to that nation. Hunter Biden alone garnered at least \$3 Million in Biden's pay-to-play ***influence peddling scheme*** while Biden was Vice President. Author Peter Schweizer correctly stated that Ukraine has been a "***playground***" for the "*Democrat*" Party for years.

Even Russian officials have warned that U.S. weapons were being smuggled outside the Ukraine, which eventually ended up "***in the hands of terrorists, extremists and criminal groups...***" These profoundly undermine security around the globe because those *Stinger* missiles can reliably shoot-down commercial aircraft at very high altitudes. A spokeswoman for Russia's Foreign Ministry estimates the volume of illegal U.S. arms being smuggled at about \$1 Billion per month.

Isn't it odd that even the Russians appear more concerned with international security conditions than the Biden Administration seems to be. Tucker was right: the Biden Administration was insane to get involved in Ukraine. A pox upon both their houses.
