

Impeachment: A *WINNING* Strategy

by Earl P. Holt III

With his characteristic droll and acerbic wit, Florida Governor Ron DeSantis remarked last week that for Joe Biden, "*Kamala Harris is the best impeachment insurance money can buy.*" It was an entertaining remark and got plenty of laughs, but I sure hope House Republicans don't take it to heart.

Impeaching Joe Biden is essential for anyone who truly reveres the U.S. Constitution and *Rule of Law*. No one in the history of the presidency has ever deserved it more than Joe Biden: Trump was right when he stated that Biden has done more damage in two years than the five worst presidents in U.S. History. Biden is a pathological liar and the worst reprobate ever to hold that sacred office. He needs to be impeached to disrupt the subversion of America by his party's alliance of organized crime families and communists.

Corrupt

Clueless

Impeaching Biden would permit the laziest niggers in Washington to assume the presidency. **However, never in a million years would the *New Communist Party of the USA (NCPUSA)* -- often wrongly called the "*Democrat*" Party -- allow her to become their party's nominee in 2024.** Even the dolts who voted for Biden & Harris probably recognize that with Harris at the top of the ticket, the NCPUSA will experience the greatest electoral blood-bath in U.S. History, and lose elective offices all the way down to dog-catcher.

Most black members of the NCPUSA are too mentally deficient to recognize just how vulnerable a Kamala Harris Presidency would be, so they will reflexively interpret challenges to her nomination as just more examples of "*racism and white supremacy*." This would create a rift in their party that might last for generations, and could bring about its unraveling. Bill Buckley once called the "*Democrats*" (paraphrase,) "***the greatest obstacle to good government in American History.***" That was in his 1973 book ***Four Reforms***, before he could know the half of it.

The NCPUSA's 2024 Primary Election season might become as violent and heated as its earlier incarnation in 1968, as witless black savages join ***Black Liars Murder*** and ***Antifa*** communists to disrupt the primary campaigns of whites who dare to challenge Harris. It would be poetic justice to see the shock troops of the NCPUSA -- normally used to attack law-abiding Republicans -- turned against its own white members as they compete to unseat President Harris. That might spell the end of the NCPUSA, a development that could very well save America!

Meanwhile, her presidency would be very much like her vice presidency, with staff quitting in droves on a regular basis, owing to her laziness, arrogance and imperiousness. Her administration would be so embroiled in drama, leaks, infighting, incompetence and pettiness that it would be effectively neutralized. As her vice presidential staff demonstrated in spades, to know her is to hate her.

The impeachment of Joe Biden -- "*the Big Guy*" -- is not only REQUIRED of honest men and women, it would also be good politics for the GOP. To refuse to impeach a crook like Joe Biden is no better -- and maybe even worse -- than all those George Soros prosecutors who give a free pass to violent felons, and refuse to indict them, because they are members of the same tribe or ideology.

For those concerned about the damage a Harris Presidency would certainly bring, consider this: how could Kommie Harris be any more destructive of America than Joe Biden has been?
