

## Asians Waking Up?

It's been obvious to me for decades that most blacks hate Asians as much as they hate white people. That's because the exceptionally savage and violent members of the species *Africanus criminalis* usually seek out Asians as targets to attack, often committing aggravated assaults or worse.

Blacks are profoundly envious of the intelligence of Asians, as well as their industry, their discipline and their thriftiness, all characteristics that clearly distinguish them from 95% of all the blacks in this country. Asians are also at the opposite end of the spectrum from blacks when it comes to observing the criminal law.

That's why it has always puzzled me that most Asian-Americans have traditionally gravitated toward the misnamed "*Democrat*" Party, and this includes many who achieve rapid upward-mobility. I have never understood this paradox, but I'm pretty sure a lot of Asian-Americans have been rethinking their party loyalties over the last couple of years, as black-on-Asian hate crimes have skyrocketed.

It simply boggles the mind why Asian-Americans would join a party dominated by blacks and their enablers. *Africanus criminalis* is clearly the favored demographic among "Democrats," so that party usually turns a blind eye to **black-on-Asian** violent crime. As the public relations wing of the "Democrat" party, the Jews' Media routinely spike such stories because they don't want to alienate their primary source of voter fraud.

In the Mid-Summer of 2021 issue of the **CITIZENS INFORMER**, I published a *Letter-to-the-Editor* describing the subdued reaction of my black, fellow members on the *St. Louis School Board*, when a Vietnamese kid in our school system won the extremely prestigious **Gold Medal** from the *St. Louis Science Fair*. I described them as "**...extremely reserved in their applause and seemed to pantomime the act of clapping. They also appeared noticeably bored by the whole thing.**"

There also appears to be an inclination on the part of Asian-Americans to ignore the true source of violence against them -- which are blacks, as always -- and gratuitously denounce "white supremacy" for their victimhood. (See below.) Yet, it's **NOT** whites who constantly attack Asian-Americans, it's black savages who do so.

About two years ago, some Asian-American rights organization began running ads on cable TV about an increased incidence of violence committed against Asian-Americans. None of the ads had the courage to specify who was actually committing these crimes, and made it sound as if we were all equally guilty. But, I knew as sure as the *Sun-rising-in-the-East* that it was nigras who were the perps.

My suspicions were soon confirmed by police in San Jose, California when they arrested six black bastards who engaged in more than 170 violent assaults against more than 100 innocent Asian women in the San Francisco area, alone. Believe it or not, they are actually being charged with **HATE CRIMES!** (I'll leave it to readers to ponder whether the same charges would be made if the victims were merely white women...)

Then, in mid-January of 2022, a savage ape pushed an Asian woman named Michelle Go onto the tracks at the Times Square subway station where she was killed by a passing train. The victim was an executive at Deloitte who had earned a B.A. in Economics from UCLA and an MBA from New York University. In marked contrast, her murderer was a smelly and homeless baboon with a decades-long rap sheet, whose only educational attainment was Reform School.

**When I lived in St. Louis City, there was an excellent Chinese restaurant near me, owned by a Chinese-American couple who, if I remember correctly, immigrated to the U.S. from Taiwan. The couple were very conservative Republicans and lovely people, but they expressed dismay that their bright and highly-educated offspring were liberal "Democrats." They were as bewildered by this as I was.**

Maybe it's one of the many flaws of democracy that a race as intelligent and industrious as Asian-Americans could be so bamboozled when it comes to politics and political parties. I have often speculated that this is a consequence of the left having coopted and subverted education in the U.S., and the universal dishonesty of Jews' Media "*reportage*."

I sincerely hope that most Asian-Americans are not oblivious to the lessons to be learned from skyrocketing incidents of ***black-on-Asian*** violent crime that occur all across this nation, from New York to L.A.
