

Bad Moon Rising

**We're told temperatures a-risin'
I sense more mandates on the way;
All weather becomes a crisis
A new disaster every day**

**Don't watch the news tonight
It's bound to give you fright
Presaging real bad times in sight**

**Every hurricane a-blowing
Sounds like the end is drawing near
All the oceans overflowing
Soon, we'll be up *Shit's Creek* I fear**

**Don't watch the news tonight
It's sure to give you fright
Divining real bad times in sight**

**We're told Earth will be diminished
And, we should all prepare to die
Hope you've got your bunker finished
Don't waste the time to ask me why...**

**Don't watch the news tonight
It will only cause you fright
Foreseeing real bad times in sight**

**Green alarmists all got wealthy
Promoting their green, primrose path
Leaving the nation quite unhealthy
Incurring working people's wrath**

**Don't watch the news tonight
It's bound to give you fright
Presaging real bad times in sight**

**For 60 years they've predicted
A rapid end to life on Earth
Endless disasters speculated
Exposing their opinions' worth**

**Don't watch the news tonight
It will only cause you fright
Climate alarmists aren't too bright**
