

WHUFFO?

by Earl P. Holt III

If several hundred *UNARMED* U.S. citizens who entered their Capitol to protest a dishonest election can be considered an "*INSURRECTION*," then 8,000,000 foreign nationals who illegally entered this country in the last 2.5 years can surely be considered an "*INVASION*" under Article 4, Section 4 of the Constitution.

Joy Behar -- the dumbest and ugliest Jewess around -- blamed Donald Trump for the Hamas terrorist attack on Israel, and all the other empty-headed morons on "*The View*" nodded in agreement like trained seals. The silly females on "*The View*" are living and breathing examples of why the Framers of the Constitution **DID NOT INCLUDE SUFFRAGE FOR WOMEN IN THE ORIGINAL DOCUMENT.**

Appointing David Weiss as Special Counsel to investigate Hunter Biden is like New York City appointing *Typhoid Mary* to be its Public Health Commissioner, or Jeffrey Dahmer's appointment as an Executive Chef at a *Michelin Five-Star* restaurant.

Some of the same labor unions that endorsed Joe Biden in 2020 are now striking for higher wages because Biden's double-digit inflation has cost each of them about \$4,600 per year in purchasing power. A pox upon both their houses.

Citing what it calls the "*racist policies*" of Florida Governor Ron DeSantis, the nigroid fraternity *Alpha Phi Alpha* cancelled its reservations to hold a national convention in Orlando in 2025. Now, Florida residents needn't lock-up their valuables that week. As one very funny guy put it, "*It's pretty hard to argue Governor DeSantis isn't making Florida a better and safer place to live...*"

God doesn't necessarily choose those with the purest of hearts to effectuate His Will, He chooses those with the necessary talents and temperaments. He would probably not have chosen Saint Francis of Assisi to drain the Washington cesspool, but He almost certainly *DID* choose Donald J. Trump for that job.

"Democrats" and their Jews' Media allies feigned outrage when Senator John Kennedy (R-LA) read several passages from the book *Gender Queer* on the Senate Floor. Each passage consisted of lurid and explicit homosexual acts described in great detail. However, **NONE** of Kennedy's critics have ever expressed similar outrage that such books have been made available to **GRADE SCHOOL** and **JUNIOR HIGH SCHOOL** students in many public school libraries.

After several consecutive months of decline, inflation increased to 3.7 percent in August from 3.2 percent in July. Gosh, could it have anything to do with that misnamed \$1.2 Trillion "*Inflation Reduction Act*,"

passed by Democrats and RINOs, which forced the printing of hundreds-of-billions in new money and immediately poured those dollars into spending streams?

I think Biden intends to resign if things become increasingly desperate, and then Kommie Harris will pardon him. (Maybe Hunter, also.) He doesn't look at all like a man running for reelection, and he has no campaign staff. He spends most of his time vacationing while Rome continues to burn. He often has a smug, "*cat who caught the canary*" look, which either means the pardon fix is already in, or he knows Obama will reactivate "*Democrat*" vote fraud machines in 2024.

During the 2023 *Ryder Cup* competition held in Rome between top pro golfers from the U.S. and Europe, the European crowds rudely applauded missed putts and poor shots by the American team. Perhaps Europe needs to be reminded which nation it was that spent blood and treasure to save their asses three times in the 20th Century. (Editor's Note: The third time was in November of 1983, when *The Gipper* ordered *Pershing II* Theater Nuclear Weapons placed in Western Europe to counter Soviet SS-20s. This, ultimately led to the *Intermediate-Range Nuclear Force Agreement (INF)* in 1987, and the abolition of an entire class of "*theater*" nuclear weapons in Europe.)

Gun crimes have steadily increased in California, despite that state having the strictest gun laws in the nation. This is real world evidence that gun control legislation **ONLY** disarms law-abiding citizens, while enabling dangerous criminals who will **NEVER** obey the law.

Dozens of "*student groups*" at once-prestigious *Harvard University* voted to support Hamas after its savage, barbaric and unprovoked terrorist attacks upon Israel in October of 2023. Officially, *Harvard* has now exposed itself to be a moral and intellectual wasteland.

I wonder: How many American Jews who lost family members and friends in the Hamas terrorist attack on Israel are "*Democrats*" who voted for Joe Biden? Elections have consequences, and in the case of Biden's failed presidency, profound consequences...

Rep. Greg Steube (R-FL-17) announced on *Fox Business News* that he intends to file an impeachment resolution against *The Big Guy* with the *House Judiciary Committee*. His resolution is based on charges of bribery, extortion, fraud and racketeering. (Well, at least Biden doesn't appear to have killed anyone yet, in contrast to at least one prominent former "*Democrat*" presidential candidate...)
