

Ode to Fani Willis

(To the meter of "[1982](#)" by Randy Travis)

**Fani Willis, please, please tell me,
how'd you pass the *Georgia Bar*?
Did someone else take it for you,
as stupid as you are?
Little doubt you'll lose your license,
so I hate to pile-on,
But hiring your boyfriend proves
you're just a black moron.**

Merrick Garland please return her
e-mails and her texts:
She must delete the ones where her
boyfriend and she talked sex.
She betrayed her oath of office,
her profession and her state,
And now she knows a stretch in jail
just might be her fate.

Hindsight is often perfect but
morally, she was blind,
for persecuting Donald Trump
with whatever she could find.
Trashing the Constitution and
and all his civil rights,
While ignoring Atlanta's crimes
committed by non-whites.

To all black, corrupt officials,
learn a lesson from this clown:
Don't weaponize your office just
to bring a rival down.
Corruption becomes a habit,
and it just gets bigger,
She thought she was heroic, but
she's proved she's just a n*gger.
