

REAL Black Inventiveness

by Earl P. Holt III

In past years, we've celebrated *Black History Month* by exposing the fraudulent claims surrounding many inventions and technologies supposedly created by blacks. In each case, those claims were proved to be false, and attributable to dubious "*scholarship*" or just plain delusion.

Yet, merely chronicling the fraudulent claims of black race-hustlers and their dubious "*scholarship*" fails to give credit where credit is really due. There truly IS one context in which blacks have shown exceptional creativity and inventiveness, and that is THE FABRICATION OF "*HATE CRIMES*." The following are examples of phony hate crimes concocted by lying n*ggers who claimed to be the victims in each incident.

Ann Arbor, Michigan: In November of 2016, a Muslim woman near the *University of Michigan* campus claimed a drunken white male in his 20s threatened to set her on fire if she didn't remove her *hajib*. An investigation by police revealed it was a hoax.

Smyrna, Delaware: In November of 2016, a nigrass named Ashley Boyer claimed she was harassed and threatened by four Trump-supporting white males at a gas station, and one even brandished a handgun at her. After police disproved her claims, she removed her phony post from *Facebook*, and replaced it with one alleging that the offenders had all been arrested and were all facing charges. As is usually the case with niggers, nothing she said was true.

Lafayette, Louisiana: An 18-year-old Muslim female and college student claimed that two white men attacked and robbed her, one of whom was wearing a Trump **MAGA** hat. The n*gger claimed they stole her wallet and *hijab* and yelled racial slurs. She eventually confessed to the *Lafayette Police Department* that she fabricated her story.

Chicago: Queer and leftist n*gger Jussie Smollett staged a racist and anti-gay "*hate crime*" against himself to garner publicity in an effort to save his declining acting career. To accomplish this, he hired two burly Nigerians to rough him up. As n*ggers will often do, Smollett blamed the attack on white supporters of President Donald Trump. (The dumb bastard used a \$3,500 personal check to pay the thuggish n*ggers to perpetrate his hoax.)

Jussie Smollett and His Burly Niggerians

Northfield, Minnesota: In May of 2017, students at *Saint Olaf College* organized a protest and boycotted classes when a racist note targeting black students was discovered on campus. After all that turmoil, it was eventually revealed that a fat and ugly niggess student confessed to having fabricated the notes and the hoax.

Colorado Springs, Colorado: In September of 2017, racist notes were found at the *Air Force Academy's* preparatory school. (These are remedial classes for dumb n*ggers.) One note stated "**Go home n*gger.**" Two months after the notes had created endless turmoil at the academy, authorities determined that one of the targeted black students was responsible for composing them. He confessed in a signed statement to authoring them, but blamed an "*untreated concussion.*"

Manhattan, Kansas: In November of 2017, a ni*gger named Dauntarius Williams filed a police report claiming that anti-black and racist graffiti had been painted on his car stating "**Go Home N*gger-Boy**" and "**Whites Only.**" *Riley County Police* reported that Williams later admitted to authoring the racist graffiti, himself, but there were no charges made.

St. Louis County, Missouri: In November of 2017, a "*non-white*" high school student left racist graffiti on a bathroom mirror at **Parkway Central High School**. An investigation by school authorities revealed the n*gger complainant was responsible for the graffiti.

New York City: In September of 2018, a n*gger woman reported to police that white teens had yelled racial slurs at her and left a racist note on her car. An investigation by police revealed she had fabricated the story. She was charged with making a false police report.

Des Moines, Iowa: In December of 2018, a number of racist notes found on the *Drake University* campus were discovered to have actually been authored by one of the niggresses supposedly targeted by racists. She confessed her misdeeds to *Des Moines police*.

Washington, D.C.: In January of 2019, lying communists in the Jews' Media fabricated their usual racist hoax during the annual *March for Life* in Washington. They falsely reported that some extremely well-behaved students from *Covington Catholic High School* in Kentucky had taunted and threatened an Indian political "*activist,*" but video footage proved

the Indian approached the students and repeatedly banged his drum to antagonize ***THEM***.

These exceptionally well-behaved students were victims of libel, and one of the wrongly-accused students later won tens-of-millions in a judgement against the Jews' Media organs that libeled him. Meanwhile, the Jews Media ignored racist and degrading taunts from nearby members of the violent and criminal *Black Hebrew Israelites*, whose taunts were an attempt to incite a violent confrontation.

Now-Wealthy Covington High School Student and His Antagonist

Greenville, Mississippi: A black church was spray-painted with the message "***Vote Trump***" and set ablaze. The Jews' Media and the usual retarded n*ggers -- such as Greenville's n*gger mayor -- blamed the "***incendiary rhetoric of Donald Trump***" for the arson. It turns out that

the church was actually set on fire by one of the church's own members, a n*gger named Andrew McClinton.

One clear lesson here is that claims of "*hate crimes*" made by race-hustlers are so rarely true, it's a safe policy just to summarily dismiss anything n*ggers say or allege out of hand. A second lesson is that you can count on the Jews' Media to promote such obviously fabricated incidents, and make them the lead story for several news cycles without fact-checking anything. If any corrections or retractions are published, they will appear months later on page 78, *below-the-fold*.

Moreover, every one of these phony hate crimes caused considerable turmoil, poisoned race relations in the surrounding area, and wasted considerable time and resources to investigate. However, in very few (if any) instances were the n*gger fabricators of these "*hate crime*" hoaxes actually prosecuted.
