

Free *White Man Money*

The "*Democrats*" promise to grant reparations,
to heirs of those brought here from African nations;
Though nary a one has received yet, a dime,
blacks predictably vote "*Democrat*" every time.

While blacks clearly covet that free *white man money*
a subject few taxpayers find very funny;
It matters not that none was ever a slave,
because race-hustlers know "*Democrats*" always cave.

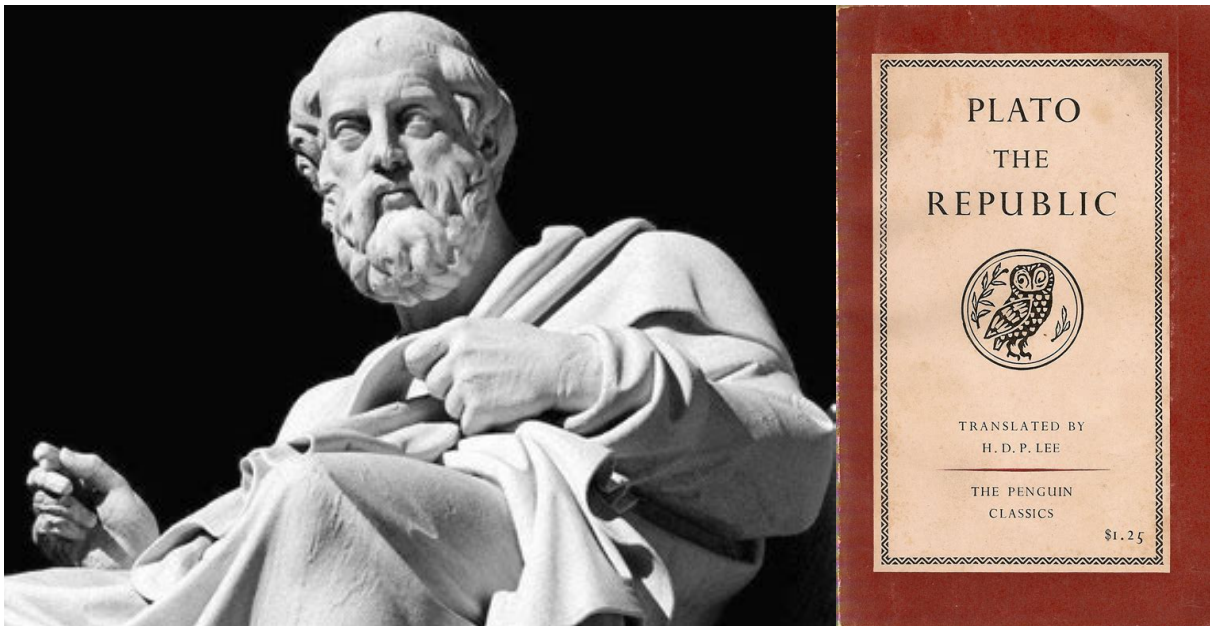

Once promises of "*Forty acres and a mule*"
was an insincere promise, but enough to fool;
But blacks today covet nice cars and gold *bling*,
so they cannot be bribed with just any old thing.

This is very much like student loans in default
at all HBCs where students aren't worth their salt;
Fooled by promises of forgiveness, before
like a *moth-to-the-flame* they'll be suckered once more.

Plato warned self-government soon goes asunder
when citizens learn they can vote themselves plunder;
But *The Republic's* not read, by Dems or nigs
so these voters line-up at the trough just like pigs.

(HBCs = "*Historically Black Colleges*")
