

## Periodic N\*gger Murder Roundup

by Earl P. Holt III

**Dr. Alexander Bulakhov:** This 32 year-old cancer researcher at *St. Jude's Children's Hospital* was murdered in mid-November of 2023 by two sub-human black savages in downtown Memphis. Dr. Bulakhov was shot to death by the two rabid apes while defending his wife and daughter during an armed robbery.

Many of those brave kids you see in *St. Jude's* fundraising spots on TV are only alive today thanks to the efforts of Dr. Bulakhov and others like him. Both n\*ggers have been charged with first degree murder and a host of other charges, and **SHOULD** become organ donors. [\(The architects of Jim Crow knew what they were doing and why...\)](#)

**Father Robert Hoeffner:** In January of 2024, this 76 year-old retired priest and his 69 year-old sister ( Sally Hoeffner) were shot to death by a rabid baboon in Palm Bay, FL. The late Father Hoeffner and his sister were in the company of the n\*gger's white grandfather, whose trashy white daughter begot the psychopathic ape. The black baboon then engaged in a "multi-location gun battle" with police, who did the world a great service by killing the black bastard.

**Murderous Ape & Three White Victims**

**Donnie Smith:** In early December of 2023, this 53 year-old white man and father of two was beaten to death by three subhuman black bastards in Columbus, Ohio. He was ***“injured so severely that he had to undergo brain surgery”*** before he died. The three n\*ggers were observed laughing and enjoying themselves as they beat him to death.

From Jared Taylor's ***The Color of Crime***, we know that n\*ggers are more than 2,600 times more likely to engage in a **Multiple-Offender Aggravated Assault** than are humans. Their savage attack ceased only because they were confronted by an armed citizen who caused them to flee. ***(That armed citizen should have dispatched all three.)***

**Ross Collier:** In January of 2024, this 53 year-old white man was shot to death by a n\*gger in Memphis. The street-ape coveted Mr. Collier's late-model truck, and shot him during an attempted car-jacking. No suspect has been identified thus far, but I'll donate my house to the NAACP if it wasn't a rat-n\*gger who committed this murder.

**Margaret Ler'che:** In January of 2024, this foolish 34 year-old white woman was beaten, strangled and shot to death by her 41 year-old n\*gger husband in Osceola, WI. During his arrest, he reached for a shotgun, but police showed unnecessary professionalism and restraint by not blowing his head off and dumping his remains into a septic tank.

**Maggie Ler'che & Husband**

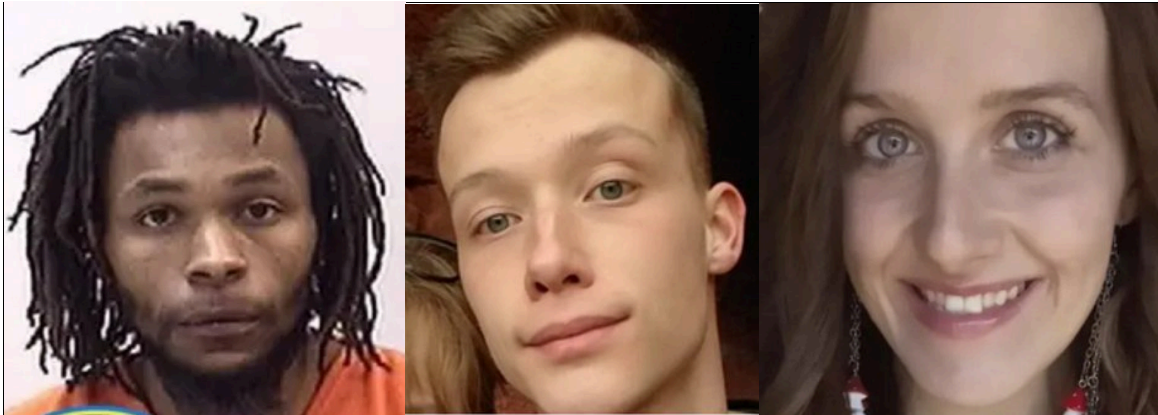

**Mary Lou Schuman:** In January of 2024, this 60 year-old white grandmother was shot to death in Baltimore. She was in the company of a black male, when both she and her companion were fatally shot by two savage n\*gger apes wearing masks, who then quickly fled. Naturally, the fake news media described the incident as the two being **"in the wrong place and at the wrong time."** **This begs the question: just exactly when and where is it the RIGHT TIME OR PLACE to venture out into the violent and savage black cesspool known as Baltimore?**

**Ryan Realbuto:** In January of 2024, this 23 year-old white male was murdered by n\*ggers in Washington, DC. He worked with so-called "at-risk" youth, and was walking home with friends from his church when a car with two *at-risk youth* pulled alongside him and demanded money. When he produced none, he was fatally shot by them. Hopefully, his acquaintances at the scene of the incident learned a valuable lesson about *Africanus criminalis*. Unfortunately, Ryan's lesson came too late.

**Scott Jackson:** In January of 2024, this 51 year-old white man and grandfather was beaten to death in Fort Worth by a 27 year-old savage n\*gger immigrant. Mr. Jackson was delivering firewood to a customer when this naked black baboon suddenly appeared and began harassing both Jackson and the customer. When told to leave, the baboon seized a stick of firewood and viciously struck Jackson on the head, killing him. This rabid baboon then chased the customer into his house. The n\*gger has been charged with murder and aggravated assault. Naturally, his immigration status has not been released.

**Samuel Knopp & Celie Montgomery:** In February of 2024, these two white kids -- ages 24 and 26, respectively -- were shot to death in a dormitory at the **University of Colorado** by a 25 year-old sub-human, black beast. The n\*gger has been charged with two counts of first degree murder. **(Let's hope his conviction isn't eventually overturned by Colorado's Supreme Court, which consists of the same frauds and**

traitors who upheld removing Donald Trump from the 2024 Presidential Ballot in Colorado.)

***Homo habilis* and Its Two Victims**

**Unborn Child of Brittany Rich:** This baby was murdered in February of 2023 by n\*ggers who shot his 25 year-old mother seven times while carjacking her vehicle in Fayetteville, NC. Fortunately, the unborn child's mother survived. The rat-n\*ggers remain unidentified, but their race was evident in both their savagery and in video images of the incident.

**Michael Garr:** In April of 2023, this 15 year-old white male was stabbed to death by a rabid ape In Upper Darby, PA, while walking down the street in his own neighborhood. The same n\*gger who murdered him is a suspect in the stabbing of a woman two months before during a car-jacking. Police were eventually able to make an arrest in January of 2024 based on video of the probable murderer.

**Jake Luxemburger:** In September of 2023, this 10 year-old white boy was killed in Oldham County, KY, while riding as a passenger in his parents' vehicle. Their vehicle was struck by a stolen car driven by a n\*gger who was evading police at high speed. The black bastard was charged with a litany of crimes including murder.

**Gor Adamayan:** In December of 2023, this four year-old white child was shot to death by a savage ape in Lancaster, CA, while innocently riding with his parents in the backseat of the family car. A 29 year-old rat-n\*gger was arrested for the murder, which was attributed to road rage. The black bastard was arrested on a felony gun charge one week before the murder, but was released due to California's new and treasonous bail laws. (See below.)

### **Murderous, Sub-Human Black Ape**

**Garrett Edward White:** In January of 2024, this 21 year-old white man was shot to death by a savage ape in Seneca, SC. The appropriately-named killer, whose surname is **Anderson-Savage**, appears to have been attempting to steal from his white victim, resulting in the fatal shooting. **(This sounds suspiciously like a drug-deal that ended as a murder.)**

**Keaton Morrison:** In December of 2023, this two year-old white child was murdered by his mother's n\*gger boyfriend in Oil City, PA. The 24

year-old subhuman rat-ape first burned the child's genitals, then beat him to death before concealing his body in the basement. The child's 22 year-old mother has also been arrested. (The Klan would have understood how to deal with this situation better than the courts...)

**Serenity Hawley:** The end wasn't so *serene* for this foolish 17 year-old white girl, who was shot to death in November of 2023 by her n\*gger ex-boyfriend in Blacksburg, VA. The murder/suicide occurred only a few days after she had obtained a **No Contact Order** against the black baboon. Her murder took place two days before her 18th birthday. (*"If you dump a n\*gger, you'll need a grave-digger."*)

**Shannon Mansfield:** In early January of 2024, this 45 year-old white woman was shot to death by a savage n\*gger who was attempting to rob or burglarize her in her own apartment in New Madrid County, MO. A 45 year-old rabid ape was found with a gun in a nearby apartment, and then arrested by police. The black baboon has been charged with murder and armed criminal action.

**Victim & Murderous Ape**

**Seth Chedville:** In mid-January of 2024, this white male was shot and killed by a 20 year-old drive-by n\*gger in New Orleans. Chedville and two shooting victims who survived were at a gas station when the incident occurred. There does not seem to be any explanation for this incident other than the fact that all three victims were white, and the murderer was a sub-human rat-n\*gger.

**Mary Sims:** In January of 2024, this 77 year-old white woman was murdered in Indianapolis by a rat-n\*gger to whom the victim and her family had shown kindness and generosity in the past. The 18 year-old rabid ape had been permitted to reside in the victim's home, but was no longer welcomed. (*Dollars-to-doughnuts he stole from her.*) Probably in retaliation, he handcuffed the victim and wrapped plastic wrap around her head. She also had abrasions and cuts on her body, where he probably tortured her to obtain money he assumed she had hidden. (**I'm not being dramatic when I recommend that readers NEVER play Good Samaritan to a n\*gger: most will perceive you as a "mark" who deserves nothing but exploitation.**)

**Victim & Ingrate N\*gger**

**Scott Kracke:** In January of 2024, this white man was shot to death by a rabid ape In Meriden, CT. The savage killer -- who was a corrections officer -- shot the unarmed victim during a senseless incident of road-rage, but claims to have acted in self-defense. He fired more than a dozen rounds at his unarmed victim. This n\*gger will soon be on a more **APPROPRIATE** side of prison bars...

**William Strane:** In January of 2024, this 86 year-old white man was shot to death by a black baboon in Montgomery, AL. No motive has been released for this murder, but I'll infer one: Mr. Strane is white, and his killer is a n\*gger who wanted something that belonged to the victim. **At least now the victim's widow or other family members have an excuse for getting the hell out of Montgomery, and for good!**

**Jeremiah T. Green:** In March of 2023, this 11 year-old white male was shot to death by a n\*gger in his own home in Dallas. His murderer was his mother's former boyfriend, who showed up at her house at 2 a.m. demanding to see her. When the baboon was not allowed to enter, he shot the victim to death. The rat-ape is charged with capital murder.

**Christina Lynn Artus:** In mid-January of 2024, this 41 year-old white woman and her one year-old child were murdered by a n\*gger in Gonzales, LA. This was an incident of domestic violence, in which the black bastard murdered his own daughter, in addition to its mother. The rabid ape has a loooooong history of drugs, violence, and criminal damage, and has fired a weapon into several homes in the past. **He must be just as stupid as he looks...**

**Victim & Murderer**

**Raven Thompson:** In January of 2024, this 36 year-old white woman was shot to death in her own home by her n\*gger boyfriend in Tecumseh, OK. ***(When are these incredibly stupid mud-sharks gonna learn to avoid jungle-apes?)***

**Curtis Butler:** In January, this allegedly white, 52 year-old male was shot to death by his black girlfriend in Bloomington, IN. He had been homeless for many years, but took up with a transient niggress. As stupid and crazy niggresses are inclined to do, she fired a shot into his tent after a loud argument between the two. His photo appears to be a yearbook photo, and is **DEFINITELY NOT** recent. (See below.)

**Charles Sudduth:** In January of 2024, this 73 year-old white man was shot to death by a drug-crazed n\*gger in Jackson, MS. Mr Sudduth was renovating a home when he was killed by the rabid ape, who has a long history of mental illness and violence. **(Editor's Note: Nearly ALL are insane and violent by white standards.)** The black bastard also confessed to the non-fatal shooting of an ATM serviceman in an earlier incident.

**Jacob A. Carter:** In January of 2024, this white male was shot to death by a n\*gger in Bossier City, LA. The victim was vacationing with *his husband* when the rabid ape attempted to rob them. The 16 year-old black baboon then shot the victim to death. Christie and his husband owned a business in Tacoma, Washington: like most of that state's residents, they had little understanding of the violent, savage, witless and predatory nature of *Africanus criminalis*.
