

An Unnervingly Accurate Comparison

by Earl P. Holt III

Last summer, the Jews Media began an obvious public relations effort to assist in Joe Biden's reelection by comparing him to Franklin D. Roosevelt, with the usual suspects like the **NEW YORK TIMES**, **CNN**, and **TIME Magazine** enlisting their services. Their purpose was to convince gullible dolts among "Democrats" and Independents that Biden's age should **NOT** become an issue in 2024, because FDR supposedly was able to serve as president while he was elderly and infirm like Biden clearly is.

Aged Presidents: FDR and Joe Biden

The lying Marxists who dominate the Jews' Media were too ignorant and traitorous to recognize just how accurate their parallel between FDR and Biden really is, **BUT NOT FOR THE REASONS THEY ALLEGED.** Much like Biden's disastrous policies that have nearly destroyed

America by attempting to deliver us into the international socialist orbit, it was FDR and his administration that began America's precipitous decline. In both administrations, an incapacitated president gave our communist enemies an opportunity to seize control of the Executive Branch of our government **BY DEFAULT**.

Just behind the Soviet Union, FDR was the world's second largest employer of spies for the Soviet Union's secret police, the **NKVD** (civilian intelligence) and **GRU** (military intelligence.) His entire administration was honeycombed with Soviet spies who served Josef Stalin and the USSR, including FDR's own **Chief of Staff**, a man named Lauchlin Currie (Soviet code-name "**Page**.") This also applies to Duncan Lee (Soviet code-name "**Kokh**,") who was Bill Donovan's top assistant at the CIA's predecessor, the **Office of Strategic Services**.

It also includes the upper echelons of FDR's **Treasury Department**, which provided the officer corps for the "**Silvermaster**" and "**Ware**" Soviet spy rings. Prominent among these were Harry Dexter White (Soviet codename "**Jurist**,") Solomon Adler (Soviet codename "**Sachs**,") Harold Glasser ("**Ruble**,") Frank Coe ("**Peak**,") William H. Taylor ("**Acorn**,") and Sonia Gold ("**Zhenia**.") (Btw, all were Jews except for Taylor.)

Harry Hopkins was the man who ran the *Lend-Lease* program that shipped American armaments to the USSR before and after America's entry into World War II. He was also the Soviet spy ("**Agent 19**,") who treasonously included enriched Uranium 235 and the blueprints for America's atom bomb in his shipments to the Soviets. That's how the Soviets first obtained a nuclear weapon. (M.S. Evans and H. Romerstein. **Stalin's Secret Agents**. *Threshold Editions*: Chapter 9.) There were an additional 100 communist party members employed in FDR's **State Department** -- exposed in the "*Lee List*" used by Joe McCarthy -- many of whom were also Soviet spies, including one named Alger Hiss.

Mugshot of Hiss Serving Time for Perjury

Alger Hiss was a ***State Department*** official who was also a Soviet spy for both the NKVD (Soviet code-name "***Lawyer,***") and the GRU (Soviet code-name "***Mars.***") Apparently, he was such a *true-believer* that he was recruited by both Soviet intelligence agencies independently and served each without the other's knowledge, thus demonstrating the "*compartmentalization*" that is universally found among successful intelligence agencies. **He was also the official responsible for nearly every detail of the February, 1945 Yalta Conference that intentionally and treasonously delivered Eastern Europe into the hands of the Soviet Union following World War II.** (Evans & Romerstein. ***Stalin's Secret Agents***, Chapter 3.)

At the time of the Yalta Conference in early February of 1945, FDR's new Secretary of State, Edward Stettinius, had been on the job less than two months, so he deferred nearly every aspect of its proceedings to Hiss, a low-level State Department subordinate. Hiss established the

protocols for the *Yalta Conference* and did most of the negotiating for the U.S. Meanwhile, FDR experienced a series of strokes that left him drooling on the conference table when he wasn't staring off into space. MUCH LIKE JOE BIDEN'S PRESENT CONDITION, FDR was obviously incapacitated and died a mere two months after the *Yalta Conference* on April 12, 1945.

This is where the similarities between Joe Biden and FDR are most clearly pronounced, and why the U.S. is once again in serious decline because of subversion by an ideological enemy. The Soviet spies who basically ran the Roosevelt Administration worked to subvert nearly every aspect of our foreign and defense policies, just as traitorous n*ggers and equally traitorous Jewish communists are now feverishly subverting our national security and foreign policies to benefit communist China. This is the practical application of Rahm Emmanuel's advice to Barack Hussein Obama (paraphrase) to *"never let a tragedy go unexploited."*

Much like FDR in the final months of his life, Biden is a mere figurehead in his own administration, with real policy being made by traitorous and sinister forces in his administration's shadowy background, forces universally hostile to the interests of American sovereignty and democratic capitalism. For FDR, those forces were Alger Hiss, Lauchlin Currie, and Harry Hopkins, among many others. For Biden, they are equally traitorous Jewish communists and Afro-Marxists such as George Soros, Susan Rice, and Barack Hussein Obama.
