

Biden's Senility & The Jews' Media

by Earl P. Holt III

A member in good standing of the Jews' Media recently penned an article in **NEW YORK** magazine exposing a **"conspiracy of silence"** surrounding Joe Biden's advanced state of mental decomposition. Author Olivia Nuzzi confessed that the Jews' Media has known Biden is senile for years, along with **"Democrat"** officials, Washington insiders and the party's wealthy donors.

Her July 4 article is titled **"The Conspiracy of Silence to Protect Joe Biden,"** and it describes the efforts of some involved in this conspiracy, including those she refers to as **"Democratic officials, activists, and donors..."** She characterizes Biden's dementia as a **"dark family secret"** among participants in the conspiracy. Equally important, she indicates that many have also come to the realization that Biden is so dissipated, mentally, he couldn't possibly be running the federal government and that others must be secretly calling the shots.

"I got oil cancer after Uncle Brosie was eaten by cannibals..."

At long last, "*Democrats*" and their donor class know what every *Fox News* and *NewsMax* viewer has known for years: that Joe Biden is more like the "*Cadaver-in-Chief*." Specifically, the party that claims to epitomize democracy is unconstitutionally running the Executive Branch by **PROXY**, using corrupt and treasonous individuals like Barack Hussein Obama, and loyal ideologues such as Susan Rice and Lisa Monaco as go-betweens for Obama and Biden's staff. They have seized the helm to complete the task of *transitioning* America into the international socialist orbit begun by Obama in 2009.

There are a number of lessons to be gleaned from Nuzzi's candor. One is the staggeringly corrupt nature of the "*Democrat*" Party's donors, who have mindlessly-funded the near-destruction of the Constitution and Rule of Law by the very traitors to whom they contribute large sums of often dark and bundled campaign contributions. Another lesson is that the "*Democrat*" Party and the Marxist ideologues who run it are no more *democratic* than was the so-called "*German Democratic Republic*" when it was East Germany, and part of the old Soviet Bloc.

A third lesson is that the Jews' Media is just as corrupt and dishonest as the cabal's political wing, and cannot be trusted under any circumstances. After hiding Biden's dementia from the public for at least four years, they are suddenly willing to reveal the truth about him only because a bloodbath is looming for them in the November elections if Biden is heading the ticket. Now, as they work to grease the skids to remove Biden as either president or the 2024 "*Democrat*" nominee, they are suddenly caught in a tangled web of their own lies, making the task far more difficult.

Ironically, the same kikes, coons, queers and communists in the Jews' Media and "*Democrat*" Party -- who shamelessly lied about Biden's competence and fitness-for-office **FOR FOUR YEARS** -- are now calling for him to resign. (*Go figure!*)

Douchebags, Liars & Chameleons

That kind of dishonesty is hardly news to conservatives, Republicans, Libertarians or other honest people, who watched the Jews' Media dismiss Hunter Biden's laptop as "*Russian disinformation*" for four years. None cared to fact-check its contents to justify their lies, although conclusive proof of its legitimacy was readily available in the *NEW YORK POST*, an honest newspaper not part of their cabal. In dismissing Hunter's laptop, they spiked the **BIGGEST SCANDAL IN AMERICAN POLITICAL HISTORY**, one that has left Joe Biden totally compromised and vulnerable to extortion by China and other nations to whom he sold the influence of his office.

Moreover, the Jews' Media intentionally misreported most of the other big news stories of the 21st Century: It ignored Obama's Constitutional **ineligibility**; It ignored the fact that Joe Biden has been a pathological **liar** for 50 years; It spiked Hillary's destruction of **evidence** that would have exposed her sale of influence to foreign nations; It relentlessly lied about Trump **colluding** with Russia to steal the 2016 election; It dismissed the **Biden Family Crime Syndicate's** sale of **influence** to China and other nations; It scoffed at glaring evidence of the theft of the 2020 presidential election through massive voter fraud; It spiked America's continued **invasion** by Third World garbage; And, it ignored the

conspiracy between Biden officials and social media to **cancel** critics on social media platforms.

On Rush Limbaugh's radio show, whenever an important news story broke, he would often play sound bites from every cable and network news outlet that reported it. His purpose was to expose how each media organ repeatedly used IDENTICAL PHRASING in their reportage, indicating that the same memo had been sent to each of them, directing them to adopt the memo's narrative. Afterwards, their talking heads -- masquerading as "journalists" -- obligingly parroted the contents of each memo in the exact, same words. The identical thing occurred during the conspiracy to hide Biden's mental decline.

This phenomenon of the U.S. news media speaking in a single voice has been a persistent pattern for decades. However, their betrayal doesn't consist exclusively of the narratives they **fabricate** to libel their enemies and promote their allies, nor is it merely their active participation in **disinformation** efforts by "Democrats" and other Marxists. Of equal importance are the news stories they conspire to **cancel** by refusing to investigate or report them. This occurs whenever a particular news story is damaging to their political allies on the left, and especially so when damaging to the misnamed "Democrat" Party. The conspiracy to protect Joe Biden is just one example among thousands.

Rush was probably borrowing from the excellent work done at **Accuracy in Media**, which may have originated the practice of exposing and chronicling how the Jews' Media's outlets routinely speak with a single voice on every important news story. Their narratives, in which everyone sings the identical hymn, are intended to drown out any discordant voices that might offer opposing viewpoints. Their monopolizing of news media narratives persisted until the alternative news media -- inspired by Rush, himself -- had sufficiently evolved to provide infinitely more accurate and honest reportage for anyone who would listen.

The Jews' Media's Oligopoly

Among its many other Herculean tasks, Trump's *Justice Department* MUST bring charges of **anti-trust** against the Jews' Media oligopoly, and force its **breakup** and the **divestiture** of its subsidiaries. The entire Jews' Media and every "*Democrat*," socialist, communist, and so-called "*progressive*" will scream bloody murder because they're pleased with the *status quo*. However, Trump will know he's over the target when the flak is thickest. America must dismantle the Jews Media oligopoly, just as the federal courts previously de-consolidated the steel, oil and telecommunications industries in the 20th Century.
