

Divided Citizenship

by Earl P. Holt III

There are two basic kinds of people residing in the United States. There are those who gratefully acknowledge the privilege and honor of living in America, with its unparalleled freedom and prosperity. On the other hand, there are those who view residing in American as a license to plunder and exploit this nation for personal gain. The former are primarily conservatives, Republicans, and Libertarians, while the latter are usually race-hustlers, Marxists, illegals and other "*Democrats*."

A host of Obama holdovers in the **FBI and DOJ** treasonously perjured themselves before four **FISA Courts** to obtain warrants to spy on Donald Trump and his advisors from 2015 until 2018. They were fishing for some misdeed of Trump's that Hillary Clinton might use against him in her 2016 campaign for president. An FBI lawyer even altered a CIA e-mail to permit unconstitutional FBI surveillance of Trump advisor Carter Page. These traitors continued their surveillance and wiretapping of Trump, even *after* his election. Each anticipated their demonstrated loyalty to Hillary would be **generously rewarded** with powerful and **influential positions** in a Hillary Clinton Administration.

Another example: as *Secretary of State* in the Obama regime, **Hillary Clinton** used an illicit e-mail server to hide her illegal and treasonous business dealings with foreign heads of state. Those transactions included selling her influence to foreign nationals and Uranium to Russia, in return for hundreds of millions of dollars donated to the **Clinton Family Crime Foundation**. She probably sold classified documents to her "*clients*" as well. Hillary desperately wanted to be president **to REALLY cash-in**, so her spy team intercepted Donald Trump's e-mail before and after he was president, still vainly in search of dirt that didn't exist.

CORRUPTION AWARD

SCAM OF THE YEAR

- They took in \$177 million in so-called "donations",
- Gave **ONLY \$5 million to charities,**
- Spent **\$85 million** for their salaries & travels.
- and **KEPT the rest = \$86 million.**

This is from the
The Clinton Foundation
2014 tax returns.

D.W

Taking his cue from Hillary Clinton, Joe Biden ("*The Big Guy*") figured he would do the same while he was vice president and president. The **House Judiciary** and **Oversight Committees** have exposed their bank records demonstrating at least \$21 Million illegally paid to the **Biden Family Crime Syndicate** by foreign nationals, most of which came from communist China. In return for the \$17 Million from China, Joe Biden engaged in numerous illegal and **treasonous business dealings**, including the sale of *stealth technology* to make communist China's military aircraft less detectable by radar.

Likewise, the **Antifa and BLM riots** of 2020 were carefully staged to take place in large cities controlled by "*Democrats*," where sympathetic political authorities could safely order police to "*stand down*," even as rioters engaged in arson, murder and aggravated assaults. In fact, rioters were rewarded with tens of **millions of dollars** from the cities of New York, Seattle, and Philadelphia for the "*indignity*" of being briefly

arrested for rioting. That **windfall** will fund their continued activities as the violent and militant wing of the misnamed "*Democrat*" Party. They will use those funds to riot when Trump is elected president in November of 2024.

Labor union bosses often enrich themselves while harming the nation as a whole, especially when their *union's dues* wind up in the campaign coffers of *woke "Democrats."* Meanwhile, "*Democrat*" officials do everything imaginable to undermine the quality of life for rank-and-file members through high taxes, open borders, DEI, forced integration, and so-called "*justice reform*." Most union bosses stood silent while the Clinton regime welcomed China into the **World Trade Organization** and granted it *Most Favored Nation* trading privileges. Afterwards, millions of middle-class manufacturing jobs were "*outsourced*" to communist China. Union bosses don't care about American *workers*, they care about the power and influence their positions give them in the "*Democrat*" Party. They foment class warfare as a diversionary tactic to deflect attention from their own **opulent lifestyles**.

Most **blacks** will steal anything that isn't bolted down or doesn't require much effort. With welfare, however, they don't even have to steal anymore, except when they engage in **welfare fraud** and happen to "*falsify*" the number of illegitimate children they declare to social workers. In addition to fraud, blacks get on more welfare programs than any other demographic, they sign-up for as many programs as possible, and then stay on those welfare programs longer than any other group. Welfare becomes a way of life for nearly half of them, and anyone who has ever dealt with them knows this to be a fact.

The affirmative-action that accompanied most federal court-ordered desegregation plans paved the way for large public school *systems* to be taken over by **semi-literate blacks** with dubious academic credentials. Most were usually lazy, often corrupt, and always incompetent. They

quickly asserted their tribal instincts and turned every large, urban school system into their personal fiefdoms. This allowed them to pursue their **TRUE** agenda of controlling the hundreds-of-millions (sometimes even billions!) found in their system's **Operating and Desegregation Budgets**. They were never interested in educating, and the majority of these black hires were the architects of the current disaster ludicrously known as "*public education.*"

"Ussens is Teachers"

Besides Hillary and "*The Big Guy,*" many sleazy **Washington insiders** have spent their careers **feathering their own nests**, while routinely betraying their constituents and nation. Nancy Pelosi has engaged in insider trading so often, she and her husband have accumulated nearly \$100 Million in assets. Former Senators Howard Metzenbaum (D-OH,) Bob Menendez (D-NJ,) and the late "*Dirty Harry*" Reid (D-NV,) were equally slimy. A few "*Uni-Party*" members like Mitch McConnell have also

become quite wealthy through large **corporate contributions** that improperly influenced their votes on key issues like China trade, immigration and discretionary federal spending. McConnell and his Chinese wife also own a shipping company whose container ships are manufactured in shipyards owned by the *Chinese Communist Party*.

With the exception of a few dedicated and professional federal agencies engaged in law enforcement, immigration control, and engineering, **Federal employment** usually involves indoor work with no heavy lifting, so it often attracts shiftless losers. No matter how lazy, incompetent, surly, or lacking in hygiene many federal employees may be, they have **exceptional job security** because they are almost impossible to fire. That's why the many federal employees who never showed up for work during the COVID scamdemic were paid, nonetheless. That's also why *The Big Guy* had to hire 72,000 more IRS employees to do the work that pre-existing IRS employees were **NOT** doing. The federal government has become an employment agency for refuse from the private sector, and it offers a much better-funded private pension.

But of all the parasites currently sucking the lifeblood from America, none compare to **Illegal aliens** residing here. The VAST majority are so-called "*economic refugees*," who seek a higher standard of living in the U.S. that is not obtainable in the shit-holes from which they originate. Unfortunately, the low-grade morons who govern us lure them here with **lucrative incentives** such as *resettlement funds*, debit cards, hotel rooms, cell phones, Medicaid, SNAP Cards (*food stamps*) and WIC Vouchers.

Margaret Thatcher had it right when she stated that "**socialism ends when you run out of other people's money.**" Socialistic America is being sucked dry by parasites of every kind -- both foreign and domestic -- and the situation is not sustainable. We are rocketing toward insolvency, and must de-fund the many parasites who have made the U.S. economy anemic.
