

Fake News & Interracial Murder

by Earl P. Holt III

The Jews' Media is obsessed with stamping out any hint of what Cultural Marxists consider to be *racial heresy*, and it has shown particular animus toward any group that accurately and honestly reports black-on-white violent crime incidents. As in so many other contexts, honest and accurate reportage exposes the treachery of the Jews' Media, and makes it look very dishonest, in contrast.

The Jews' Media's standard narrative is one in which innocent black victims are constantly under assault by violent white assailants, and those who dare to expose this false narrative are subject to the full wrath and fury of the Jews' Media. The CofCC experienced this in the wake of Dylan Roof's mass-murders in Charleston back in June of 2015, for which the CofCC was falsely denounced as culpable because our website accurately chronicled many black-on-white murders.

To advance their false narrative, any white-on-black violent crime committed in the U.S. instantly becomes the *lead* story for days in a prolonged *media feeding frenzy*. Meanwhile, black-on-white violent crimes are routinely "*spiked*" by the Jews' Media and receive only local coverage, if they receive any at all. The so-called "*Wichita Massacre*" was just one of many examples of this phenomenon.

Back in 2000, some white kids in their mid-20s were having a Christmas Party at a private home in Wichita, Kansas. At some point, two black animals armed with a handgun forced their way into their condominium and then rounded up all the occupants and held them captive for hours. They repeatedly raped the women, and sexually degraded every victim. When they tired of this form of entertainment, they robbed the house and forced each victim to withdraw money from their ATMs.

Eventually, the two Carr Brothers marched all five kids out to a soccer field, where they attempted to execute all of them with bullets to the head, before driving over them in a truck belonging to one of the victims. Their savage instincts revealed they were no more evolved than their immediate ancestor, *Homo habilis*, after it first climbed down out of the trees hundreds of thousands of years ago.

Fortunately, one of the young women survived, and managed to make it to a nearby home where police were called, allowing for the rapid apprehension of the murderers. The lone surviving victim courageously insisted that the homeowners listen to her story before calling the police or EMS, just in case she might die before they arrived.

Murderous Carr Brothers & Kinfolk, *Homo habilis*

If you are unaware of this crime, it's because it was spiked by the Jews' Media, in contrast to seemingly endless coverage given the death of George Floyd in 2020, the mass slayings in Charleston in 2015, the dragging death of James Byrd in Jasper, Texas in 1992, or even the ludicrous description concocted by the Jews' Media for the “*Gentle Giant*” in Ferguson, Missouri in 2014. (That last, grotesque mis-characterization was a perfect validation of Tom Wolfe's book, *Bonfire of the Vanities*.)

In point of fact, blacks are more than 50 times more likely to commit a violent crime against a white person than the reverse. That's because 85% of ALL interracial violent crimes are perpetrated by blacks -- who constitute a minority of 13% -- and this statistic holds true for black-on-Hispanic violent crimes, as well.

Because of the enormous disparity between black and white interracial violent crime rates, it has become increasingly necessary for Marxists in the Jews' Media to intentionally obscure the race of violent black offenders in their news accounts. Even where the race of a perpetrator might be of some value in identifying a suspect still “*at large*,” they scrupulously censor the perpetrator's race.

In fact, it was at its national convention in 2009 that the fraudulently-named “*Society of Professional Journalists*” reached the collective decision that their “*profession*” had not gone far enough in obscuring such vital information, and so it adopted a **FORMAL POLICY** to censor the race of violent criminal suspects except in “*extraordinary*” situations.

The motives of the Jews' Media are not difficult to ascertain, however, whether they remain in the form of an unspoken conspiracy or they are formally acknowledged, as those in the *Society of Professional Journalists* obligingly did in 2009. As the public relations wing of Cultural Marxism in the West, they must protect Marxism's dogmas.

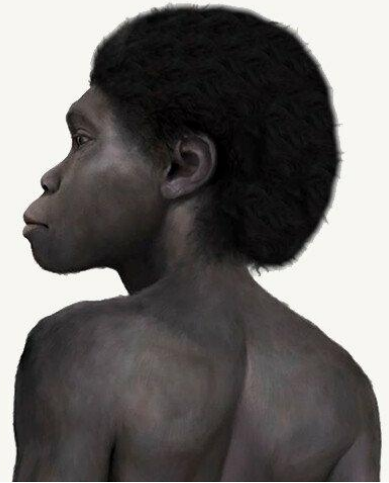

For more than 60 years, whites have been indoctrinated with the patent falsehood that *“we are all the same except for skin color,”* or that *“race is an artificial construct.”* This narrative has been aggressively promoted by Cultural Marxists – particularly the Jews' Media, the entertainment industry, and our public schools – and their efforts have ushered in many calamitous and destructive policies, such as the forced integration of schools, workplaces, and residential neighborhoods.

This policy of forced integration has been so successful at bringing violent black offenders into greater contact with potential white victims, that by the late 1990s, incidents of black-on-white violent crime began to exceed incidents of black-on-black violent crime. (This refers to the aggregate of all four categories of Violent Crime in the FBI's *Uniform Crime Reports*, rape, robbery, murder and aggravated assault.)

If the Jews' Media were to accurately report the staggeringly disproportionate volume of black-on-white violent crimes, this might alert whites to the realization that we are most clearly *NOT* all the same, and that blacks are significantly more violent, savage, dangerous and predatory than all other races.

The accurate and honest reportage of interracial violent crime might actually awaken whites -- at least those possessing a brain -- to the very real threat that blacks clearly pose to them, particularly their demonstrable threat to white women. Any awakening on the part of whites might work to undermine whatever residual support remains for the so-called black *“Civil Rights”* legislation of the 1960s.

Present-day sub-Saharan Africans trace up to 19% of their genetic ancestry (DNA) to an extinct archaic hominin species (Homo Erectus or Homo Habilis) that is NOT found in the DNA of present-day Asians or Caucasians.

Race is definitely NOT an "artificial construct"

In short, a very important pillar supporting Cultural Marxism's entire house of cards would collapse rather quickly if the Jews' Media were to engage in honest and accurate reportage on the subject of black violence directed at white people, especially black-on-white murder.

On the other hand, we at the CofCC will continue to report and chronicle these cases until we draw our last breaths.
