

The June 27th Debate

by Earl P. Holt III

The conventional wisdom in Washington has usually been that debates between presidential candidates rarely have any bearing on how the electorate eventually votes in a general election, but that may not be the case in November of 2024. After Biden's disastrous performance on June 27th, the likelihood of a second debate may be less than the possibility of Mel Gibson converting to Judaism.

At that debate, the "*Democrat*" rank & file who blindly get their news from the Jews' Media learned for the first time what the rest of us have known for four years about Biden's dementia. Also, they may finally recognize the utter and systemic dishonesty of the Jews' Media, which has ceaselessly lied to them on a daily basis about Biden's competence and fitness for office. (Biden may stare vacantly, but he can't "*see around corners*" as Prissy, the White House-n*gger once declared.)

Constant State of Confusion

When Trump made the point during the debate that he had shut down the terrorism of Iran and its surrogates while he was president -- by freezing its flow of oil money through the *Swift System* of international currency exchanges -- Biden appeared to be surprised, as if he had never heard of such a thing. It may well be that his "*controllers*" carefully filter his news, just as their allies in the Jews' Media carefully filter their reportage. It could also be that he's just dumber than a box of rocks...

"I got oil cancer after Uncle Ambrose was eaten by cannibals."

In the past four years, the Jews' Media has gaslighted the electorate with lies and disinformation surrounding Joe Biden's mental acuity. Those stupid enough to actually believe the Jews' Media witnessed its depravity and the extent of its dishonesty at the recent debate. Hopefully, this will

awaken such imbeciles to the realization that the Jews' Media has intentionally lied about damned near every other story they've covered in the last 50 years.

Their more recent lies included allegations of Trump's *Russia collusion*, the legitimacy of Hunter Biden's laptop, the Jews' Media's own allegations of "*cheap-fake*" videos by honest news sources, the *Biden's sale of influence to China and other nations*, our invasion by Third World garbage, the theft of the 2020 presidential election through massive vote fraud, and Obama's Constitutional ineligibility.

Ironically, the same kikes, coons, queers and communists in the Jews' Media and "*Democrat*" Party -- who shamelessly lied about Biden's competence and fitness-for-office for four years -- are now calling for him to resign. (*Go figure!*)

In the months ahead, the "*Democrat*" rank & file will also witness the utter contempt for *Rule of Law* secretly harbored by the treasonous slime who fund and control the so-called "*Democrat*" Party, which is really the ***New Communist Party of the USA***. (They got only a glimpse of it when so-called "*Superdelegates*" stole the 2016 "*Democrat*" presidential nomination from Bernie Sanders and handed it to Hillary.)

Ironically, the two Jewish moderators from CNN weren't nearly as dishonest as their commentary always is, but only because they knew the *Cadaver-in-Chief's* poor debate performance would help grease the skids for him to resign or be removed. They probably figured that "*playing it straight*" would highlight his decline, and help get him pulled from the ticket to avoid the electoral bloodbath looming for their party in November.

Good luck with that undertaking...
