

"My Fake Lady"

by Earl P. Holt III

Not since *My Fair Lady*, in which Professor Henry Higgins gave Eliza Doolittle the world's most thorough "makeover," has anyone attempted to scrub the history from another like the Jews' media is desperately doing for Kamala Harris. She was once rated the most liberal Senator in America, but her earlier policy positions and opinions are disappearing from websites faster than fried chicken at a "stoned, soul picnic."

Eliza Doolittle, Before & After

With its usual corrupt, treasonous and dishonest efforts, the Jews' Media is desperately camouflaging the Marxism of Vice President Kommie Harris, at least for the duration of her 2024 campaign. That's not an easy task, since she has a big mouth, she's been around a long time, and has never been reticent about sharing her juvenile and fatuous ideology with the idiots whose support she seeks.

One recent enthusiasm is her support for the distasteful notion of funding **sex-change operations** for incarcerated felons. Naturally, these prohibitively expensive surgeries would be funded by American taxpayers, who are already footing the \$100,000-per-year bill for each long-term incarceration of these charming people. By all means, we should definitely attempt to encourage sordid sexual practices among such worthy and deserving citizens. Kommie apparently has real empathy for criminals, because she also wants them to be able to **vote**.

Current & Former Prospects for a Harris Sex-Change Operation

After welcoming 15 million unvetted illegal aliens into our country as America's "***Border Commissar***" -- and then relocating many of them to the far corners of America -- Kommie Harris has also advocated for the **abolition of ICE, our *Immigration Control and Enforcement*** agency. After all, if you are working to destroy a nation by swamping it with Third World garbage, you certainly wouldn't want ICE to round them up later and deport them to their nations of origin. That would undo the whole purpose in bringing them here in the first place.

But **ICE** isn't the only law enforcement she wants to abolish. Since the George Floyd riots of 2020, she has repeatedly advocated defunding and

abolishing municipal police departments, altogether. She claims we need to "**rethink law enforcement,**" which is the kind of vague, fatuous and childish utterance that dull-witted college freshmen blivate to impress equally dull-witted associate professors in their *Black Studies* courses. After all, everyone knows *Africanus criminalis* will be much more law-abiding once law enforcement is eliminated, right?

Nlgs Without Cops

Abolishing municipal police would allow our large cities to further jettison the *Rule of Law* in favor of "*the law of the jungle,*" especially as it's practiced in the "*hood.*" Yet, at the same time she wants to disarm us with a **MANDATORY gun buy-back program,** that would leave us defenseless against the black savages who are already destroying our largest cities, once considered "*the gems of our civilization.*" Without local police or the *Right to Keep and Bear Arms* for our self-defense, the U.S. would quickly resemble that shit-hole known as Haiti.

Until very recently, she's been adamant in her opposition to "**fracking,**" a *state-of-the-art* technique for extracting residual oil and gas that was

once thought to be unrecoverable from presumably depleted oil fields. Since Pennsylvania is a "swing" state and its economy depends heavily on *fracking*, Kommie Harris promised last week that she would not ban fracking as the Biden-Harris Administration has done, despite multiple video recordings of her vowing to do exactly that.

Although she's now running for president as a **tough-on-criminals** and pro-law enforcement candidate, it's important to remember one thing: when arrests were being made of the n*ggers and communists who rioted during the 2020 "summer of love," Kommie Harris was the one who established a fund among other America-haters to post their bonds and "spring" them from county jail cells. The fix was "in" to ensure these "peaceful protestors" never paid a price for setting **BLUE** cities ablaze and killing innocent bystanders and cops.

The New Communist Party of the USA (NCPUSA) -- wrongly called "Democrats" -- characterizes Kommie's epiphany as a "strategic shift." That's a Marxist euphemism for "please ignore the things I earnestly stated before I was campaigning for office." In more honest circles, not contaminated by Marxist ideology, this phenomenon is generally referred to as a "flip-flop."
