

The China Lobby

by Earl P. Holt III

The relentless vilification of Donald Trump -- a phenomenon that earned the label "**Trump Derangement Syndrome**" -- probably has its origins in a campaign orchestrated by America's "*China Lobby*." This broad label includes *K Street* lobbyists promoting trade with China, as well as those members of our "*political class*" and "*donor class*" who are heavily invested in China, and whose investments were threatened by the trade policies and tariffs imposed by President Donald Trump.

Recognizing an existential threat to their influence and investments by Trump, these **oligarchs, kleptocrats and plutocrats** conspired with each other and China to generate an atmosphere designed to incite the marginal citizens who comprise the "*Democrat*" Party's rank and file. Retarded and illiterate blacks, *Stepford Children*, queers, communist Jews, *Birkenstock Bolsheviks*, doltish union thugs, garden-variety Marxists, feminists and mailbox-watchers were enlisted to attack Trump and promote the vile propaganda and disinformation spewing from these sources of power and influence.

One particularly vile conspirator against Trump was the industry known as "**social media**." By *social media* I mean the leftist cesspool of narcissism, self-absorption and disinformation characteristic of **Google, Facebook, Instagram, YouTube, Pinterest** and **Twitter** before Elon Musk changed the latter to "**X**." Their pursuit of oligopoly power in order to dictate political narratives -- by unconstitutionally censoring their critics and adversaries at the behest of the Biden Administration -- was achieved with a rapidity that may be unique in American history.

A clear indicator of their dishonesty and treason was evident in the subjects that immediately became *verboten*. That includes their "**de-**

platforming" of anyone who offered evidence that COVID-19 originated in the labs of communist China's **Wuhan Institute of Virology** (WIV,) no matter what their credentials may have been. It also censored anyone who dared to offer comments or evidence surrounding the incriminating and infamous contents of **Hunter Biden's laptop** computer. And, not one word was permitted regarding the massive **vote fraud** from "**Democrats**" *harvesting* and *proxy-voting* mass-mailed ballots during the November, 2020 General Election.

Meanwhile, social media tolerated the vilest scum on the planet so long as they hated America, such as **n*ggers** on **Facebook** flashing guns, gold teeth and ill-gotten gains from armed robberies and drug sales. Likewise, Iran's **Ayatollah Khamenei** was permitted to post the vilest and most fraudulent slanders against America, all Jews, Christian infidels, and anyone else their "*religion of peace and tolerance*" would love to slaughter if given the chance. **Queers**, transvestites and **pedophiles** were also welcomed with open arms.

The China lobby also encompasses American **colleges and universities** where 400,000 Chinese nationals matriculate at each year. The tens of billions of dollars in tuition garnered by these "*institutions of higher learning*" translate into enormous financial windfalls for each school. The enormous amount of tuition payments from Chinese students have clearly bought or "*captured*" the loyalty of these institutions when it comes to recognizing the ambitions of communist China.

But the windfall from Chinese tuition payments is even more lucrative than might appear on its face. The enormous surge in demand from billions in tuition paid by Chinese nationals has allowed these institutions to *raise* tuition for every other student. That's one reason why U.S. tuition costs have accelerated faster than any other American good or service in the past 25 years, with the possible exception of **gold**. For most colleges and universities, the tuition payments from their Chinese students are a windfall that pads their enormous endowments.

As a direct consequence, these institutions conspire to obscure the treachery of prominent faculty members -- such as the former head of the *Yale Chemistry Department* -- who willingly and knowingly accept bribes from communist China to engage in **industrial espionage** by stealing technological and scientific processes and techniques. These schools are also very permissive in allowing "**Confucius Institutes**" on their campuses, which provide "*safe houses*" for the professional spies who direct Chinese espionage activities in the U.S. These schools must protect their cash-flow from their Chinese students

The **Jews' Media** were enthusiastic participants in this campaign orchestrated against Donald Trump by the China lobby. Many actively

collaborated with corrupt FBI and Justice Department officials to frame Donald Trump, first as a candidate and later as President. They authored and published articles designed to appear as corroborating the lies contained in Hillary Clinton's phony "*Steele Dossier*," opposition research fabricated and distributed by her operatives. Their articles were based entirely on the *Steele Dossier*, but were cited in several fraudulent FISA applications by bad actors from the FBI and *Justice Department*, who perjured themselves to obtain warrants to spy on Trump and frame him with their phony and concocted "*Russia collusion*" charge.

The Jews' Media's motives were entirely political: They are the public relations wing of the misnamed "*Democrat*" Party, and co-conspirators with the latter in attempting to bring America into the international socialist orbit and install a world government framework that leftists and socialists have lusted after for 100 years. They realize that if America falls into the socialist orbit, the rest of the world will fall as well. These useful idiots are too blinded and poisoned by Marxism to recognize they would be among the first victims of any "*New World Order*" or any other Marxist regime. Lenin called such quislings "*useful idiots*," and vowed to "***hang them first.***"

Douchebags, Liars, Chameleons & Pimps

The China lobby also consists of **Hi-Tech Companies**, a term often used to refer to *Microsoft, Apple, Intel, Google, Amazon, Oracle, Cisco* and others. The prospect of cheap labor had previously caused many of these globalist companies to relocate or "off-shore" their manufacturing bases to China, disloyally depriving Americans of high-paying manufacturing jobs here in America.

Pressure from China and the possibility of seeing their manufacturing facilities "nationalized" made these *High-Tech* companies reliable co-conspirators and easy to enlist in the campaign to destroy Donald Trump and his Administration. **In turn, it also made them hostile to Trump's trade policies which, for the first time in history, attempted to sanction China for its enormous trade surpluses and its theft of technology aimed at America.** Trump wisely recognized the latter were the true "fruits" of China trade, instead of the "reciprocal" trade China had promised as a pre-condition for receiving *Most Favored Nation Trade Status* in the 1990s, and entry into the *World Trade Organization*.

Some **Multinational U.S. corporations** are often heavily invested in communist China. In addition to the *High-Tec* firms already mentioned, these include *Nike, Heinz, Ford, Gap, Coke, Pepsi, Starbuck's, Wynn Resorts, Kraft, Campbell Soups, Molson-Coors, and Caterpillar*, to name just a few. Wall Street Investment Banking firms such as *JP Morgan, Goldman-Sachs, Citigroup* and *Merrill-Lynch* negotiated many of these investments with banks in communist China. **They frequently constitute a source of political and financial opposition to Donald Trump and his administration.**

The "**Democrat**" Party is rife with traitors who sold their souls to communist China and the China lobby in exchange for Chinese money and vague promises of their place in the *New World Order's* power structure. Eric Swalwell (D-Beijing) is totally compromised after having slept with a Chinese spy named *Fang Fang* for years. She also

contributed to his campaigns for Congress by funneling "*bundled*" dark money donations originating in communist China. In fact, this douchebag even tipped her off that the FBI was wise to her, so she disappeared faster than watermelons at a "*stoned, soul picnic.*" Despite these transgressions, Swalwell still sits on the *Permanent Select Committee on Intelligence* and the *Committee on Homeland Security*, which is akin to giving Count Dracula the Master-Key to all **Red Cross** blood banks.

Likewise, for 20 years Sen. Diane Feinstein (D-Wuhan) hired a chauffeur and office manager who was also a Chinese intelligence agent, and her multi-millionaire husband is heavily invested in China, as well. Moreover, the entire Biden Family is literally owned by communist China, which has paid the ***Biden Family Crime Syndicate*** at least \$17 Million in bribe money for decades through its phony shell corporations created by Hunter Biden. (And that doesn't even include the diamonds, ***Corvettes***, and other items of value the Bidens received.) And, more recently, in 2024, the FBI arrested a Chinese communist spy who had served for years on the staff of America's dumbest governor, Kathy Hochul of New York.

In their own way, many in America's political and financial power centers have proved to be as vulnerable to treason, bribery and extortion as Tedros Adhanom, that lying n*gger at the **World Health Organization** whose financial benefits from communist China have made him a wholly-owned Chinese possession as surely as its **Wuhan Level IV Virology Lab**.
