

Just Speculating...

by Earl P. Holt III

Historians sometimes engage in an exercise they call a "*counter-factual hypothesis*," which is a fanciful way of imagining how the world would differ if history had taken a different course. A good example is one many of us have considered: that is, what would America and the world be like if Donald Trump had been re-elected in 2020, and that election wasn't stolen by the *New Communist Party of the USA* (NCPUSA,) an organized criminal enterprise mistakenly called "*Democrats*" by idiots and those blind to irony.

CRIMINAL JUSTICE: It's doubtful that Trump would have retained such a disloyal and timid Attorney General as Bill Barr, so his AG would probably have been someone with both brains and courage, a man such as Joe di Genova or Matt Whittaker. There would be no "*dual*" system of justice granting immunity to criminals and communists, and such a malignancy would never have evolved nor been allowed to metastasize.

More Appropriate Attire

As a result, the entire Biden Family would now be imprisoned for their myriad felonies, and *The Big Guy* might actually be facing execution for multiple counts of treason. Chris Wray would have been shown the exit at the FBI, and under investigation for perjury. That Mad Scientist, Dr. Anthony Fauci, would be serving a well-deserved stretch for one million counts of manslaughter, after funding the *ChinaVirus* through his illegal contributions to China's *Wuhan Institute of Virology*.

ECONOMY: If Trump had been re-elected, inflation would have remained around 1.2 percent, just as it had been for the duration of his first term. GDP would also have continued to grow at the rate of about four percent, where it had been until the *ChinaVirus* ravaged America. Our *National Debt* would be much less than its current level of \$35 TRILLION, and Trump's contribution to the *National Debt* would have been a small increase from funds unwisely thrown at *Big Pharma* at the urging of Dr. Fauci for its useless vaccine .

Biden's treasonous war on oil and gas would **NEVER** have taken place, a policy that was really a pretense for the NCPUSA to transfer **TRILLION\$ OF DOLLAR\$** in subsidies to their supporters and donors in the "**green energy**" industry. None of those industries could survive for a milli-second without trillions in federal subsidies.

Instead of electric cars, I think we should bring back the electric chair. It would solve more problems.

NATIONAL SECURITY: Donald Trump successfully closed our southern border by requiring prospective immigrants to "***Remain in Mexico,***" and by building almost 500 miles of **border wall** in strategic locations with high-traffic border-crossings. Trump's policies were discarded the first day the Biden Administration took office, because the NCPUSA ***WANTS*** mass Third World immigration, whether legal or otherwise. They got their wish: after nearly four years, the Biden Administration has allowed 15 to 20 million illegal immigrants to cross the border and disappear into the interior of the U.S.

Among those 20,000,000 illegals are many immigrants from China, Iran, Cuba, Russia, Venezuela and other hostile nations, each of whom pose a terrorist threat to real Americans. Their presence is a challenge to the FBI's already overwhelmed and compromised counter-intelligence unit, subverted by the Clinton, Obama and Biden Administrations.

"Everything Free in America!"

Since September 11th of 2001, America's national security has never been more compromised by incompetence, treason, and subversion, nor has America been less respected by other nations. From the day Hamas invaded Israel and murdered 1,400 Israeli civilians, Iran's surrogates have fired on U.S. military installations more than 140 times with only minimal U.S. retaliation. Also, Iran's *Houthi Rebel* surrogates are currently harassing shipping in the Red Sea, where they have repeatedly fired upon U.S. Navy ships and the commercial shipping of other nations.

Iranian Surrogates with U.S. Arms Abandoned in Afghanistan

When Trump was president, Iran would never have dared to attack the U.S. or our allies. In fact, it was Trump who de-funded Iran's terrorist activities and those of their surrogates by freezing over \$100 Billion in

Iranian oil revenues through the "Swift System" of international currency exchanges. Biden re-opened that valve, allowing hundreds of billions in oil revenues to flow to Iran ever since. Moreover, Iran's surrogates are now using the \$80 Billion worth of arms that Biden treasonously abandoned in Afghanistan in his dishonorable retreat from that nation.

Likewise, communist China would not be harassing our war ships and fighter jets in the South China Sea, nor aggressively engaging in saber-rattling over their planned invasion of Taiwan. Nor would Russia have dared to invade Ukraine. It was Biden's insane war on U.S. oil and gas that made the world price for oil skyrocket, an event that generated windfalls for the world's largest oil producers like Russia and Iran.

It was this windfall from its oil revenues that allowed Russia to fund its invasion of Ukraine, and Iran to continue as the world's largest sponsor of international terrorism. America had earlier achieved energy independence for the first time in 50 years under Donald Trump, an accomplishment that the Biden Administration managed to squander almost immediately by shutting down oil pipelines, outlawing "fracking" on public lands, and halting the leasing of public lands for oil exploration.

FREEDOM: The freedoms we used to take for granted -- maybe too much so -- would never have been compromised or undermined while Donald Trump was president. The mindless "*lockdowns*" of schools, churches, businesses and restaurants during the *ChinaVirus* would **NEVER** have been permitted, so the economy would have continued to grow and kids would have continued to learn. Fauci would have been fired and indicted early-on, so "*herd immunity*" would have been permitted to work its magic, and *HCQ* and *Ivermectin* would have been allowed to successfully treat COVID.

Finally, there would have been NO special, privileged status for blacks, queers, lesbians, perverts or *trannies*, whether in the private sector or in government and our armed services. Also, there would be no DEI or *Critical Race Theory* to undermine the readiness of our armed forces, so **NO** American combat soldier would ever have to worry about being sent into battle by queers, transvestites, lesbians, or communists. Recruiting would **NOT** be at its current, dangerously low level, **because recruits would know for a fact that their Commander-in-Chief -- President Donald J. Trump -- "HAD THEIR SIX" every step of the way!**
