

# Segregationist Visionaries

by Earl P. Holt III

Race-hustlers and race-traitors routinely allege that America's history of slavery, *Jim Crow*, red-lining and other discriminatory practices targeting blacks has never been fully atoned for. As *un-American* as those institutions may seem in retrospect, with the advantage of historical hindsight, let's consider exactly how and why some of those institutions happened to evolve in the *Southland* and elsewhere.

**White Southerners didn't just awaken one morning and decide to ostracize blacks: the institution of *Jim Crow* evolved over time and as a direct result of extended contact with blacks. Eventually, southern whites learned to recognize the majority of blacks to be violent, witless, superstitious, childish, mercurial, and invariably criminal, even though race-hustlers and modern-day *Stepford Children* are unwilling to acknowledge these failings.**

The criminality of blacks is why many cities adopted "***Sundown Laws***" that forbade blacks from remaining within city limits after sundown. Now freed of such constraints, blacks have proven to be synonymous with violent crime in the U.S., a category that includes rape, robbery, murder and aggravated assault. They account for over 90% of all murders committed in America each year, despite being only about 13% of the population. Moreover, blacks are 50 times as likely to commit a violent crime against a white person as the reverse, since the black population is about one-fifth the white population, but commits 10 times as many black-on-white violent crimes each year as the reverse. They are nearly synonymous with property crimes, as well.

Although the Jews' Media has adopted a formal policy to intentionally hide the race of perpetrators when reporting incidents of violent crimes like murder, most involve n\*ggers killing each other on the mean streets

of our large, urban areas -- like Chicago, Philadelphia, DC, Atlanta, Detroit, Memphis, New Orleans and St. Louis -- in the middle of the night. That's one very good reason why Southerners sought to minimize contact with blacks: they correctly recognized them to be childish, mercurial and dangerous. It is no coincidence that recently, **black mayors** in Chicago and Philadelphia have **ALSO** attempted to impose similar **curfews for youthful gang-bangers** as a means of reducing their city's skyrocketing rates of shootings and murder.

Meanwhile, the Supreme Court decision in ***Brown v. Board*** forced the dismantling of **segregated public schools**, which accomplished only two things. It profoundly lowered academic standards everywhere in the U.S., except where students are home schooled. And, it has destroyed public education and left our public schools an expensive disaster, where standardized test scores have plummeted while per-pupil costs have soared. Court-ordered desegregation of the public schools handed large, urban school systems and their **ENORMOUS BUDGETS** over to the control of incompetent blacks. The beneficiaries were not only incompetent, they were just as often corrupt and sometimes mildly retarded. The latter quickly converted their public schools into *graftocracies* of hopelessness and despair, where little learning takes place despite much lip-service to the contrary.

*Multivariate Regression Analysis* -- the most powerful and sophisticated analytical tool available -- has demonstrated that the lower average IQ of blacks “*explains*” all disparities in academic achievement between the two races. This means that racism has absolutely nothing to do with the problem of dismal black academic performance, which was the original excuse for the nationwide, federal court-ordered school desegregation that has cost the nation **TRILLIONS** of dollars over the past 50 years.

Disparities in academic achievement aren’t caused by differences in income, either, despite endless lies to the contrary. Nationwide, white students in the **lowest fifth** of family income (below \$25,000 in 2013,) averaged higher scores on the SATs than black students in the **highest fifth** of family income (above \$100,000 in 2013.) (**Ezekiel Dixon-Roman.**

***“Race, Poverty and SAT Scores.” Columbia University, THE TEACHERS' COLLEGE RECORD, April of 2013.)***

Likewise, the forced **desegregation of neighborhoods** brought a black criminal element into direct contact with its white victims, rapidly turning safe and nearly crime-free neighborhoods into violent and dangerous cesspools. When the percentage of blacks in a given area reaches a *critical mass* around 20 percent, the writing is on the wall: what lies ahead are property crimes, violent crimes, burglary, voter fraud, declining property values, declining city services and corrupt and incompetent local government. Many black ghettos in the U.S. were once their city's most fashionable areas, but the lovely homes of city fathers in earlier times were long ago demolished to make room for public housing projects that now incubate *Future Felons of America*.

***It Don't Takes 'Em Long...***

A similar principle applies to so-called **"red-lining"** by lending institutions which are often accused of engaging in discrimination against blacks in mortgage lending for residential housing. Successful and experienced lending institutions recognized over time that most blacks are simply incapable of living up to the terms of a legally-binding contract. (Hinted

at by how they routinely gun each other down over "*drug deals gone bad*" in the middle of the night.) Most are no more capable of making their mortgage payments on time than they are of paying their gas or electric bills in a timely manner. During the Obama Regime, the *Historically Black Colleges* were reported to have 100% default rates on the federally-guaranteed student loans of recent graduates, so Obama forgave their debts as Biden is now attempting to do.

The lying bastards in the Jews' Media have worked diligently to obscure this fact from the public, but the "*sub-prime mortgage crisis*" of 2008 was a **DIRECT** result of the so-called **Community Reinvestment Act of 1977**, passed by "*Democrat*" majorities in both Houses of Congress and signed into law by Jimmy Carter. It created **racial lending quotas** that forced interstate banks to lend to n\*ggers with terrible, or what are charitably called "*sub-prime*" credit histories.

No banker would ever voluntarily consider lending to such people in the absence of federal coercion. Few beneficiaries of these racial lending quotas had ever paid a bill on time, so when interest rates on variable mortgages increased in 2008, foreclosures grew into the **TRILLIONS** of dollars. White taxpayers are still paying for this massive disaster caused by so-called "*Democrats*," who enacted the fraudulently named **Community Reinvestment Act** to transfer wealth to their most reliable and numerous constituency, black deadbeats.

When n\*ggers use the term "*discriminatory policies*," they may have in mind such things as **literacy tests** for voting. These tended to impact blacks, because so many are retarded, illiterate, and mentally incapable of learning anything about the founding principles of American government. Look at the morons and crooks whom blacks routinely elect to public office in large, urban areas such as Chicago, St. Louis, Detroit, New York, Washington, New Orleans, Memphis, and San Francisco. America's black mayors are so incompetent, they don't have even an inkling how to go about reducing their violent crime rates, welfare

dependency, hopelessness, homelessness, drug usage, illiteracy and illegitimacy that are the legacies spawned by black domination of electoral politics in large urban areas. They have converted the "gems" of our civilization into cesspools where tax revenues go to die.

Blacks have also proved beyond any reasonable doubt that they are morally and intellectually **INCAPABLE** of self-government, because most are just too stupid, too childish, too ignorant, and too dishonest to govern intelligently. If black jury nullification, immunity for black "flash-mobs," or the re-election of Fani Willis as Fulton County DA don't convince you, the abandonment of mostly-black areas by retailers should, which have created "**retail deserts**" in those areas. Blacks have presided over the rapid and irreversible disintegration of most large cities, and every white person with a brain is working to get as far away from their disasters as possible.

**Bottom-of-the-Barrel:** Washington, Chicago, San Francisco, New York

Ironically, it is actually whites who have had their right to vote stolen by pervasive black voter fraud in large, urban areas dominated by blacks. Yet, they can still "vote with their feet" and get out. The post-war **exodus of whites** from our largest cities has been characterized by one

demographer as (paraphrase) "*the greatest human mass migration in world history.*"

Segregationists have a very poor reputation among younger generations of *virtue-signaling whites*, who have experienced only minimal contact with *Africanus criminalis*. The indoctrination experienced during their ludicrous "*educations*" has also rendered them incapable of critical thinking or even recognizing that crime, vote fraud, illiteracy the inability to govern, and a cavalier attitude about repaying debts are primarily a "*black thing.*"

However, to those still capable of recognizing the truth -- and who are willing to tell it in unvarnished terms -- those segregationists seem like *visionaries* in retrospect. They possessed a uniquely superior understanding of racial differences, well beyond even those of professional anthropologists and psychometricians in this day and age.
