

## WHUFFO ? (October, 2024)

**Let me get this right:** The Bolshevik Jews, n\*ggers, queers and communists in the "*Democrat*" Party -- who vowed for five years that Joe Biden was "*as sharp as ever*" and could "*see around corners*" -- forced him to resign from his presidential reelection campaign because of his deteriorated mental condition ?

***The Ides of July, 2024***

Donald Trump took a bullet in his efforts to preserve **democracy**, while Joe Biden took bribes from China, Russia, Ukraine, Romania, and Kazakhstan to preserve his **graftocracy**.

**STOP THE PRESSES!** Alan Dershowitz now recognizes what everyone in the conservative and white nationalist movements have known with certainty for 50 years: First, that the enemies of Israel are equally hostile to America; And two, that the so-called "*Democrat*" Party is now the ***NEW Communist Party of the USA***, reinvented.

**BRILLIANT IDEA!** On *Fox News*, I just watched the **Cajun Navy** delivering insulin by mule to diabetic victims of *Hurricane Helene* in some remote and mountainous regions of western North Carolina. Unlike FEMA, the **Cajun Navy** was *on-the-ground* and rescuing people -- and recovering drowning victims -- immediately after *Helene* hit that state. Clearly, the next Congress should chloroform FEMA, and contract-out disaster relief to the **Cajun Navy**.

**Yet, Another Reason to Vote MAGA:** New York sleaze ball lawyer and convicted perjurer Michael Cohen has vowed that he will leave America if Trump is elected president. If that doesn't create an additional incentive to vote for Trump, I don't know what does...

**THREE-Tiered Justice?** While the Biden Administration's *IN-Justice Department* was trying desperately to imprison and destroy its innocent political opposition, at the same time it allowed the masterminds of the 9-11 disaster to plea bargain down their cases to avoid execution. (*Is this a great country, or what?*)

***That's Called Chutzpah!*** Disgraced former New York Governor Andrew Cuomo is planning to run for Mayor of New York. According to Greg Gutfeld at **Fox**, he is aggressively pursuing the "youth" vote because he's already killed-off the elderly vote as governor, by moving COVID patients to retirement homes and turning the latter into temporary morgues.

***Fulton County Jail*** in Georgia is under the authority of Fani Willis, its *County District Attorney* who brought false charges against Trump. The jail's conditions are almost as deplorable as the murderers, baboons, savages and street-apes incarcerated within it. It is a glowing testimonial to what government institutions look like when blacks run the show...

The supporters of *Cacklin' Kommie* Harris want do to America what they've already done to DC, Atlanta, New York, Detroit, East St. Louis, Chicago, Minneapolis, Jackson, Philadelphia, San Francisco, etc., etc., etc...

***"Fat, black, corrupt and stupid is no way to go through life."***
