

Random Thoughts on the Election

by Earl P. Holt III

America came of age on November 5th by finally recognizing the Jews' Media as a totally corrupt, dishonest and integral part of "*the swamp.*" Deservedly, it has now lost most of its credibility for at least another generation. Much of the credit for this is attributable to the rise of *alternative news sources*, which prevent the Jews' Media from drowning out honest reportage that doesn't consist of fraudulent narratives filled with lies that benefit America's domestic enemies.

Liars & Purveyors of "*Fake News*"

It's poetic justice that the political party which worships at the altar of DEI and "*identity politics*" was finally hoist on its own petard. Kamala Harris is a lazy, venomous, and empty-headed dolt, but because she's a *woman* and "*person-of-color,*" she's been promoted by the "*Democrat*" Party at nearly every turn, and handed ever greater power each time. "*Democrats*" may not be able to define what a "*woman*" is, but they paid a price for using gender as her primary qualification for high office. (It couldn't happen to a more deserving bunch...)

We desperately need **uniform voting standards**, such as one or two-day voting, a photo I.D. requirement, and the guts to charge those committing voter fraud with the penalties prescribed in the **1965 Voting Rights Act**. Every state in which Kommie Harris won a majority of votes was a state that did **NOT** require a photo I.D. Moreover, in nearly every *swing-state* where final returns dragged on after election day, significant Republican leads evaporated, suggesting more skullduggery.

The election also illustrates how successfully the GOP performs when its leadership isn't chosen by dilettantes in its *"donor class."* I'm specifically referring to traitors such as **Mitch McConnell** and **Paul Ryan**. Donald Trump is now the undisputed leader of the party, so for the first time in decades, the *Republican National Committee* (RNC) was chaired by people with real ability. And, for the first time in 50 years, the RNC proactively combatted voter fraud rather than passively turn a blind eye to it, as the last two incompetent chairpersons of the RNC did.

The campaign of Kommie Harris raised and spent \$1.6 Billion, but despite this staggering amount, it's now \$20 Million in debt. Does it surprise anyone that an administration and political party that added \$10 Trillion to our **National Debt** in four years showed the same level of irresponsibility and incompetence with its own campaign financing?

"Democrats" are now engaged in a **circular firing squad** by blaming each other for losing the White House and Senate. Moreover, those who earlier blamed Donald Trump for their own inflation -- and the immigration invasion they created -- also blame their losses on the racism, misogyny, stupidity, xenophobia, and "*disinformation*" of Trump voters. They blame everything but their party's twisted priorities and Marxist ideology. Their finger-pointing proves that none are really adults, and each is simply doing what children always do by blaming anyone else for their own failings.

"Democrat" Circular Firing Squad

Finally, the "*Democrat*" goal of subverting and weakening America has been thwarted by the 2024 elections, but **only temporarily**. Before the 2026 mid-term elections, they will have adopted a more moderate image to camouflage their Marxism and hatred of America. They'll soon return to their 100 year-old goal of subverting America in order to deliver it into the international socialist orbit. This will consist of a phony "*makeover*," much like Bill Clinton managed to achieve in the 1990s with his membership in the laughably named *Democrat Leadership Council*.
