

## Hope for 2025 ?

On the cable channel *Malicious Spooks of the Nigro Broadcasting Corporation* (MS-NBC,) Joy Reid warned her tiny audience of morons that Trump intends to deport **ALL** brown people once he is sworn-in as president. **(IF ONLY IT WERE TRUE!)** (As miniscule as her audience is, very few will have received her "heads-up," so they should all be fairly easy to deport if she's correct.)

Of course, Trump would never do such a thing because it would devastate the U.S. economy by creating enormous numbers of unemployed Americans who are not "*brown-skinned.*"

There would be a diminished need for law enforcement, especially in our large, "*urban*" areas where the vast majority of all crimes occur. Likewise, the *National Basketball Association* would disappear faster than fried chicken at a "*stoned, soul picnic.*"

Industries such as pawn-shops, package liquor stores, “*pay-day loan companies*,” *wing-joints*, and drug-dealers would also take a financial hit. Likewise most employees in our federal, state and county prison systems would soon find themselves obsolete and unemployed.

**On the other hand, there would be an IMMEDIATE improvement in the caliber of governance in our large, urban areas such as DC, Chicago, Atlanta, New Orleans, St. Louis, Detroit, Cleveland, Milwaukee, Minneapolis, New York, etc., etc., etc.**

**Can anyone send me additional information on this program? If Joy Reid is correct, I would like to contribute in any manner I can...**
