

The Wages of Miscegenation

by Earl P. Holt III

The Jews' Media exhibit a vicious hatred for anyone who dares to report the true extent of black-on-white murder. Like most black-on-white violent crimes, these incidents are routinely “*spiked*” by the Jews' Media since interracial murders only serve their propaganda purposes when the victim is black and the perpetrator is white.

Their preferred narrative is one in which innocent black victims are constantly under siege by violent white assailants, and those who disprove this false narrative become their targets. The latter are then accused of spreading what the ***Southern Prevarication Lie Center*** (SPLC,) calls “*a false narrative of a victimized white majority under siege by allegedly violent people of color in the United States.*”

Because of their systemic dishonesty, the Jews' Media are accessories in a majority of the murders of white women by black males. By censoring the very real dangers inherent in white women marrying or dating black males, it has obscured the ability of white women to assess the risks inherent in such a relationship. That's why so many end up dead.

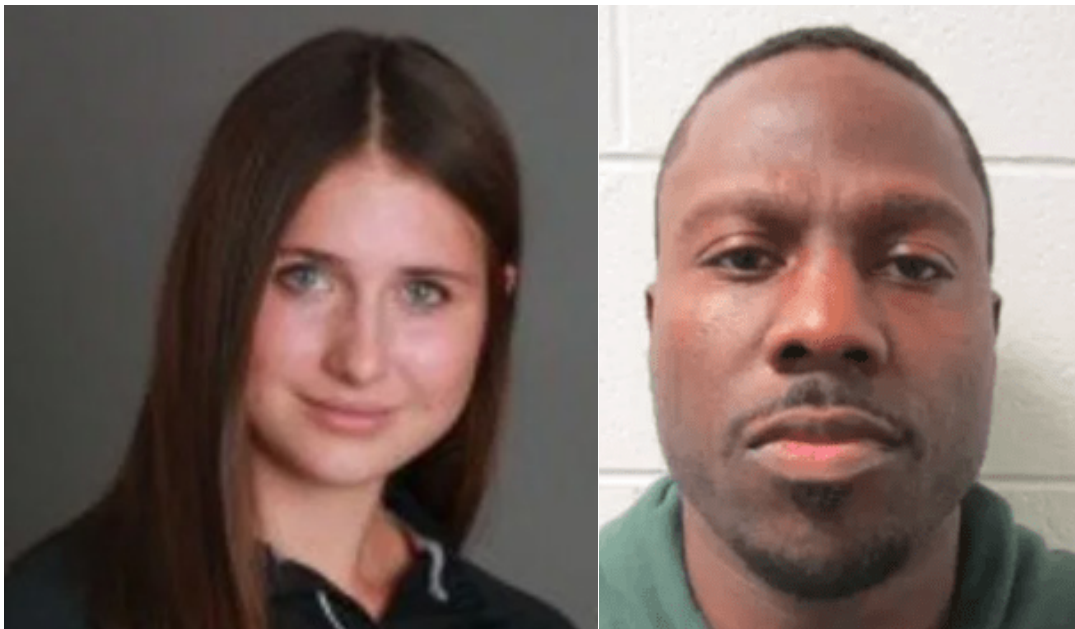

Most white women have never been exposed to this particular truth: white women who marry black males are more than 12 times as likely to be murdered by their spouses as white women who marry white men. The risk is nearly comparable for white women who merely date black males. (AMERICAN JOURNAL OF PUBLIC HEALTH, May of 1989, Page 596, Table #3.)

Below is a small sampling of the seemingly endless black murders of white women that give *Africanus criminalis* its well deserved reputation, one that is carefully and studiously censored or “*spiked*” by the Jews'

Media. These would never have come to light were it not for an infinitely more honest "*alternative*" news media that includes the **CITIZENS INFORMER**, **American Renaissance**, and **The Unz Review**.

Lauren McCluskey: In October of 2018, a predatory black animal murdered a beautiful but naive white girl named Lauren McCluskey, who was a Senior track star at the **University of Utah**. Her murderer was a black baboon named Melvin Rowland, whom she dated until discovering Rowland was a registered sex offender.

Like most members of the species *Africanus criminalis*, Rowland lied to McCluskey about his name, his age his criminal history and no doubt, his lack of employment and sources of income. In fact, it's safe to assume the only thing he didn't lie to her about was his race. The one redeeming element in this tragedy is that when police closed in on him, the black bastard killed himself with the same weapon he used to murder Lauren McCluskey.

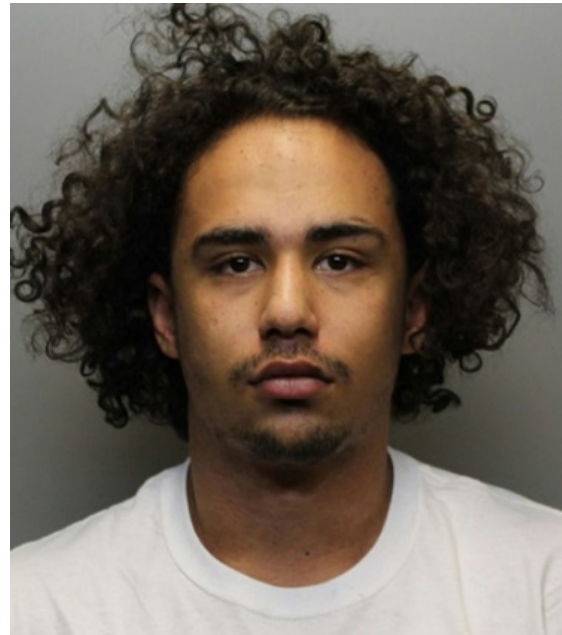

Lauren McCluskey & Murderous Ape

Amanda Petrowski: Was a 32 year-old white woman who was savagely murdered in Memphis by a former nigroid boyfriend in October of 2020. She was repeatedly beaten about the head with a rock or brick, and then driven over multiple times by a vehicle operated by this same rat-ape who sired two litters by her.

Her murderer had stalked her for three years, and had been arrested numerous times for stalking and assault against her. **She was much too late in learning the essential life lesson that white women who divorce or dump a n*gger will pay with their lives for doing so.**

Danielle Hopton: This lovely 18 year-old white girl was beaten to death in February of 2021 by her former nigroid boyfriend in Fort Collins, Colorado. She was a kind but naive young woman who did volunteer work with the *Humane Society* and helped her father train guide dogs for the blind. However, she was unable to train the savage and predatory instincts of the n*gger who murdered her.

Danielle Hopton & Rat-N*gger

Jennifer Schlecht: This 42 year-old Jewish woman, feminist, and social worker was murdered by her baboon husband in November of 2019 in their Harlem home. After Schlecht served him with divorce papers, the black bastard -- an immigrant from Ethiopia -- first slit the throat of their five year-old daughter in front of Schlecht, and then decapitated Schlecht. (***Ironically, "Schlecht" is Yiddish for "poor judgement."***)

This foolish woman learned much too late about n*ggers to save her own life or that of her daughter, but there was one redeeming element to this sad incident: after murdering his wife and daughter, the rat-monkey had the decency to commit suicide by hanging his black ass.

The Happy Couple

Marjorie Tate: This popular 52 year-old white woman and nurse was shot to death by her live-in nigroid boyfriend in her McKinney, Texas home in November of 2020. Afterward, the n*gger killed himself, which

saved the State of Texas a lot of money that might otherwise have been spent on his murder trial and the pharmaceuticals needed for his lethal injection.

Rebecca Landrith: This beautiful 47 year-old white woman and former New York fashion model was murdered by a vicious rat-n*gger and her bullet-riddled body was dumped alongside a Pennsylvania interstate in February of 2021. Tellingly, she has been described as "*an advocate for social justice.*"

A 28 year-old predatory n*gger truck-driver has been arrested for her murder. This lovely woman may have been a victim of "*jungle fever,*" an often fatal condition that afflicts hopelessly naive and gullible white females who demonstrate abysmally poor judgement in sexual partners.

Rebecca Landrith & Predatory Rat-N*gger

Savannah Rae Theberge: This 26 year-old white woman and an unidentified female teen were murdered in January of 2021 by her n*gger *fiancé* in Vacaville, California. The victim and her killer had been

in a previous relationship, one that her mother described as a "*bad experience*," but the two recently became engaged, anyway. (*From ambiguous and poorly-written news accounts, it sounds as if the victim and her murderer were both heavily involved in illegal drugs.*)

As retarded and narcissistic n*ggers often do, the baboon "*live-streamed*" a video of himself, his murder weapon and his two murder victims on the cesspool known as ***Instagram***, which led to the identification of his victims and his own eventual identification as the murderer of both. (Thank GOD he's a moron!)

Savannah Rae Theberge & Her N*gger Murderer

For decades, visionary whites who advocated "*racial distancing*" and opposed forced integration were vilified by the Jews' Media, leftist politicians, activist federal judges and sanctimonious leftists in The Hamptons, Hollywood Hills, West Palm Beach and Georgetown. These whites have been portrayed as backwards and "*under-evolved*" for their

well-deserved skepticism over forced racial integration by federal and state governments.

Yet, whites who opposed forced integration were infinitely more familiar with the behavior of *Africanus criminalis* than any of their critics. During the course of their lives, few of the latter had any realistic contact with the violent, savage, witless and predatory nature of lower-class blacks. Race realists aren't born with their attitudes, we learned them from extensive personal experience.

One thing decent and concerned Americans might do is publicize the contents of this article. Or, if you know white women in a relationship with a n*gger, print this article and send it to them anonymously. They may react angrily at first, but it could very well save their lives in the long-run.
