

My Favorite Neuroses

(From "*The Sound of Music*")

Senator Warren alleges she's "*Native*"
She's just a race-traitor, caught being creative
Pocahontas is no more an *Injun* than I
But one thing neurotics can do well is lie

Psychotic delusions about Donald Trump
Make his critics sound stupider than Forrest Gump
Jews supporting Hamas which vilifies Jews
Are too witless to see they've got some loose screws

The *N-double-A-C-P* can't be too bright!
Its members in Spokane were led by a white
Creating a most embarrassing plight
While proving *The Bell Curve* has always been right

Those "*transgendered*" perverts who lop off their *junk*
Develop remorse when it's not a *slam-dunk*
Satanists, commies, illegals and queers
Are a septic mix of the Framers' worst fears

Ignorant, dizzy and Bolshevik children
Assume that wisdom is some kind of given
But there's one thing that unites the above
Their *shrinks* are all waiting at [HealthCare.gov](https://www.healthcare.gov)...
