

Strange Bedfellows

By Earl Holt III

When the Berlin Wall fell in November of 1989, America's domestic enemies lost their greatest ally. Marxists of all stripes had expected the Soviet Bloc to provide the *muscle* and revolutionary discipline needed to conquer America and impose Marxism upon a vanquished America and the West. Yet, after 1990 and much to the dismay of these traitors, the Soviets no longer had the *muscle* to effectuate that dream.

Looking around in the wake of the Soviet Union's collapse, it was not difficult to recognize that radical Islamic terrorists offered a potential substitute. Much like the Soviets, radical Islam is hardly squeamish about violence: in fact, with the exception of crude oil, violence and terrorism are just about the only things that Iran and other radical Islamic states are capable of exporting.

Furthermore, Islam has traditionally displayed a particular enthusiasm for the violent slaughter of Western "*infidels*," as evidenced by decades of terrorism perpetrated against innocent and unsuspecting civilians in America, Europe and Israel. Indeed, most feverish adherents to the Islamic faith -- at least its *Shiite* version -- are probably best described as "*Islamic Marxists*," making this new and blossoming alliance an easier fit than one might have presupposed.

Oddly, America's Leftist Jews, who control and fund the misnamed "*Democrat*" Party -- like George Soros and many others -- appear to be fully *on-board* with this new alliance, despite the Jews' age-old blood feud with the Arab Tribes. Their newfound willingness to enter into an alliance with their traditional enemies probably boils down to the fact that their commitment to international socialism -- and the eradication of democratic-capitalism -- trumps even their *millennia*-old hatred for Arabs and Islam.

This was apparent in 2025, when Jewish students at several once-prestigious universities joined pro-Hamas demonstrators to protest Israel's retaliation against Hamas, which was revenge for the latter's unprovoked invasion and slaughter of 1,200 Israeli civilians in October of 2023. Their rationale for aligning with pro-Hamas terrorists has been couched in terms of *"upholding Jewish notions of social justice."* A better explanation is that many are former *"red-diaper babies,"* described by David Horowitz in *Radical Son*, whose families began their Marxist indoctrination as infants. Horowitz claims America's Bolshevik Jews even have summer camps for kids where Marxism is the curriculum.

Another historical event illustrating this trend was the 80% support Barack Hussein Obama received from American Jews in his 2012 re-election victory. Obama's support among Marxist Jews was also hinted at by the extensive number of truly committed leftist Jews who served in his administration. Most appear to have abandoned the God of Abraham and Isaac for their new *gods* of Marx, Lenin, and Sol Alinsky.

Rahm Emanuel (*Chief of Staff*,) David Axelrod (*Senior Advisor*,) Elena Kagan (*Solicitor General*,) Jack Lew (*Treasury*,) Janet Yellin (*Federal Reserve*,) Sally Jewell (*Interior*,) and Penny Pritzker (*Commerce*,) are just a few prominent examples of leftist Jews willing to serve a Moslem and Marxist president. None appeared troubled by the fact that Barack Hussein Obama was on far friendlier terms with radical Islamic states like Iran than he was with America's traditional Middle-East ally, Israel.

As a result, the State of Israel has become the *odd-man-out* in this new relationship. The novel alliance of Islamic terrorists and Marxist Jews suggests the latter are even willing to sacrifice Israel's security and existence for their higher and more immediate priority of subverting America and the West. Both sides in this *unholy alliance* correctly recognized that with an Islamic Marxist like Obama in the White House, a window of opportunity existed as never before to destroy America, and implement their 100 year-old dream of a worldwide international socialist system run by Marxist Jews like themselves.

Obama Bowing to Iranian Mullah & Saudis

Barack Hussein Obama's tenure in office afforded Marxists of all stripes endless opportunities to subvert not only the economy of the United States -- the "*engines of democracy*" -- but also granted them unlimited opportunity to subvert our national security, which they engaged in with relish. The conspirators in this unholy alliance recognized early-on that if America were to fall, there were no other serious obstacles preventing their ultimate quest, the subjugation of the West.

Thus, all other agendas of the Left appear to have been sacrificed in order to seize this unique *window-of-opportunity* to bring America to its knees. Indeed, in Obama, they had a champion who was actually committed to "*transitioning*" America — not merely content to give lip service to the exercise — and they were never so close to their ultimate objective as they were by the end of Obama's second term. That's why, beginning in 2015 and continuing to this day, the left has directed so many venomous attacks at Donald Trump, who promised an "*America First*" agenda.

That Marxists in this country are sincerely committed to conspiring with Islam to help destroy America was evident in the extent to which the Obama administration accommodated Islamic terrorists, while also defending their violent and terrorist acts:

- * Upon assuming office, Obama vowed to **close Guantanamo** and give full Constitutional protection and criminal trials in federal court to Islamic terrorists of Al Qaeda and the Taliban;

- * Obama's 2015 "**Treaty**" with **Iran** released \$150 Billion in frozen Iranian oil revenues from the "*Swift System*," and even added a *gratuity* of \$2 Billion in U.S. \$100 dollar bills to fund Iran's terrorist activities;

- * Obama's **Iran Treaty** also gave Iran a "**green light**" to produce a nuclear weapon, which speaks volumes about the "*Democrat*" Party's shift in loyalty toward Iran and away from America and Israel;

- * Another subversive act by Obama was to convert NASA's traditional space mission into some kind of **"Islamic Outreach"** function. This may have been used to disguise the transfer of missile technology to radical Islamic terrorist states such as Iran;
- * Obama minimized Islamic terrorism with absurd euphemisms like **"workplace violence,"** which he used to describe Major Nidal Hassan's 2009 murder of 13 fellow servicemen at Fort Hood, Texas;
- * In a program called **"Global Entry,"** Obama quietly rewarded Saudi Arabia -- where most 9/11 hijackers originated -- with special travel privileges that allowed its citizens to bypass normal security measures at major U.S. airports;
- * Obama's 2014 **prisoner exchange** involved the release of five of the most dangerous and savage Taliban and Al Qaeda terrorists held in Guantanamo, in return for **ONE** American deserter held by the Taliban.

The Obama Administration's subversive efforts were not a result of the incompetence usually found within "Democrat" Administrations. America was intentionally subverted by treasonous and Marxist elements in the Obama Administration and the "Democrat" Party, whose intent was to permanently cripple America. The only novel aspect of their treachery has been the alliance with Islamic terrorist states and their proxies while pursuing this goal. Many of these traitors were soon hired by the Biden Administration and given free rein to continue their treason.

After abandoning all but the pretense of securing our southern border, the Biden regime admitted over 530,000 unvetted foreign nationals into the U.S. on commercial flights. Those unvetted immigrants were quickly whisked away by Biden's **Homeland Security** to unknown destinations in

the U.S., so they could never be properly vetted by state or municipal authorities. Many thousands are terrorists, who now lie dormant in sleeper cells, waiting for a signal to engage in terrorist acts of large or small magnitude.

Naturally, Biden attempted to revive Obama's *Iran Treaty*. He unilaterally reversed the Trump Administration's economic sanctions by releasing more than \$100 Billion in frozen Iranian oil revenues from the "*Swift System*." This is how Iran recently funded the terrorist activities of Hamas, Hezbollah and the Houthi rebels, who menace shipping in the Gulf. It also means that Biden funded the Hamas invasion of Israel in October of 2023, where Hamas brutally murdered 1,200 innocent civilians. Not surprisingly, Biden's chief negotiator with Iran proved to be an Iranian sympathizer and mole!

Following the bloody invasion and massacre of 1,200 Israelis by Hamas in October of 2023, Israel retaliated by flattening the Gaza Strip. Afterwards, the Biden Regime got cold feet and embargoed any additional munitions to Israel. The embargoed ammo included 2,000-pound "*bunker-buster*" bombs, as well as surface-to-air missiles for Israel's *Iron Dome* missile defense system. (It won't be diplomacy that ends Iran's nuclear weapons program, it will be bunker-buster bombs.)

Clearly, the misnamed "*Democrat*" Party and its constituents have discovered a new role for Islam and its adherents, but it's not based on their quasi-religious sacrament of "*multi-culturalism*." Even many Jewish "*Democrats*" see Islamic terrorism as a substitute for the socialist emancipation that the Soviet Bloc was expected to provide. They have facilitated a mass invasion by Islamists into the U.S., and then ignored their crimes, terrorism, and their lack of assimilation.
