

The Children's Hour

by Earl P. Holt III

The misnamed "*Democrat*" Party is now experiencing a lot of inner turmoil, and one of its more interesting schisms involves the ambitions of a growing "*youth movement*." It appears that certain younger "*Democrats*" are determined to retire the dinosaurs who have led the party for decades. Those dinosaurs aren't giving up without a fight, however. This is great news for those of us who are no longer blind to the aims of so-called "*Democrats*."

David Hogg is an enterprising young man who immediately capitalized on the tragic mass shooting at his Parkland High School in 2018 by parlaying that tragedy into ***Never Again***, a tax-exempt and anti-gun group. Recently, he became one of five Vice Chairmen of the misnamed "***Democrat National Committee***," where he quickly vowed to use some of ***Never Again's*** \$20 Million to "*primary-challenge*" dinosaurs in his party. Many of these young Bolsheviks consider the party's dinosaurs to have betrayed their Marxist revolution. Hogg's brash announcement did not set well with the dinosaurs.

DEMOCRAT DINOSAURS

Clyburn (84,) DeLauro (82,) Norton (87,) Waters (86,) & Sanders (83)

Meanwhile, AOC (Marxist-Puerto Rico) is another outspoken young "Democrat," who's been flying around the country in private jets with *Crazy Bernie* Sanders peddling their Marxist *Kool-Aid* to idiots. Sanders has clearly designated AOC as his heir-apparent in the **Congressional Communist Caucus**. Like many in their party, AOC is angry at Senator Chuck Schumer (Menshevik-NY) for the only statesmanlike vote he's made in decades, one that avoided a government shutdown in 2025. AOC has every intention of challenging Schumer in New York's 2028 "Democrat" Senate Primary, and may very well defeat him if he runs.

The Congressional "**Commie Caucus**"

Observing this newest generation of Marxists work to displace "Democrat" Party dinosaurs — who have misgoverned the nation for decades -- is a lovely example of "**poetic justice.**" The very people who routinely lied to America, illegally feathered their own nests, spent like imbeciles, subverted our national security, and turned a blind eye to their own corruption, are finally getting a well-deserved dose of fratricide. **What makes it even more delicious is that these young disrupters like Hogg and AOC are even more more incompetent, more ignorant, more clueless, and more traitorous than those dinosaurs.**

Over the past four years, the vicious, corrupt and incompetent people who control the "*Democrat*" Party were no longer able to hide the party's contempt for America and its founding principles. For 30 years, they've quietly worked to subvert our way of life and our Constitution, and labored to *transition* America into a socialist state subservient to a "*New World Order*." They have relentlessly pursued power by censoring their opposition, weaponizing federal law enforcement, establishing a two-tiered system of justice, while illegally funding their party's political activities with *our* tax money.

Their blind pursuit of power has left the party completely and utterly disconnected from the needs and wishes of normal Americans. Most elected officials in the "*Democrat*" Party reside in an echo chamber where, for 50 years, they've been shielded by their allies in the fake news industry from ever having to defend their own traitorous and delusional policies. This has left them incapable of understanding why Americans don't want illegal aliens voting, males competing against girls in sports, "*gender therapy*" for grade school kids, insane spending levels, or biological males in girls' restrooms and locker rooms.

Even their comrades in the fake news media sometimes concede *on-air* that the "*Democrat*" Party -- to which they all belong -- has no message, no leadership, and no political agenda beyond acquiring power. Instead, all they do is attack and vilify President Trump, but that's not a message or a political agenda, nor evidence of the capacity to govern. This opinion is even heard from their comrades on the ***Communist News Network*** (CNN) and the ***Marxist Stooges of the Nigro Broadcasting Corporation*** (MS-NBC.)

Revolutions that are not constrained by Rule of Law inevitably turn on themselves. They provide an opportunity for the most vicious and ruthless individuals to rise to power, much as Joe Biden, Nancy Pelosi and Hillary Clinton have demonstrated. All three were adept at achieving power, and now have no intention of riding off into the sunset. This will become an ugly battle, similar to the one between Mensheviks and Bolsheviks in the early years of the USSR.

It couldn't happen to a more deserving bunch.
