

Black Skin Privilege

by Earl P. Holt III

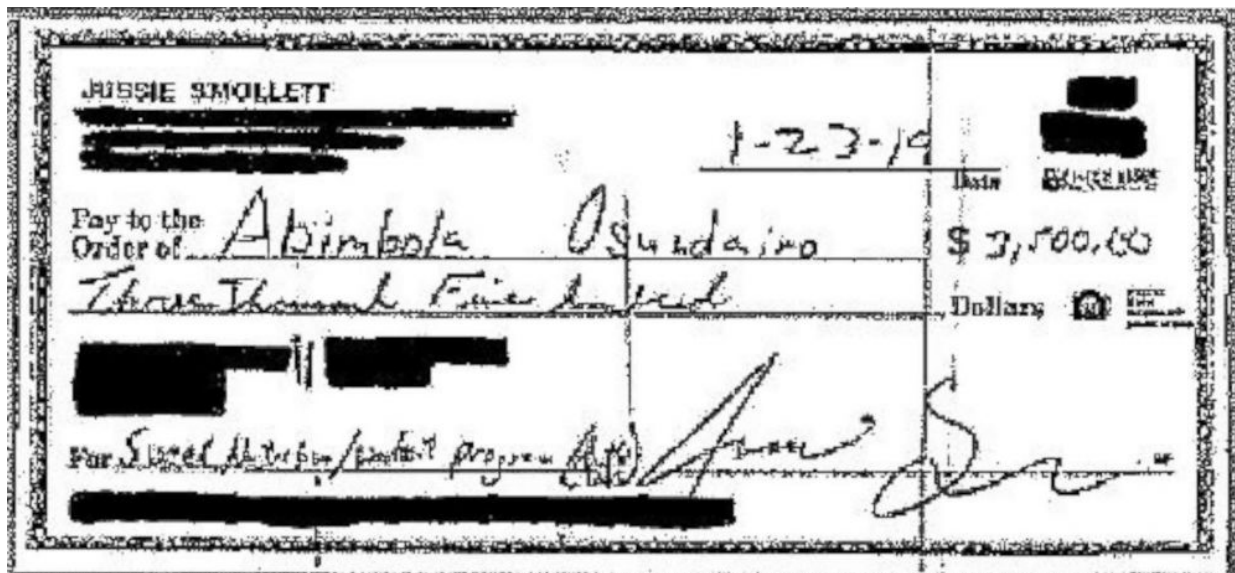

After six years of delays and corrupt decision-making at every step by Illinois' Cook County "*justice*" system, the charges against Jussie Smollett have finally been adjudicated for his fake hate crime. His only punishment will be a \$50,000 fine remaining from his civil case, an amount which he will supposedly donate to some charity, probably Jesse Jackson's **Operation Push**. Smollett's case proves that Chicago's n*gger officials have so thoroughly corrupted Cook County and the State of Illinois that we should give it to Canada free of charge.

On January 29th of 2019, this black queer staged a phony hate crime in which he was supposedly beaten and left with a noose hanging around his neck. Curiously, he only removed the noose after news cameras quit recording. He told police he was beaten by white Trump supporters wearing **MAGA Hats**. The fake news media were too stupid to ask why Trump supporters would be out on a Tuesday night at 2 a.m. -- in single-digit temperatures -- or why they were carrying a bottle of bleach and a rope with them. Fortunately, the Chicago PD was much smarter.

Smollett was initially considered a victim, but the Chicago PD and everyone with a brain recognized his story was absurd. After thousands of man-hours spent investigating this hoax, police **"shifted the trajectory of the investigation."** That's a fancy way of saying that they started looking at Smollett as the *perpetrator* of a fake hate crime, rather than its *victim*. His motive was abundantly clear: he was attempting to garner attention and sympathy to salvage his flagging acting career.

Eventually, Smollett's accomplices -- two N*ggerian thugs -- were identified, who very quickly turned state's evidence. Also recovered was Smollett's \$3,500 personal check to the N*ggerians for their participation and the purchase of the rope used to fashion his noose.

After being charged with disorderly conduct by a George Soros-funded n*ggress DA in Cook County, the charges were quietly dropped two months later after Smollett accepted a generous plea deal. The City of Chicago then sued Smollett civilly to recover the cost of the thousands of man-hours spent by police investigating the incident.

A year later in February of 2020, he was re-indicted on six counts of making a false report to police, and then convicted on five of those counts in December of 2021. He was sentenced to 150 days in jail and ordered to make restitution. Miraculously, in November of 2024, his convictions were overturned by the ***Illinois Supreme Court*** on 5th Amendment grounds in a decision that was as ludicrous as Smollett's original hate crime hoax.

Here's a worthwhile principle that would have been useful in this case: in the film *Dirty Harry*, when Inspector *Harry Callahan* was wrongly accused of the self-inflicted injuries that the serial-killer "*Scorpio*" used to frame him, *Harry* remarked that anyone could tell that *HE* didn't do it. When San Francisco's Police Chief asked him why, *Harry* replied "*Because he looks too damned good.*"

As outrageous as Smollett's fake hate crime was, equally outrageous were the corrupt and arbitrary actions of the *injustice* system prevailing in Cook County, as well as the state's thoroughly politicized and corrupt

Illinois Supreme Court. They all had a hand in Smollett's miraculous ability to skirt justice because the under-evolved *Frontal Lobes* of blacks render them primitive and "tribal." That condition prevents them from perceiving events as normal and honest humans would do.

This was entirely predictable. As I wrote in February of 2019, two weeks after the incident: *"Unfortunately, the City of Chicago is so corrupt, Smollett will not pay a significant price for his fraudulent allegations, false police report and criminal conspiracy. If Jussie Smollett is ever indicted, which I doubt, I predict he will receive a mere slap on his limp wrist for his misdeeds, such as probation or a small fine."*

Despite the massive evidence against him, as any self-respecting n*gger would do, Smollett continues to disavow staging his own hate crime to this very day. That's hardly news: after living among blacks and doing business with them for 30 years, my life experiences earned me a Ph.D. in Nigrology, which affords me unique insights into the true nature and behavior of *Africanus Ciminalis*. In fact, I know them better than most know themselves.

Two of the lessons I learned are that most blacks are pathological liars by almost any white standard, and few should ever be entrusted with positions of responsibility, especially public office. The effect is enhanced when a black liar is also queer. The second lesson is that most blacks possess a "tribal" mentality, a trait that precludes Rule of Law, morality, reason or civic virtue. The only exceptions I've found are black conservatives or black Republicans.

This is what the future holds in store for decent white people who allow themselves to be governed by these black bastards. This case exposes the universal corruption and incompetence that exists wherever blacks are in charge. It didn't begin with O.J. Simpson, and it didn't end with Fanny Willis and Letitia James.
