

## CofCC's "*Russia Collusion*" Reportage

by Earl P. Holt III

Tulsi Gabbard -- Donald Trump's *Director of National Intelligence* -- has begun to release all the files involving "*Russia collusion*" that her predecessors in Obama's *intelligence community* tried desperately to hide from their successors. What these documents reveal is that every word uttered by the Jews' Media -- and every utterance made under oath by "*Democrat*" officials concerning this issue -- **WERE TOTAL LIES**. Like a John Carre' novel, everyone who was part of the conspiracy was celebrated, while those who told the truth were denounced, persecuted, and sometimes falsely arrested.

Like most "*alternative news*" sources, the CofCC's coverage of the phony "*Russia collusion*" frame-up of Donald Trump was **INFINITELY** more honest and accurate than that of **ANY** organ among the Jews' Media or *fake news* media across America. In fact, the Jews' Media were co-conspirators in the treasonous coup waged against Donald Trump, that was orchestrated by Barack Obama, his *CIA Director*, his *Director of National Intelligence*, and his *FBI Director*. Naturally, the Jews' Media's lies were rewarded with **Pulitzers** from equally treasonous and corrupt enemies of America, while honest and accurate reportage was ridiculed as a "*conspiracy theory*."

The following are excerpts taken directly from articles that appeared on this website between 2016 and 2020. I found no conclusion that we published which turned out to be inaccurate or needed to be modified or retracted. The credit does **NOT** belong to me, however: it belongs to a dozen **REAL** journalists, whose courageous and dogged reportage became my sources. These include Sarah Carter, Katherine Herridge, Sean Hannity, the late and lamented Lou Dobbs, Laura Ingraham, and Tucker Carlson, each of whom was at **Fox News** at the time.

Carter, Herridge, Hannity, Dobbs, Ingraham & Carlson

Equally deserving of recognition are Kimberly Strassel of the ***WALL STREET JOURNAL***, John Solomon -- formerly at ***The Hill*** -- and Tom Fitton and Chris Farrell at ***Judicial Watch***. In 2019, Lee Smith's book, ***The Plot Against the President***, summed up his own reportage and that of others.

Every journalist mentioned above, both reporters and opinion journalists, helped to untie the ***Gordian Knot*** created by Obama's ***Operation Crossfire/Hurricane***. It is ***THEY*** who should receive those ***Pulitzer Prizes*** which liars and frauds from the ***WASHINGTON POST*** and ***NEW YORK TIMES*** were wrongly and cynically handed. The ***Presidential Medal of Freedom*** would be a nice tribute, as well, especially coming from the man they defended at considerable risk to their careers.

Credit should also go to Rush Limbaugh: it was *Rush* who first predicted in early January or February of 2018 that the four FISA Warrants used to persecute Trump and his advisors were "*predicated*" exclusively on Hillary Clinton's phony "*Steele Dossier*." Rush was like a pit bull with this story: I regret he didn't live to see his efforts come to fruition.

Intrepid Heroes Undeterred by Lies and Disinformation

## IT ALL BEGAN WITH HILLARY CLINTON:

**IN THE BEGINNING** was the "*Steele Dossier*," and it came from the fevered and psychopathic mind of Hillary Clinton. Fearing damage to her 2016 presidential campaign from the revelation that she possessed an illicit computer server -- on top of her destruction of subpoenaed e-mail evidence -- she desperately needed a diversion to injure her opponent, Donald Trump. So, she paid \$12 Million to a corrupt consulting firm named **Fusion GPS** to fabricate the bogus and defamatory *Steele Dossier*.

Its intention was to damage Trump's prospects of becoming president by falsely alleging he colluded with Russia to interfere with the 2016 election. Yet, the entire *Steele Dossier* was fraudulent, and its most salacious content -- that Donald Trump had paid Russian prostitutes to urinate on a bed in which Obama and his husband had once slept -- had its origins in an off-color joke told over drinks at a bar.

## TRUMP WAS SPIED ON FROM THE MOMENT HE ANNOUNCED HIS CANDIDACY FOR PRESIDENT:

When Candidate Donald Trump publicly declared in 2016 that his offices in **Trump Tower** were **bugged**, he was ridiculed by the Jews' Media as "*paranoid*" and laughed at by the NCPUSA's primary candidates. Since then, we have learned from filings by *Special Counsel* John Durham that not only was Donald Trump spied on as a candidate, but **he was spied on as President, as well**.

We now know from the **Durham Report** that Hillary Clinton's campaign paid computer experts at **Georgia Tech** and a firm called **Neustar** to "*hack*" into Trump's e-mail servers in **Trump Tower** while he was a candidate, and his White House e-mail server after he became president. Hillary's ludicrous accusations of Russia colluding by Trump were

considered sufficient grounds by Obama's CIA Director (John Brennan,) **Director of National Security** (James Clapper,) and FBI Director (Jim Comey) to begin an investigation of Trump for the fabricated charge of "colluding" with Russia to steal the 2016 election.

### Participants in "**Operation Crossfire/Hurricane**"

**Obama, Brennan, Clapper, Comey, & Hillary**

### **OBAMA WAS THE ARCHITECT OF ALL SUBSEQUENT EFFORTS TO DESTROY DONALD TRUMP:**

During the 2016 election, Hillary's accusation of Trump's "*Russian collusion*" was quickly seized upon by Barack Hussein Obama and his minions. Illustrating this fact were the infamous e-mails between the Chief of the *FBI's Counterespionage Section*, Peter Strzok, and his lover, FBI Attorney Lisa Page. One e-mail from Strzok to Page on August 5, 2016, stated that the "**White House is running this...**" This was an obvious reference to the role Obama played in orchestrating operation "**Crossfire/Hurricane,**" the attempted coup against candidate and President-elect Donald Trump by communists and traitors in the outgoing Obama Administration.

Another equally damning e-mail was dated September 2, 2016, and sent from Page to Strzok after she had just attended a secret White House

briefing. In it she states: “**...POTUS wants to know everything we are doing...**” (“POTUS” is an acronym for *President of the United States*.) These make it abundantly clear that Obama was coordinating the activities of his DNI, CIA and FBI to weaponize the federal government to destroy the candidacy of Donald Trump and prevent him from becoming president. It is ridiculous to assume that these individuals would dare to initiate such a treasonous criminal conspiracy on their own and without the approval of Obama.

***Lovers & Conspirators: Peter Strzok and Lisa Page***

### **THE JEWS' MEDIA WERE CO-CONSPIRATORS IN THE DEEP STATE'S ATTEMPTED COUP AGAINST TRUMP**

The moral and ideological heirs of Soviet agents once embedded in American journalism -- Walter Duranty, Herbert Matthews, and David Karr, among many others -- knowingly parroted allegations against Trump and his supporters that have since proved to be entirely fabricated by Hillary Clinton's 2016 campaign for president. Their role

was to create the illusion of "*confirming*" or "*verifying*" the contents of the phony and fabricated *Steele Dossier* by repeating its lies and making their "*reportage*" appear to be validations by *third-party* sources.

Jeffery Goldberg of ***THE ATLANTIC***, Michael Issikoff of ***YAHOO NEWS***, David Corn of ***MOTHER JONES***, Miriam Elder and Mark Schoofs of ***BUZZFEED***, and David Ignatius of the ***WASHINGTON POST*** obligingly collaborated in this treasonous conspiracy. The bagmen who handed them the *Steele Dossier* to publish were all well-known Hillary Clinton henchmen: one was a ***State Department*** subordinate of Clinton's named Jonathon Winer, and another was Clinton lawyer Michael Sussman of the infamous ***Perkins Coie*** law firm. Thus, the Jews' Media willingly participated in what turned out to be a treasonous criminal conspiracy to destroy a duly elected president.

### **THE "*STEELE DOSSIER*" WAS THE SOLE PREDICATE USED BY THE "*DEEP STATE*" TO SPY ON TRUMP:**

Several Obama holdovers were later exposed to have perjured themselves before the ***Foreign Intelligence Surveillance Court*** (FISA,) seeking warrants to spy on President Trump and his advisors to search for "*dirt*." Likewise, Obama's CIA Director (John Brennan) and DNI (James Clapper) clearly perjured themselves by stating under oath to Congress that the *Steele Dossier* was **NOT** used to obtain FISA Warrants.

We also know they traitorously conspired to effectuate a coup against Trump based on the *Steele Dossier's* lies, conceived and funded by Hillary Clinton. It took two years for President Trump to be thoroughly vindicated by the ***Mueller Report***, which was reluctantly written by many of the very same dirty cops who treasonously spied on him. Unfortunately, the stolen 2020 National Election delayed the prosecution of those involved.

## THE \$40 MILLION MUELLER INVESTIGATION WAS WAS A TOTAL SHAM:

Robert Mueller testified before the *House Judiciary* and *Intelligence Committees* on July 24, 2019, following publication of his “*Special Counsel’s Report.*” His purpose was to defend the results of his two-year, \$40 Million witch hunt investigating President Trump’s supposed role in “*colluding*” with Russia to steal the 2016 Presidential Election.

Under Oath and before these two House committees, Mueller denied having heard of *Fusion GPS*, the opposition research firm that actually fabricated the phony *Steele Dossier* for Hillary Clinton. This is staggering, since the *Steele Dossier* was the sole justification or “*predicate*” submitted as evidence to obtain **FOUR** FISA warrants to spy on Donald Trump, both before and after Trump was elected. This begs the twin questions, “*who controlled the flow of information to Mueller, and what the hell was he doing all that time?*”

During Mueller’s testimony, Rep. Steve Chabot (R-OH-01) innocently asked Mueller if he knew the name of the firm that compiled the *Steele Dossier*. In reply to Chabot, Mueller testified “*I’m not familiar with that.*” Later, in reply to questions about *Fusion GPS* and its owner, Glen Simpson, Mueller responded that such questions “*...are outside my purview.*”

Confused Looking Robert Mueller Testifying

For the *Special Counsel* never to have heard of *Fusion GPS* while investigating "*Russia collusion*" charges against Donald Trump, is the equivalent of the *Warren Commission* never having heard of Lee Harvey Oswald in its investigation of the Kennedy assassination.

### THE RUSSIANS ALWAYS PREFERRED HILLARY TO TRUMP:

The phony narrative that Putin preferred the election of Donald Trump to that of Hillary Clinton was Jews' Media disinformation. It never made any real-world sense because, as *Secretary of State*, Hillary Clinton sold 20% of our precious Uranium reserves to Russia in return for \$145 Million in bribe money contributed to her ***Clinton Family Crime Foundation*** by Soviet Oligarchs. The Russians discovered to their delight that Hillary was bribable and someone with whom they could "*do business*." The subpoenaed server and e-mails she destroyed might very well have exposed her sale of influence to Russia, and perhaps Classified Documents, as well.

### CONCLUSIONS:

If nothing else, there must be legal and civil accountability for all the traitorous scum who participated in America's first treasonous and unconstitutional coup, engaged in by corrupt politicians, dirty cops, and other varieties of communist filth aligned with the ***New Communist Party of the USA*** (NCPUSA,) mistakenly called the "*Democrat*" Party.

One irony from the persecution of Donald Trump is that his innocence has been repeatedly demonstrated each time a phony charge was levelled against him. His life has been more thoroughly investigated and scrutinized than that of any man in the last 2,000 years, -- indeed, his

investigation has been characterized as a "*public rectal exam*" -- yet no evidence of guilt has ever been established.

Meanwhile, it was Trump's very accusers who were often exposed to have engaged in criminal conduct, such as Hillary Clinton, Obama's CIA, DNI and FBI officials participating in *Crossfire-Hurricane*, and the two fat n\*gger DAs in Atlanta and Albany, New York, who were found to have committed **REAL** felonies. Each investigation by his accusers was a "**witch hunt**" that involved either **fabricated evidence** or **falsified testimony**, and every one of them violated Trump's civil rights.

**Efforts to undermine President Trump's credibility by swamp creatures, the Jews' Media and the NCPUSA have merely exposed them all to be corrupt and treasonous liars and traitors. Decent and intelligent Americans have learned to reject the phony "*reportage*" and allegations of the Jews' Media, especially those made against President Trump and other patriots. Like their spiritual father, the Devil, the minions of the Left are very old liars and have no regard for the truth.**

**But now, we have the proof...**
