

## Open Letter to NYC Residents

When an American city reaches the point where it must choose between a communist/Jihadist like **Zohran Mamdani**, or lying filth like **Andrew Cuomo** to be its mayor, it's too late to think about some kind of electoral strategy to save itself. It's time to think about getting the hell **OUT** !

If these two are your only realistic choices, it means that n\*ggers, Puerto Ricans, Islamists, Jewish communists, queers, welfare addicts, drug addicts, cretinous Gen-Zers, illegal aliens and criminals have reached such a concentration that there are no longer any optimistic prospects for New York City's (NYC) future. Both Donald Trump and Rush Limbaugh saw the writing on the wall, and got out decades ago.

**2 Smart New Yorkers Who Got Out in Time**

NYC will soon become ungovernable -- like Chicago, DC, San Francisco, Detroit, Newark, Philadelphia, Minneapolis, Seattle, Portland, Baltimore, and a dozen other cities in America. Each is misgoverned by the misnamed "*Democrat*" Party, and each is hell-bent on a damn long march to nowhere, courtesy of the incompetents they elected to office.

Only gangs, skyrocketing violent crime, squandered taxes, incredibly incompetent *"leadership,"* atrocious city services, embezzlement, voter fraud, and insolvency lie ahead. The election of Bill de Blasio, followed by Eric Adams and now Zohran Mamdani will seal NYC's fate for generations. NYC could weather the administration of one incompetent low-life, but three in succession will be its undoing.

Don't be left without a chair when the music stops. In California -- a state equally as screwed-up by *"Democrats"* as NYC -- there are long lines waiting to rent a **Budget**, **U-Haul**, **Ryder** or **Penske** moving truck because the demand outstrips the supply among those wishing to leave. (A couple of years ago, some clever individual bestowed on California Governor Gavin Newsome the *"U-Haul Salesman of the Year Award."*)

Right now, you can still get a very good price for your home or condo in NYC, but that market probably won't last beyond the November, 2025 mayoral election. Then, *Mamdani-the-commie* will attempt to impose

**FURTHER** rent controls, seize real estate from private owners, sponsor city-owned grocery stores, defund the police, and sponsor free buses, free child care, and free female genitalia for all mentally-deranged *transgenders*.

Mamdani will attempt to offer these freebies and more by raising taxes on everyone who has a greater income than he does, which -- based on his microscopic work history -- includes pretty much **EVERYONE** in NYC. After Mamdani's election, it's just a matter of time before NYC's large financial institutions and stock exchanges move to the more welcoming locations found in **red states** such as Florida, Tennessee, or Texas.

There will **NEVER** be any recovery for NYC after that.
