

WHUFFO ? (*Ebonics for WTF?*)

Munchausen: Here is Greg Gutfeld's unique and original insight from a recent show (paraphrased): "*Parents who consent to gender transitioning -- or who parade their gay and non-binary children around with pride -- exhibit Munchausen by Proxy.*" (That's a psychiatric condition in which a parent or guardian *virtue-signals* by keeping their child sick in order to garner sympathy or attention from others.)

Medicine NOT Politics: After decades of moral and professional corruption, the *National Institutes of Health* (NIH) and the *Food and Drug Administration* (FDA) are now in exceptionally good hands, thanks to President Trump. With Dr. Jay Bhattacharya as *Director of the NIH*, and Dr. Martin Makary as *Commissioner of the FDA*, both Hippocrates and Diogenes can safely retire without reservation. As Dr. Bhattacharya wisely observed on *Newsmax*, "*Science is based on humility.*" That was something Anthony Fauci could not possibly understand.

Diogenes and Hippocrates

Gutfeld Again: (verbatim quote) *"A NEW YORK TIMES editorial claims that defunding NPR and PBS is like defunding the police. It's true: think of all the times you've been violently assaulted and thought, 'Man, if only the cast from Downton Abbey were here'."*

Jewdiciary: Clinton, Obama and Biden nominated over 100 federal district judges who are more deserving of a stretch in prison than life tenure on the federal bench. Many are now laboring to usurp the authority of the executive branch, but only because Donald Trump is president. If these traitorous @ss-holes want to dictate immigration policy, determine the contents of the federal budget, and reorganize the executive branch, then they should resign their robes and run for Congress or president. (It would be interesting to see how that worked out for them...)

Iran's Nuclear Program: Congressman Thomas Massie (R-KY-04) has declared that President Trump's destruction of Iran's nuclear facilities on June 21st was *"unconstitutional."* He also opposed the *"Big Beautiful Bill."* **What's with this guy?** Apparently, he wants Congress to declare war whenever our military must be used. Unfortunately, as it's currently comprised, Congress couldn't reach a consensus on whether the Moon is made of **green cheese** or not. Thank God for President Trump: the Hell with Massie. Kentucky's 4th Congressional District can do better.

Zohran Mamdani: New York City's "*Democrats*" have nominated a communist and Jihadist to represent them in the November, 2025 mayoral election. Clearly, there are very few people left in NYC who aren't queers, pederasts, communists, Jihadists, illegal aliens, n*ggers, Puerto Ricans, Jewish communists, or low-grade morons. As one guest on *NewsMax* put it, "*The more educated New Yorkers are, the dumber they vote.*" If Mamdani is elected, they New Yorkers deserve what they get from *Mamdani-the-commie*. I predict NYC will be insolvent within four years of his taking office.

Defunding NPR & PBS: Senator Chuck "*Fagin*" Schumer (D-Mars,) may actually be correct when he says that people will die as a result of a GOP Congress de-funding *National Public Radio* and the *Public Broadcasting System*: when I heard him say that, I almost died laughing, myself...

One Last Gutfeld Quote: Gutfeld frequently remarks on his show in reference to Donald Trump, "*We don't deserve this guy!*" It's absolutely true: Trump sings and dances and makes us laugh, while he piles up victory after victory, like General George Patton's Third Army in Europe.
