

## N\*gra Murder Roundup

**Jillian Ludwig:** In November of 2023, this 18 year-old college student was shot to death near Nashville by a rabid ape. The n\*gger was shooting at a car and missed -- as they usually do -- but his stray bullet hit Jillian Ludwig as she was walking in a park near her school's campus, **Belmont College**. The baboon hasn't been tried yet, because experts testified he has a low IQ, implying *diminished capacity*, a diagnosis which helped him skate on an earlier crime. (Blacks reject IQ testing to predict job or academic performance, since most are retarded by white standards. However, they demand it to establish diminished capacity whenever they commit murder.)

**Jillian Ludwig**

**James Norman:** This 79 year-old white man and Army vet was dragged to his death in Norco, CA, by a black baboon who carjacked his vehicle in May of 2025. Mr. Norman was vacuuming his vehicle at a gas station when the black bastard jumped into the driver's seat of Mr. Norman's vehicle and took off at high speed, dragging Mr. Norman about a half-mile to his death. Jim Norman leaves a wife, children, grandchildren and many friends.

**Austin Metcalf:** This 17 year-old white, high school athlete was stabbed to death by a savage ape at a high school track meet in Frisco, TX in June of 2025. Metcalf was unarmed, and when he questioned the presence of the n\*gger in a tent reserved for participants in the track meet, that appears to have been sufficient "*justification*" for the black bastard to stab Metcalf. The usual apologists for n\*gger violence and tribal apes have claimed that "*This case is yet another example of what it means to be Black in America...*"

**Brianna Long:** This 21 year-old college coed was killed at work in Remerton, Georgia by a savage ape in October of 2023. She was tending bar near her school, *Valdosta State University*, when she was struck and killed by a stray bullet fired by a n\*gger. Law enforcement officers believe the fatal bullet was fired during a clash between rival gangs of primitive and subhuman apes outside the establishment. Brianna Long was a former high school beauty queen.

**July 28th N.Y.C. Victims:** Four innocent people -- including an off-duty NYC Police Officer -- were gunned down by a n\*gger in Mid-Town

Manhattan in late-July of 2025. The motives of this savage ape are murky, but he was reportedly angry at the NFL, whose offices were in the skyscraper he invaded after traveling all the way from Utah. Naturally, being a n\*gger, he couldn't find the NFL's offices, so instead he decided to shoot an innocent female **Blackstone** executive as an alternative.

**Larry Henderson:** This white, *Hamilton County Deputy Sheriff* was intentionally murdered in May of 2025 by a black savage who fatally struck him with a vehicle. The n\*gger was angry that his 18 year-old felonious son had earlier been killed in a shootout with Cincinnati police. Apparently, this baboon considered any law enforcement officer to be an acceptable target. The black bastard had the nerve to file a \$25 Million lawsuit against Hamilton County after receiving some well-deserved "*street justice*" from arresting cops. *(They should never have brought him in alive...)*

**Jacob Couch:** In April of 2025, this 32 year-old white man, husband and father of two was seated on a bench at a bus stop in Tucson, AZ, when he was nearly decapitated by a rat-n\*gger armed with a hatchet. His wife was present to witness this unspeakable crime when it was committed. *(The Klan knew how to handle this one far better than any state or federal court system...)*

**"Don't Axe Me Nuffin'..."**

**Jennifer James:** This 49 year-old white, single-mother was shot to death in May of 2025 by random shots fired by a n\*gger into her home north of Denver. The n\*gger gave the usual alibi about the gun accidentally firing, but multiple rounds were fired and two struck the victim. **Jennifer James had beaten cancer four times, but succumbed to a far more vicious and dangerous malignancy, *Africanus criminalis*, better known as The Great American Nigro.**

**Logan Federico:** In May of 2025, this 22 year-old white college student was shot to death by a sub-human black bastard in Columbia, SC. The n\*gger was in the process of burglarizing the residence where Ms. Federico was visiting, and shot her. The black bastard has a *rap sheet* that includes arrests for breaking & entering, burglary, grand larceny, strong-arm robbery, possession of a stolen vehicle, resisting arrest, and now -- thanks to useless and imbecilic judges -- homicide. **Every judge who released this subhuman rat-n\*gger should be serving life with him.**

**Graham Hoffman:** This 29 year-old white paramedic was stabbed to death in Kansas City by a rabid ape in late April of 2025. Hoffman's ambulance responded to a welfare check for a niggess wandering along a highway and bleeding heavily. The rabid ape initially refused assistance, but then agreed to go to the hospital for treatment. While in transit, the rabid niggess seized the opportunity to stab Hoffman multiple times and kill him. She had previously been arrested several times for biting first responders, but it's unknown if any contracted rabies from this sub-human species of primitive beast.

**Andrew Rainer:** In October of 2021, this 22 year-old white man and scholar was shot to death by a n\*gger savage in Memphis. The black bastard was one of four savage n\*ggers who broke into the residence of several ***Rhodes College*** students intending to rob them. One of them shot Andrew Rainer after he refused to divulge the password to his ***iPad***.

The other three members of the species *Homo habilis* are still at large.  
(They probably look a lot like this, below:)
