

## Omar & Friends

by Earl P. Holt III

For years, Minnesota has endured a growing crime wave in Minneapolis and St. Paul, largely attributable to the 82,000 Somali immigrants that Clinton and Obama resettled there during their administrations. Some are extremely backward and under-evolved Third World savages, who are barely recognizable as human.

Recently, the ***Department of Homeland Security*** (DHS) conducted a 1,000 household *door-to-door* sweep in the *Twin Cities* to uncover immigration fraud. The investigation partnered with ***Immigration Control and Enforcement*** (ICE) and was nicknamed "*Operation Twin Shield*." Their initial effort revealed that 50 percent of immigrants in the *Twin Cities* have engaged in some form of immigration fraud.

In the words of Joseph Edlow, Director of ***U.S. Citizenship and Immigration Services*** (USCIS,) investigators found "***...blatant marriage fraud, visa overstay, people claiming to work at businesses that can't be found, forged documents, abuse of the H1B visa system, abuse of the F1 visa, and many other discrepancies.***"

Edlow continued: "***Our officers found indications of fraud, non-compliance, or public safety and national security concerns. What they found should shock all of America.***" The *Twin Cities* were selected because the data revealed these areas to be rife with "***manipulation and misuse of the immigration system.***" Marriage fraud was found to be a particularly egregious problem.

Minnesota has significant immigrant populations from nations such as Mexico, Viet Nam, and India, but it is the state's Somali population where immigration fraud and other crimes are greatest. It was during

**the Clinton Administration in the 1990s that the first Somali refugees began to arrive in the U.S., fleeing the Somali civil war between rival and savage gangs that engulfed its larger cities like Mogadishu.**

The rise in crime following the influx of Somali migrants to the *Twin Cities* has bedeviled decent people in Minnesota for years. Not only do many Somalis behave like Third World savages, they vote like them, as well. Many support rabid Congresswoman Ilhan Omar (D-MN-05,) who is rumored to have married her brother, allowing him to obtain U.S. citizenship. (No one has yet asked her if she consummated the marriage.)

**The Happy Couple ?**

To be fair, Omar has denied such allegations, calling them ***"false and ridiculous."*** However, that rumor has persisted since 2016, and if her denials are accurate, the rumor could easily be put to rest with a DNA Test. (If any were conducted, the results have not been reported.)

In another case, investigators uncovered an immigrant from Kenya who bought a phony ***"Death Certificate"*** in his wife's name for \$100. His wife

and their five children already resided in Minneapolis, so it appears that she wanted no part of him. (He also had a wife in Sweden by whom he had three more children.) His plan was to marry yet, a third woman so he could become an American citizen.

Another immigrant found residing in the Twin Cities was the offspring of a ***“known or suspected terrorist on the NO-FLY LIST,”*** who made numerous attempts to commit marriage fraud before he was finally caught by *Operation Twin Shield*. He is now in *“federal housing,”* and will soon to be deported back to East Africa.

U.S.C.I.S. Director Edlow continued: ***“I want the American people to know that we are declaring war on immigration fraud. We have a responsibility to keep this system legitimate. What has been uncovered by these diligent officers over the past two weeks, that’s only the tip of the iceberg.”***
