

Communists, Historians and Jewish Envy

by Earl P. Holt III

Harvey Klehr of *Emory University* and John Earl Haynes, formerly of the *Library of Congress*, wrote a series of sensational and ground-breaking books in the 1990s, published by *Yale University Press*. They painstakingly and meticulously exposed the true nature of American communism, and its subservience to Soviet espionage. These courageous and pioneering historians unearthed vast evidence of Soviet penetration of the Roosevelt and Truman Administrations, and accurately revealed Soviet communism's evil agenda.

Much to the dismay of leftist historians, the authors also proved beyond any question that the *American Communist Party* (ACP) -- later re-named the *Communist Party of the USA* (CPUSA) -- was not only totally subservient to the Soviet Union and its spy agencies, it was established for that very purpose. (#2) In fact, the ACP was ordered by the Soviet COMINTERN to assist the Soviet NKVD and GRU in their extensive efforts

to subvert America at a time when we were supposedly allies against the Nazis, and sending the Soviets billions of dollars worth of military assistance through the “*Lend-Lease*” program. (#2)

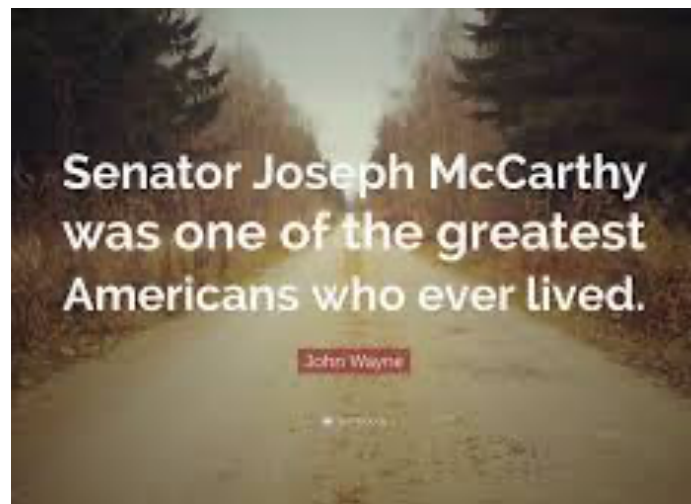

The evidence amassed by these two authors consists exclusively of **original source materials**. These include decoded messages from the COMINTERN to its agents in America, that were painstakingly deciphered by the ***U.S. Army Signal Corp*** after it broke the Soviet code in 1942. (#3) In addition, they rely heavily on documents from the COMINTERN that were mined from the ***Soviet Archives***, before its contents became sufficiently embarrassing to Soviet officials that they were forced to close the Archives to researchers in the late-1990s. (#1)

VINDICATION OF A TRUE HERO: Although it was not their intent to do so, their research (and that of many others) has vindicated even the most extreme claims made by conservative “*cold-warriors*” and other anti-communists. Perhaps most galling of all to their Marxist colleagues in academia, their research conclusively proved that Senator Joseph McCarthy (R-WI) was astonishingly accurate in warning us about the extent to which Soviet intelligence had successfully penetrated the U.S. federal government. This is in stark contrast to the claims made by McCarthy's critics.

Klehr and Haynes flee in horror from crediting Senator McCarthy with the kind of recognition he richly deserves, but their reluctance may be wisdom: in our dishonest age, most academic historians are whores for Marxist ideology. If the authors had given due credit to Senator McCarthy, relentless and deafening attacks from Marxist “*historians*” and the corrupt leftist media would have diverted attention from the astonishing evidence these researchers were able to marshal. Inevitably, it would have distracted from the evidence they uncovered.

Haynes and Klehr dared not utter such heresy, but I will: Joe McCarthy was one of the greatest and most courageous heroes this nation has

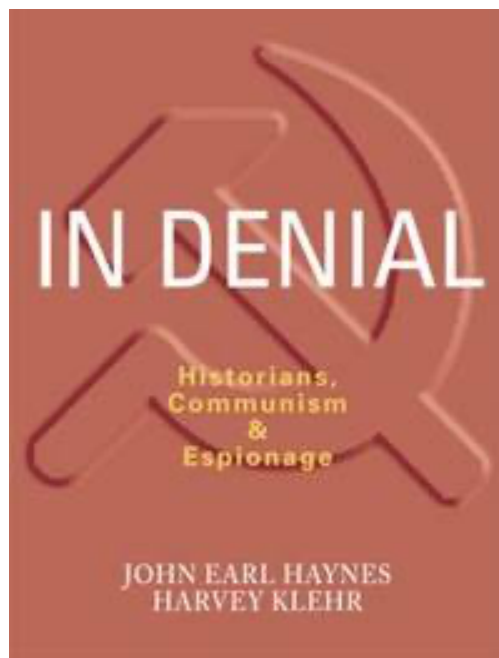

ever produced. Although the authors will never publicly concede it, every page of every work on this subject is a profound vindication of Sen. McCarthy's lonely but intrepid quest to warn America of the extent to which Soviet spies had penetrated our federal government. Unfortunately, the enemy McCarthy warned us of was far more pervasive and sinister than even he had imagined, and in the end, it proved sufficiently powerful to destroy him.

McCarthy, Probably Annotating "Lee List" of Commies in the State Department

KEEPING THE DREAM ALIVE: For exposing the brutality and inhumanity of Soviet communism in their many books and scholarly articles, Klehr and Haynes have been attacked by a great many academic "*historians*," who differed little from their ideological mentors that savaged Joe McCarthy! (#4) The majority of criticism came primarily from Jewish academics who, in the words of the authors, "*...have written bad history in the service of bad politics.*" Most of them tortured both evidence and logic in order to defend Stalin, the Soviet System, the ACP, the CPUSA, and the hundreds of Jewish spies who betrayed America's secrets to a hostile foreign enemy during World War II. (#4)

Jewish liars within the ranks of communism's defenders included such surnames as Lichtenstein, Markowitz, Navassky, Schrecker, Kovel, and Lipsitz. These are just a few of the many Jews who have worked to poison academia, and who routinely lied about evidence, ignored conclusive proof, or were forced to *spin* whatever evidence they couldn't summarily dismiss out of hand. Not surprisingly, none of them could find one good thing to say about America or democratic capitalism, the dream of tens of millions of refugees willing to risk their lives attempting to flee communism for the supposedly "evil" West.

The Jewish communists who currently dominate academia have devoted their entire lives to fomenting a socialist revolution in America, just as their forebears in the ACP did, beginning in 1919. They and their co-conspirators in the corrupt leftist media have promoted every Marxist lie to come down the turnpike, while carefully censoring the truth about Marxism in general, and the Soviet system in particular. Both correctly recognized that their dreams of a one-world socialist system would be

dashed if the American public were ever exposed to an honest, accurate and objective chronicling of the inhumanity and brutality of communism, particularly the Soviet variety under Josef Stalin.

This is why they have labored so long and so hard to “*filter*” facts about communism, and why they cling so tenaciously to a romanticized and “*utopian*” rendition of it. Like an ant colony that must attack outsiders daring to enter, they must swarm anyone who dares to threaten the tapestry of lies they’ve labored so diligently to fabricate and promote.

There’s another dynamic at work here, as well: the overwhelming majority of Soviet spies in the Roosevelt and Truman Administrations were Jews, a fact that screams out at the reader from every page of every book on this subject, no matter who the authors happen to be. Hence, as the most ethnocentric group in world history, most Jewish academics felt the need to come to the defense of their fellow Jews, since no other bond of loyalty appears to be nearly as strong... (See Earl Holt. “*American Jews Who Spied for the Soviet Union.*” Conservative-Headlines.org, April 26, 2020.)

CULTURE ENVY: What Klehr and Haynes and other authors on this subject have unwittingly exposed is the treasonous and deceitful nature of America’s Jewish left, and their pathological animus toward white and Christian civilizations. It also exposes Jewish enthusiasm for just about all things Marxist, which they have relentlessly advocated and promoted for 100 years.

Marxist Jews are envious of the “*First World*” civilizations that white Christians have created and maintained. Despite all that intellect Jews demonstrably possess, they've never succeeded in creating a *First World Civilization*: in fact, they’ve been instrumental in destroying quite a few, much like a parasite that must inevitably destroy its host. They seem to possess some sort of deep-seated psychological aberration based primarily on envy, which relentlessly drives them to undermine and

subvert the civilizations where they found refuge and sanctuary, but could never themselves create. Sadly, *Evangelical* Christians remain oblivious to this phenomenon of Jewish “*culture envy*.”

While it is foolhardy to question their demonstrable intelligence, the problem with Marxist Jews is that their judgment and character are rarely commensurate with their intellect. A glaring exception was the late Milton Friedman -- a Nobel Laureate in Economics, and the greatest social scientist in world history -- who single-handedly revolutionized the discipline of Economics. Friedman was universally despised by leftist Jews in his own profession, not only because he exposed Marxism, but also because he **WAS** so brilliant, honorable and influential.

Most Bolshevik Jews have a profound animus for anything resembling pluralistic democracy, preferring instead Marxist systems where only the most vicious and brutal psychopaths are able to rise to the top and seize power. Stalin, Mao, Hitler, Pol Pot, Castro, Idi Amin, and Mugabe are obvious examples. While this aptly describes the CPUSA's worship of Stalinism, most remain ignorant of the fact that it was Jewish socialism in the form of the Association of German National Jews which was instrumental in helping to launch Hitler and the Nazis to power in Germany.

Murderers' Row

Stalin, Hitler, Mao, Castro, Idi Amin, etc., etc.

The *Liberal Arts* in academia are a place where those who “*can’t do*” are free to safely dream up abstract theories, limited only by their wild imaginations. Tenured buffoons are free to advocate whatever foolishness they desire, whether *Critical Race Theory*, “*multiculturalism*,” “*transgenderism*,” “*feminism*,” “*deconstructionism*,” or even their corrupt and laughable historical revisionism, which too many currently practice. On the other hand, in the natural or applied sciences -- or in the business world -- faulty theories usually have disastrous real-world consequences, such as bridges collapsing or planes crashing due to equipment failure.

In their relentless pursuit of indoctrinating gullible young minds, leftist Jews in academia probably feel that no real consequences will ever ensue from their silly romanticizing about Marxism. This is a pursuit in which they frequently attempt to amuse themselves in their numerous ideological *circle-jerks*. On the other hand, a great deal of harm **HAS** resulted from such fantasizing, and it has often brought about very deadly consequences in the real world, a venue often hostile to academics or other dreamers.

REAL-WORLD COMMUNISM: In the 1920s and 1930s, a large number of communist Finns living in Canada and northern U.S. states were enticed by Soviet authorities to immigrate to Karelia — a Soviet region that shared a border with Finland — to assist in harvesting its vast timber resources. Most were “*true believers*” in Marxism or communism, who brought their wives and children with them, intending to permanently resettle in the area.

These well-meaning *pilgrims* made a fatal error in believing the contents of all those Soviet “*travel brochures*.” During Stalin’s *Great Terror* of 1937-1938, about 3,000 of the male émigrés from Canada and America were arrested on fraudulent charges, and then summarily executed along with about 8,000 other innocent victims. All were stripped, bound,

given a bullet to the back of the head, and then dumped into four mass graves that weren't discovered until 1997.

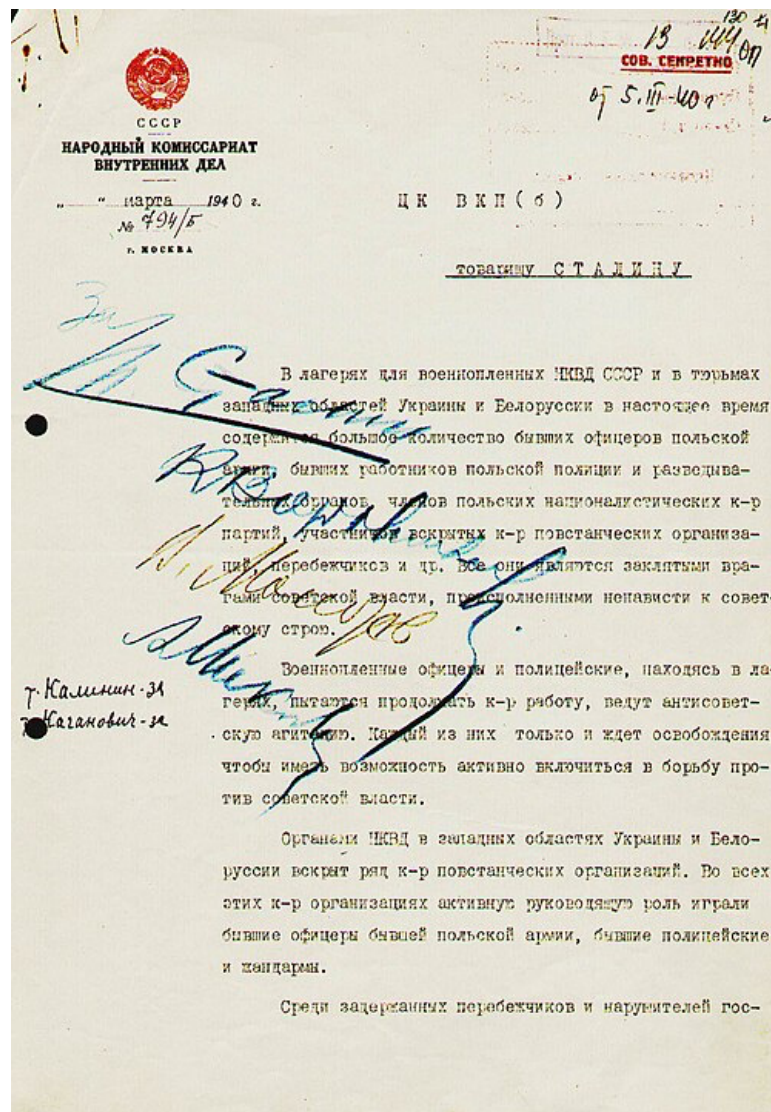

UTOPIA-SEEKERS: A similar fate befell many American communist expatriates who emigrated to the USSR in the 1920s and 1930s to experience that Soviet *"Utopia"* so artfully described in Walter Duranty's glowing dispatches to the ***NEW YORK TIMES***. Soon after arriving, hundreds of black and Jewish American-expatriates aroused the suspicions of Soviet authorities, and were summarily executed. In a delicious twist of irony, among the victims was a Jewish man named Arthur Talent, whose parents had helped to found the *American Communist Party*. When Talent's mother traveled to the USSR to inquire about the fate of her son, she was also arrested and died in the Gulag.

THE "HOLODOMOR": In one of history's best-kept secrets, Stalin intentionally murdered millions of middle-class farmers in the Ukraine (called *"Kulaks,"*) whose only offense was to resist the Stalinist policy of forced collectivization of agriculture. They made the fatal error of hoarding food for the winter. In response to an order by Stalin, Soviet Commissars seized nearly every consumable these people possessed, leaving them to starve to death. 10 million obligingly died in that manner during what is termed the *Holodomor*, which translates from Ukrainian as ***"death by starvation."***

KATYN FOREST MASSACRE: Following the brutal invasion and division of Poland under the *Ribbentrop-Molotov Pact* of 1939, (the *"Nazi-Soviet Pact,"*) tens of thousands of Polish military officers -- and civilian professionals such as lawyers and doctors -- were captured by the Soviet Red Army. On the order of Josef Stalin, himself, 26,000 were summarily executed without a hearing or formal charges, and their bodies dumped in mass graves in the Katyn Forest near Smolensk.

Since 1940, communists, socialists and other apologists for Soviet atrocities attributed this unimaginable horror to Germany's Wehrmacht,

or else tried to erase it from conscious memory. Even communist spies in the U.S. **Office of War Information** received direct *marching orders* from Moscow to promote the party line that the German Army was responsible. However, despite efforts by Soviet authorities to “*sanitize*” the Soviet COMINTERN’S Archives in 1959, NKVD Chief Lavrentia Beria’s letter of March 5, 1940 recommending this mass extermination survived. And, superimposed on the body of the letter is Stalin’s signature ordering its execution.

Stalin Ordering Katyn Forest Massacre

CONCLUSION: The vast majority of Leftist Jews in academia are enthusiastic supporters of every variety of Marxism that becomes fashionable. That's why most of what is laughingly called "*higher education*" is in such a dismal condition. Yet, Harvey Klehr, a co-author of these books, is a rare and courageous exception to this rule, and clearly no Marxist. As they did so artfully with Joe McCarthy, Marxist Jews reflexively savaged anyone who dared to tell the truth about this perverse ideology, responsible for the murder of 100 million innocent souls in the 20th Century, alone.

The hostility of Marxist Jews toward democratic institutions, their enthusiasm for our totalitarian enemies, and their treasonous efforts to subvert America prove that the left -- particularly Leftist Jews -- are a very different breed of cat from the rest of us, and in fact are totally un-American in far too many ways. Most decent and honorable people seek the truth, whether objective truth, empirical truth, or the Eternal Truths of the *Bible*. This is demonstrably NOT true in the case of Leftist Jews, who are "*very old liars*," to quote one of them.

In fact, most Leftist Jews are no longer even practitioners of their own religion, which is now merely an ethnic identity that most have discarded in favor of the new "*gods*" of Marx, Lenin and Sol Alinsky. Perhaps the best explanation is simply that Leftist Jews are the "*Seed of Satan...*" That is hard to dispute, because they've certainly gone about doing Satan's work for more than 100 years...
